

SAFETY INFORMATION

CAUTION: The Jewelry Findings have sharp points which are necessary for the products to function. Use only under adult supervision. Keep away from small children.

GENERAL CARE AND HANDLING INSTRUCTIONS FOR MICA POWDERS AND GLITTERS: The mica powders and glitters are safe and non-toxic. However, if they should get in your eyes, flush with water immediately. If irritation persists, contact a physician.

- Avoid breathing or inhaling the mica powder. Keep mica powder and glitter bags sealed when not in use.
- Wash hands with soap and water after use.
- The mica powders, glitters and Fashion Magic material will not stain clothing. If the mica powder should get on clothes, brush off excess and clean as instructed on garment tag.
- If the mica powder or glitter gets on the carpeting or furniture, vacuum as usual. If powder residue remains wipe area with damp cloth.
- Do not put Fashion Magic material on or near carpet.

Fashion Magic™ 90-Day Limited Warranty

All Tyco products are inspected and tested before shipment and are guaranteed to be free from factory defects in materials and workmanship. If you find a defective part in your set within 90 days from the date of purchase, mail the product, along with proof of the date of purchase to:

Tyco Customer Service, 8585 SW Hall Blvd., Beaverton, OR 97008-6408

We will repair or provide a replacement part or unit without charge. Please allow sufficient time for the Post Office to get the item to us, and for the item to be mailed to you. To prevent damage in transit, please pack securely. This warranty does not cover damage resulting from customer damage or abuse. This warranty gives you specific legal rights and you may have other rights which vary from state to state.

FUN TO WEAR

FASHION MAGIC™ SETS

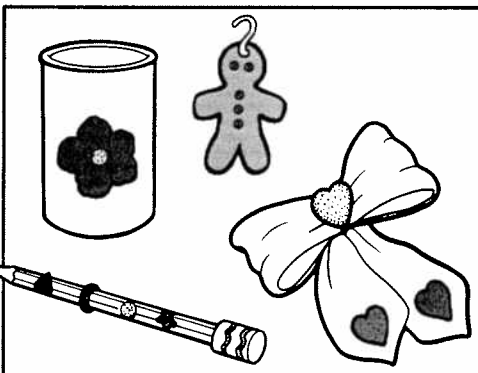

Making your very own colorful jewelry pieces and clothing designs is so much fun and so easy! The 11 different Fashion Magic sets shown all come with a selection of hot neon colors and various jewelry and clothing accessories—so you can make magical jewelry that you'll love to wear! Fashion Magic™ hardens into its finished form overnight without an oven or painting required—and it will not fade or crack or stain.

Fashion Magic has these amazing qualities.

- Can achieve a metalized look, like gold or silver jewelry.
- Can be easily blended, mixed, or marbelized.
- Picks up textures and details.
- Adheres easily to glass, metal, wood and other objects.
- Can absorb pre-printed colors from a special color transfer sheet.
- It's soft and perfume-scented, too.

DECORATIVE IDEAS

Fashion Magic adheres to glass, metal, wood, plastic and other materials, so you can decorate almost anything. Use chips and cut-out pieces of Fashion Magic to brighten up soda cans and bottles, pens, pencils, lunch boxes, notebooks, toys—anything and everything. Make unique decorations for the holidays. Decorate your letters and cards!

Use your imagination!

COLOR MIXING

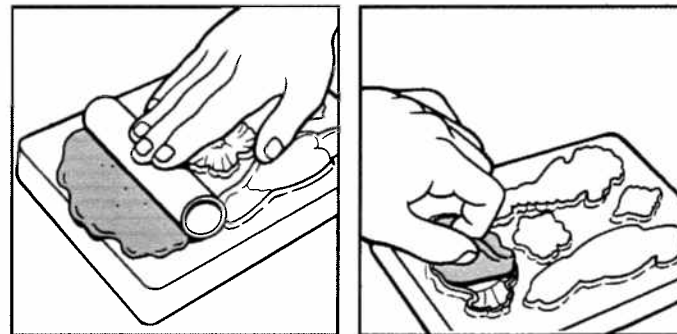

You can create the unlimited colors with Fashion Magic, simply by mixing colors together. Here are a few easy colors for you to make, depending on your set.

