A

BATTERY CHARGING

FOLLOW EACH STEP CAREFULLY

It is important that you use only a Power Wheels® Type H battery.

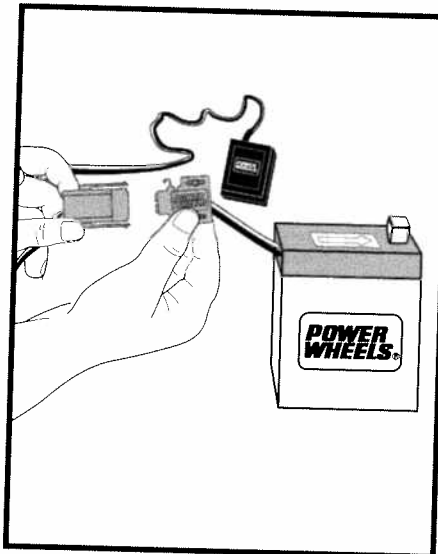

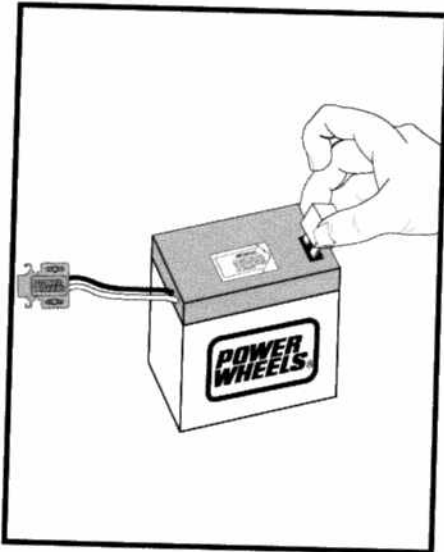

This battery has the correct plug connectors and dimensions necessary for proper battery compartment fit.

For more information on this 6-volt Type H battery, please refer to your Owner's Manual.

ASSEMBLY
BY

**ADULTS
ONLY**

**DO NOT
OMIT ANY
STEPS**

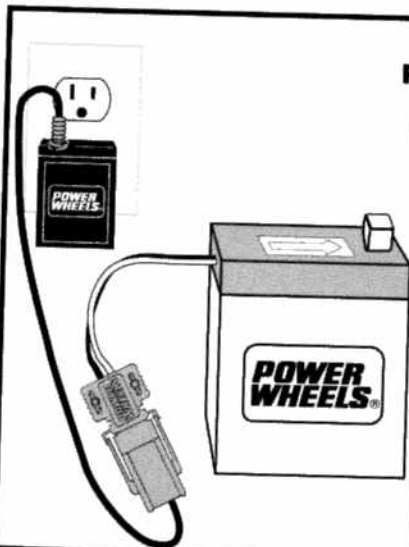

1

INSERT thermal fuse into battery.

YOUR vehicle has the Power Wheels® Lock-In™ connectors.

SQUEEZE tabs on charger and push into battery connectors to lock in. (To disconnect, simply squeeze tabs and pull.)

FIRST TIME

18 HRS.

CAUTION

Leaving the battery in a discharged condition will ruin it. The battery must be charged once a month even if the vehicle is not used. Carefully read the battery care instructions in the Owner's Manual to obtain the best battery life.

