OBJECT OF THE GAME
To be the first player to reach 500 points. Points are scored by getting rid of all the cards in your hand before your opponent(s). You score points for cards left in your opponent's hands.

HOW TO PLAY
The player whose birthday is closest to Harry Potter's birthday (July 31st) deals.

Once the cards are shuffled, each player is dealt 7 cards.

The remainder of the deck is placed face down to form a DRAW pile. The top card of the DRAW pile is turned over to begin a DISCARD pile. If no Action Card is the first one turned up from the DRAW pile, the rules apply for FUNCTIONS OF ACTION CARDS.

The player to the left of the dealer begins play. This player takes the turn on the DISCARD pile either by number or color, if needed.

For example: If the card is a red 7, the player must put down a red card or any color 7. Alternatively, the player can put down a Wild card or a DRAW card.

If the player doesn't have a card to match the one on the DISCARD pile, they must take a card from the DRAW pile.

If the card is picked up by the player, the player is free to put it down.

The other players follow in turn, taking turns in clockwise order.

Players may choose not to play a playable card from their hand. If so, the player must draw a card from the DRAW pile. If playable, that card can be put down in the same turn, but the player may not use a card from the hand after the draw.

After the draw, the player continues play.

FUNCTIONS OF THE ACTION CARDS
The functions of the Action Cards, and when they may be used, are set out below:

DRAW 3 CARD: When this card is played, the next person to play must draw 3 cards and then their turn.

This card can only be played on matching colors or on another Reverse card. If this card is played at the beginning of play, the player to the left of the dealer determines the color which continues play.

Skip Card: The next player to play after this card has been laid loses their turn and is "skipped." The card may only be played on a matching color or on another Reverse card. If this card is played at the beginning of play, the player to the left of the dealer determines the color which continues play.

WILD CARD: The person playing this card calls for a color to continue play, including the one currently being played, if so desired. A Wild Card can be played at any time – even if the player has another playable card in their hand. If a Wild Card is played at the beginning of play, the player to the left of the dealer determines the color which continues play.

WILD DRAW FOUR CARD: This is the best card to have. The person who plays it calls the color which continues play and then draws 4 cards from the DRAW pile and must draw 4 cards from the DISCARD pile. If the Wild Draw Four card can only be played when the player holding it does not have a playable card, then the Wild Draw Four card is played. A player holding a Wild Draw Four card loses 4 cards from their hand. If they are caught certain rules apply (See PENALITIES). If this card is turned up at the beginning of play, it is returned to the deck and another card is picked.

HOWLER™ CARD (WILD): The person playing this card may only be played on them. They call out the name of the other player (see PENALITIES). Once a player has 3 cards left, the game is over. Points are scored (see PUNTING) and play proceeds from there.

If the last card played in a turn is a Draw 3 or Wild Draw Four, the next player must draw the 3 or 4 cards respectively. These cards are counted when the points are totalled.

If no player is out of cards by the time the DRAW pile is depleted, the deck is reshuffled and play continues.

SCORING
The first player to get rid of their cards receives points for cards left in opponents' hands as follows:

All number cards (0-9) Face Value

Draw 3 20 Points

Reverse 20 Points

Wild 20 Points

Wild Draw 4 50 Points

Howler™ Card 50 Points

Invisibility Card 50 Points

WINNING THE GAME

The WINNER is the first player to reach 500 points. However, the game may be scored by keeping a running total of the points each player is caught with at the end of each hand. When one player reaches 500 points, the player with the lowest points is the winner.

PENALTIES

The first 2 players to say "UNOS" before their second-to-last card touches the DISCARD pile, but remembers (and shouts "UNOS") before any other players "catches" them, is safe and not subject to the rules of the other players (see PENALITIES).

If the first 2 players to shout "UNOS" before their second-to-last card touches the DISCARD pile, but remembers (and shouts "UNOS") before any other players "catches" them, is safe and not subject to the rules of the other players (see PENALITIES).

Once a player has 3 cards left, the game is over. Points are scored (see PUNTING) and play proceeds from there.

If the last card played in a turn is a Draw 3 or Wild Draw Four, the next player must draw the 3 or 4 cards respectively. These cards are counted when the points are totalled.

If no player is out of cards by the time the DRAW pile is depleted, the deck is reshuffled and play continues.

GOING OUT
When a player has only one card left, they must yell "UNOS" (meaning "one"). Failure to do this results in them having to pick up the last card in the DRAW pile. This is called a "Howler," because they are caught by one of the other players (see PENALITIES). Once a player has 3 cards left, the game is over. Points are scored (see PUNTING) and play proceeds from there.

If the last card played in a turn is a Draw 3 or Wild Draw Four, the next player must draw the 3 or 4 cards respectively. These cards are counted when the points are totalled.

If no player is out of cards by the time the DRAW pile is depleted, the deck is reshuffled and play continues.