COLOR CHART

- PINK + YELLOW = ORANGE**
- BLUE + YELLOW = GREEN**
- PINK + BLUE = PURPLE**
- PURPLE + YELLOW = BROWN**

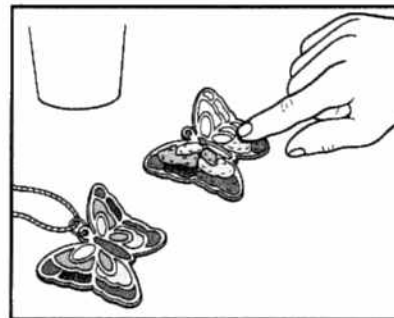

MOLDING

Work material by hand to soften. If the material becomes too dry during play, wet he and knead moisture back in. Roll material into a ball and push into mold. Push roller l and forth across mold

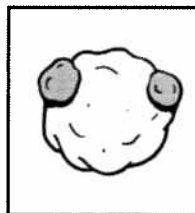

Remove excess mater from edges. Leave material in mold for 5 minutes, then lift out b loosening an edge w trim knife or finger.

Hint: For easier removal from the mold, let the material set for 5 min

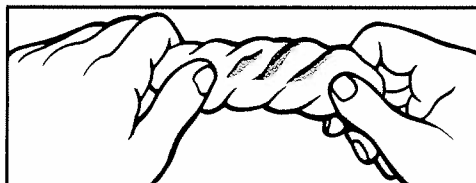

To create *Dazzling Designs*, place the mold go side down. Fill cavities with different colors of Fashion Magic. To make designer jewelry, atta the gold rings to finished pieces. Pull ring slightly apart with your fingers or pliers, hook through l tighten ring, then tie gold string to ring to make necklace or charms for a bracelet. To create sta glass window hangings, place your piece gold up, attach a suction cup and hang in your winc

MARBLEIZE

To obtain a multi-colored swirl look, roll a small ball of Fashion Mc and add one or two smaller pieces of contrasting colors. Squish colors together, then twist and fold with your fingers—about 10 times—until you get the look you want.

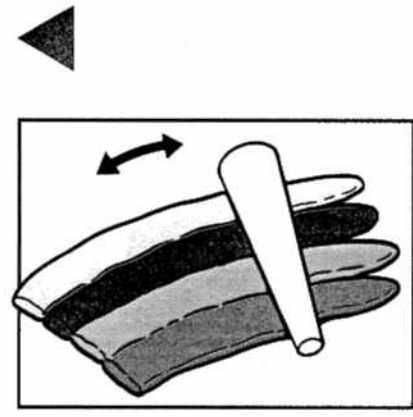

Hint: Don't blend colors too long or they will become a solid color

Roll into a ball and flatten on playmat. Now you can make your own funky shapes by cutting pieces with trim knife or safety scissors.

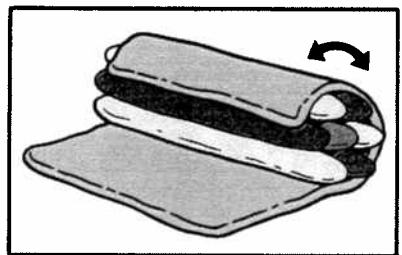

RAINBOWS ★

To make rainbows, use as many colors as possible. Start with 4 different colors. Make a long "worm" of each color by rolling Fashion Magic between your hands. "Worms" should all be the same size. Place the 4 "worms" side by side and use special angled Rainbow Roller to flatten into a rainbow shape. Create "rainbow jewelry" by using cookie cutters. Attach findings to create vividly colored earrings, pins and other jewelry.

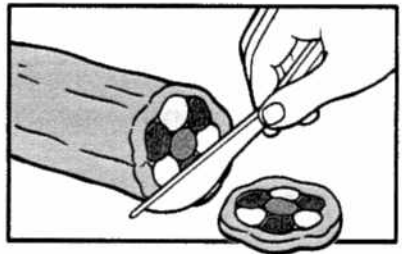

JEWELRY WHEELS

Place short "worms" of different colored Fashion Magic together (put a bright color in the middle!) like a bunch of pencils, then wrap a solid flattened color around the bunch.

Roll bunch between your hands to make it long and thin, then place it in the refrigerator for about 15 minutes. After removing, use trim knife to slice off multi-colored jewelry wheels. Attach findings to backs of these pieces to make earrings or pins.

Let Fashion Magic continue to air dry until it hardens.

COOKIE CUTTERS

Press cookie cutter onto flattened Fashion Magic. Wiggle cookie cutter slightly to release shape from rolled out material. Or cut squares and triangles and your own crazy-fun shapes with trim knife.