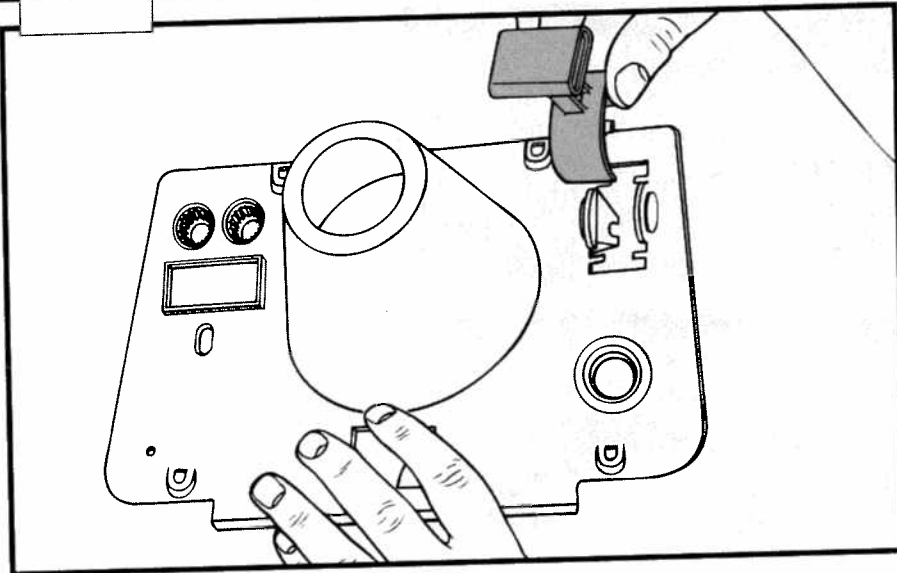

2

PLUG battery charger into wall outlet.

CHARGE battery for a minimum of 18 hours for the first charge. (After that, 14 hours is enough.) Power Wheels® recommends not charging over 30 hours.

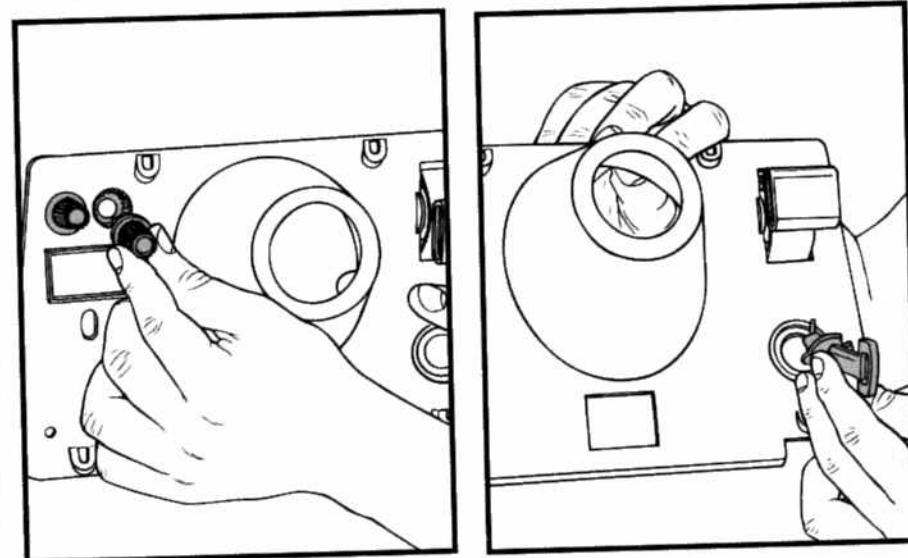

B

DASH ASSEMBLY

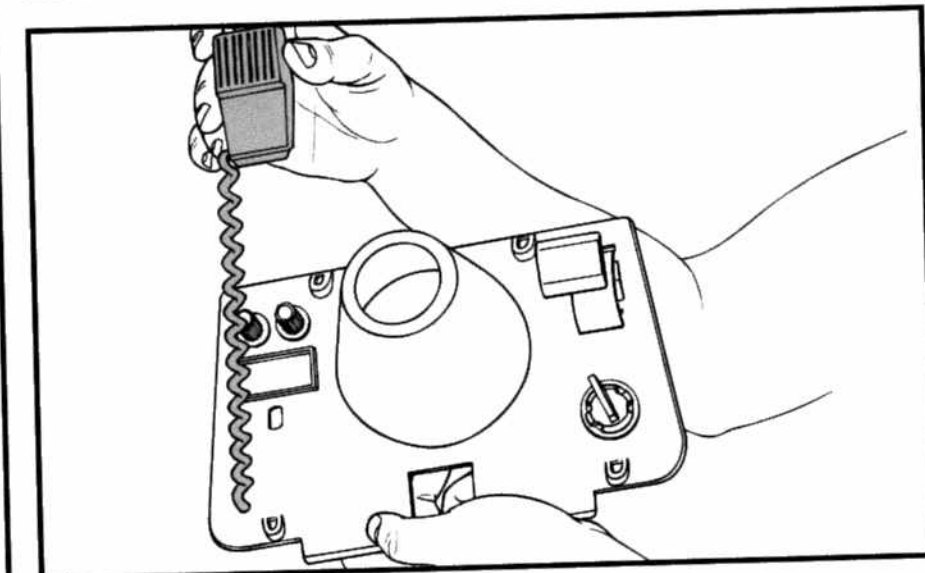

1

SNAP shifter into dash.

2

SNAP radio knobs into dash.
SNAP key assembly into dash.

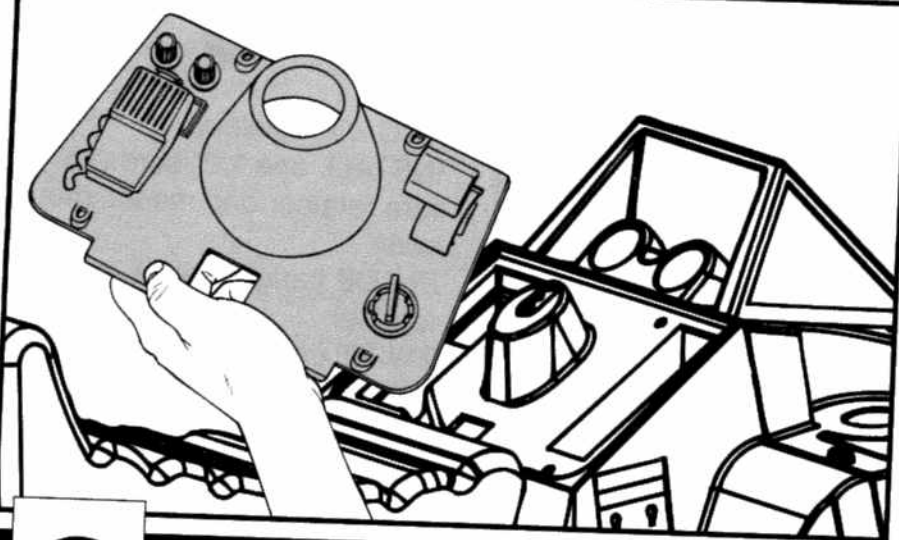

3

SNAP microphone cord into dash.
PLACE microphone in notch in dash.

4

PLACE assembled dash over chassis.
INSERT four 3/4" screws into holes.
TIGHTEN.
Note: Insert bottom two screws first to prevent dash from tipping out of pocket.