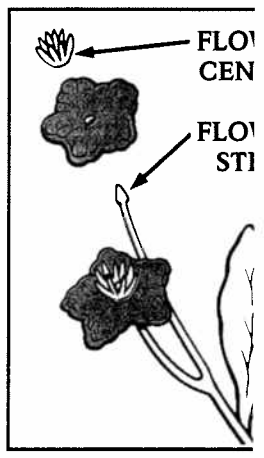

FLOWERS

Using the *Tropical Treasures Set*, you can make Fashion Magic flowers with realistic leaves and stems. Make flowers with the mold that comes with the

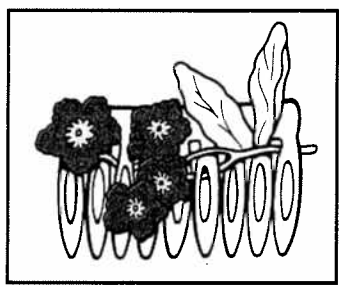

To attach flowers, remove pistil (flower centers) from tops of stems. Push each stem up through center of a

Fashion Magic flower— just far enough for the arrowhead to poke through. Reattach flower centers by pushing them back over arrowheads until they "catch".

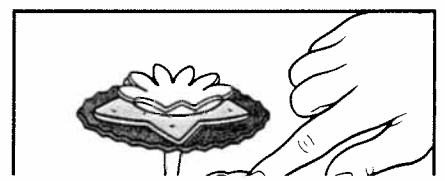

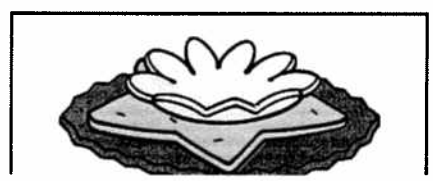

Hang flower upside down so petals form a buttercup shape and allow to dry.

Use completed Fashion Magic flowers as you use real flowers. Weave a Fashion Magic flower through a ring to make it a gorgeous pin! Surprise someone you like!

To make *Flower Fun*, flatten out compound with the roller, then cut out flowers and petals with the cookie cutters. Combine and layer floral shapes to create original, fancy flowers. Attach to pins, earrings, rings or string to make jewelry.

Create a bouquet of flowers by affixing buds to tips of plastic stems, finally add glitter to display in a vase for decoration.

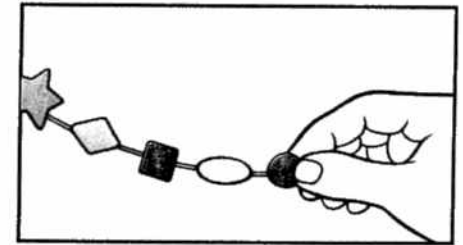

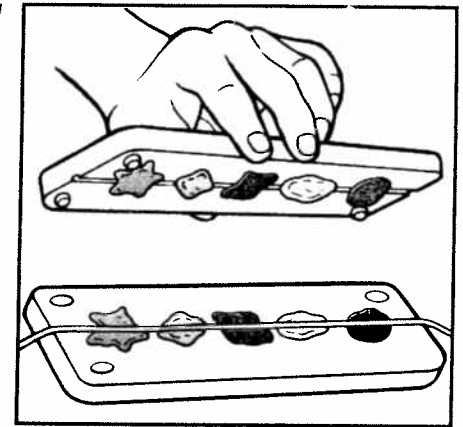

BEADMAKER

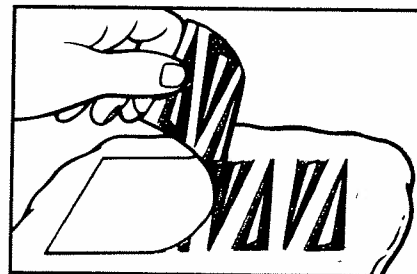

Use the 2 bead molds that come with the *Cool Jewels Set* to make a unique necklace with beads of Fashion Magic!

Place Fashion Magic in each opening of both molds. (To make two-color beads, put one color in one mold and another color in the other.) Place the necklace string in the groove of the mold that has the cutting edge.

Next, place the two molds together and hold firmly for a few seconds. Open molds and carefully remove beads by the string. Use trim knife to remove excess material. Carefully slide the beads together after they are dry. Then place another portion of the string in the mold to make more beads. Continue doing this until you have enough beads for a complete necklace.

TRANSFER SHEETS

Transfer sheets let you apply colorful designs to Fashion Magic. Designs work best on white Fashion Magic. For best results, always use moist Fashion Magic. Choose the transfer sheet you want and cut it out along dotted line. Place design side down on flattened Fashion Magic material. Use roller again—back and forth a few times—to press design into Fashion Magic.

Leave transfer sheet in place for a minute or two. Peel back transfer sheet slowly. Now you can create exciting jewelry pieces by using molds or cookie cutters or by cutting out various shapes with trim knife or safety scissors (not included).