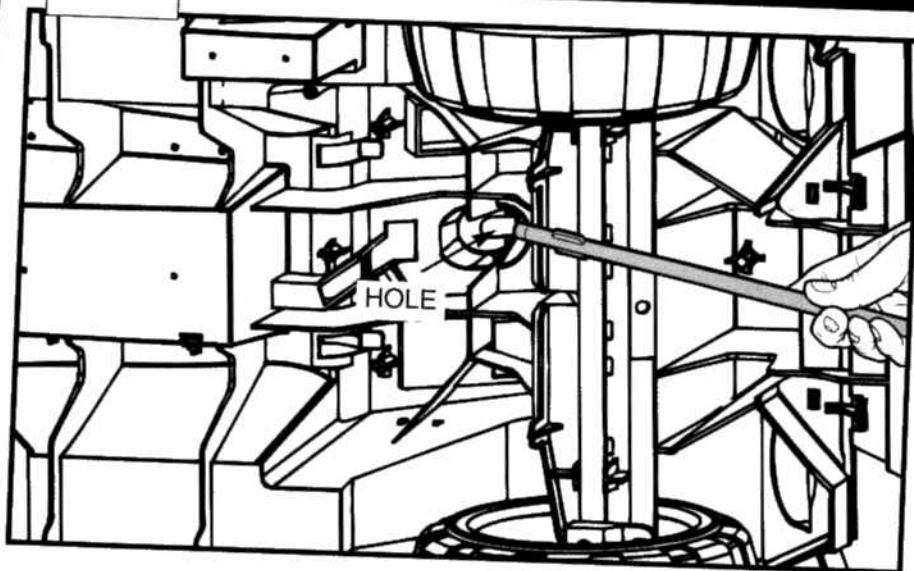

C

STEERING COLUMN / STEERING WHEEL

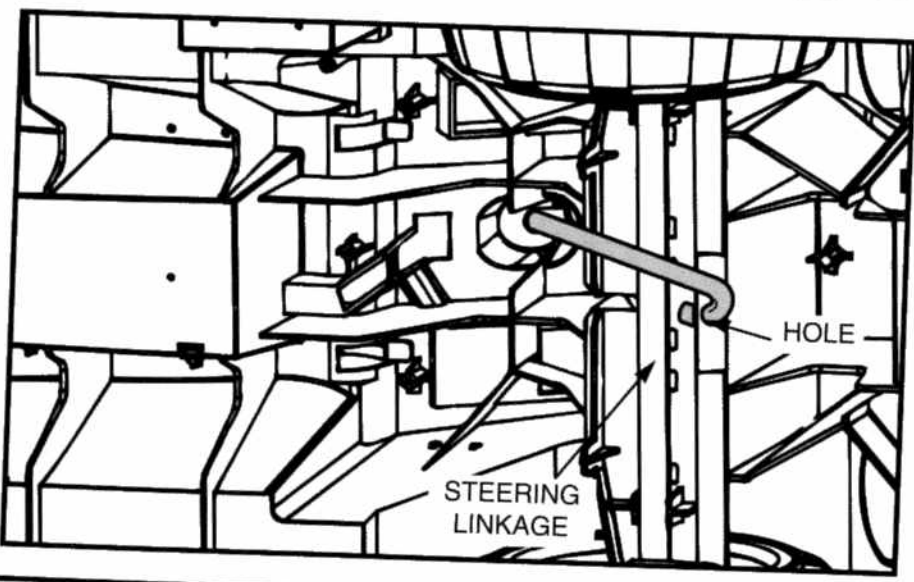

1

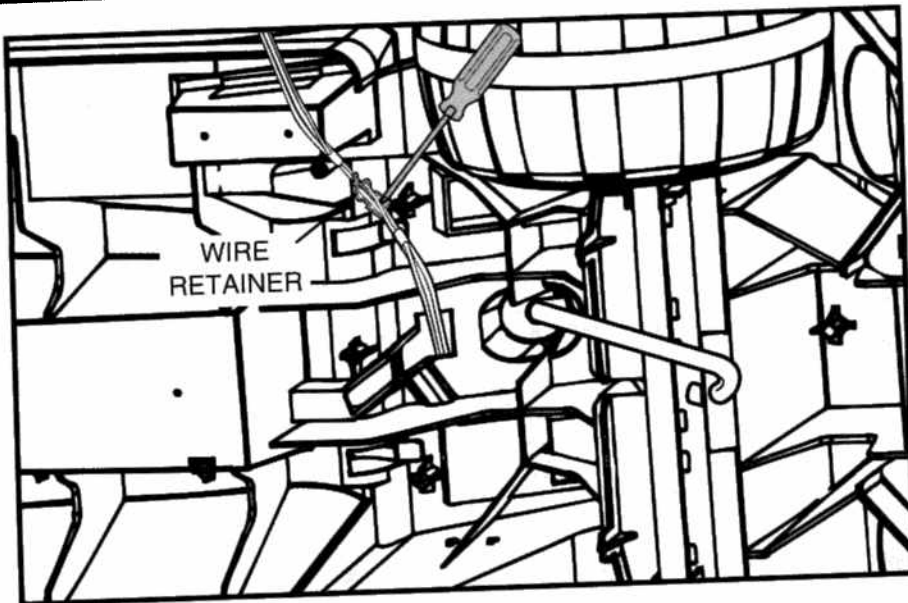

TURN vehicle upside down.
SLIDE steering column through hole in underside of body and through hole in top of body.

2

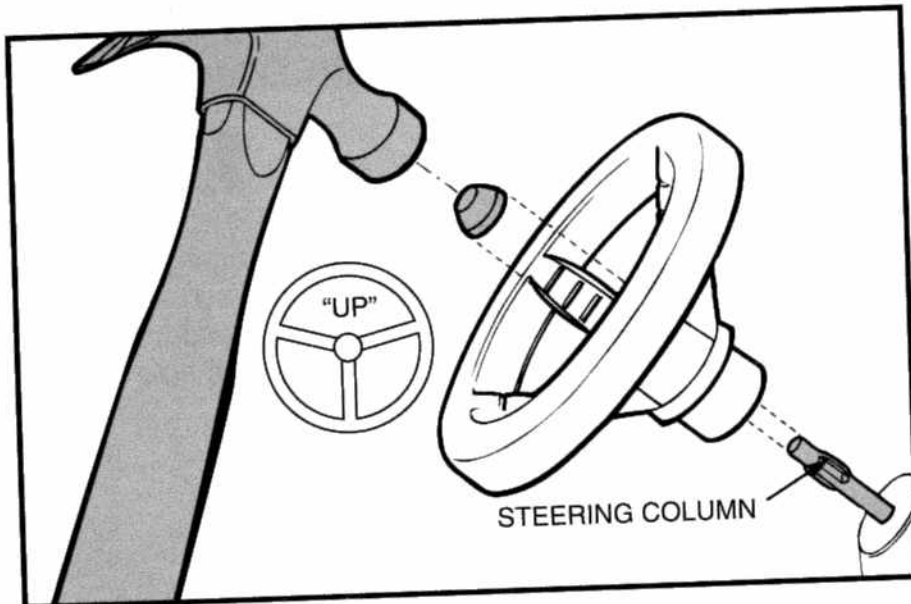

INSERT curved end of steering column through hole in steering linkage.

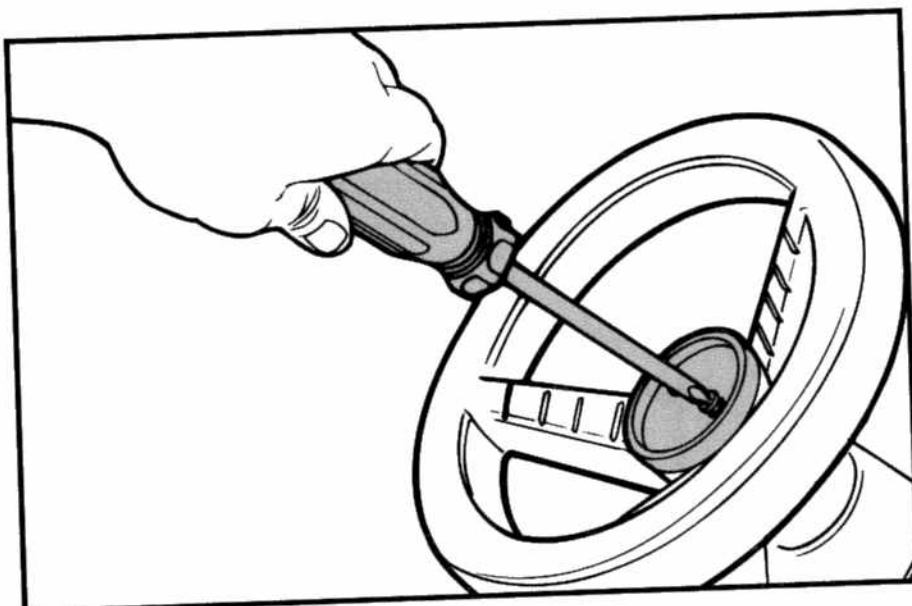

3

ADD wire retainer.
 INSTALL one 1/2" screw in wire retainer and mount into body.
 PLACE hanging wires in wire retainer.
 TWIST ends of wire retainer to hold wires against body.

4

SUPPORT curved end of steering column.
 TURN vehicle upright.
 PLACE steering wheel on steering column, right side up.
 HAMMER retainer onto top end of steering column.

5

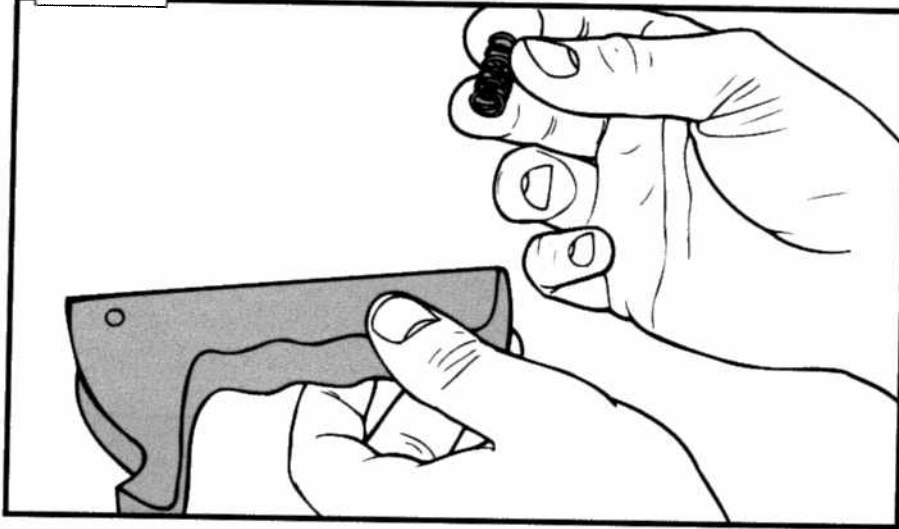

PLACE steering wheel plug into steering wheel.
 INSERT two 1" screws into holes.
 TIGHTEN.

D

DUMP BED LATCH

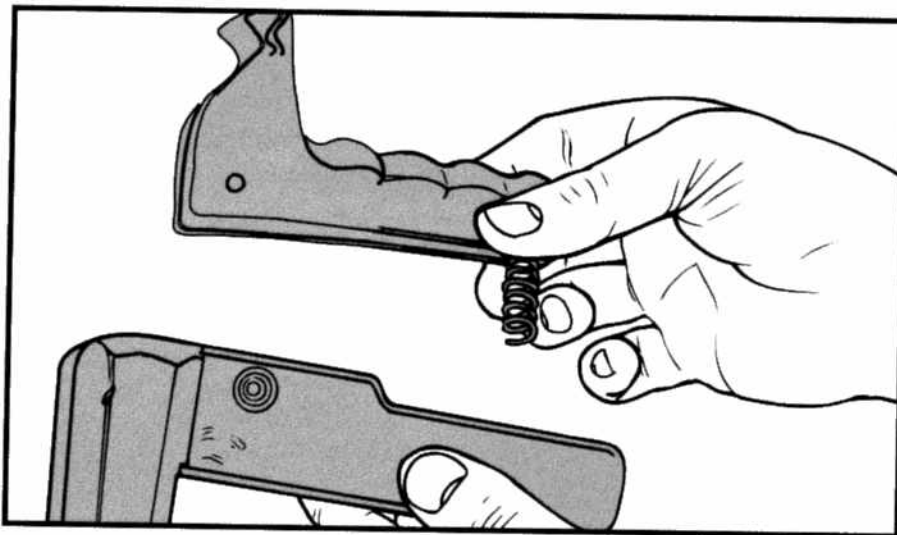

1

PLACE large spring over protrusion on latch handle.

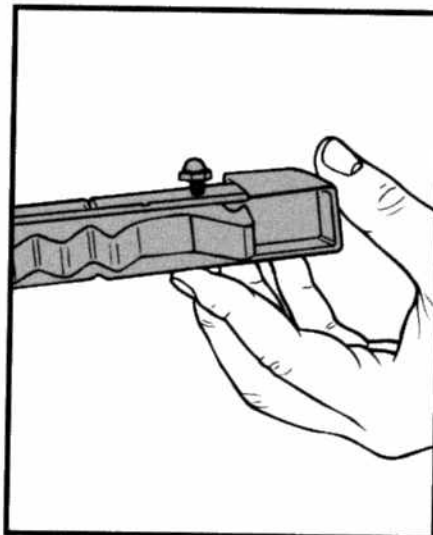

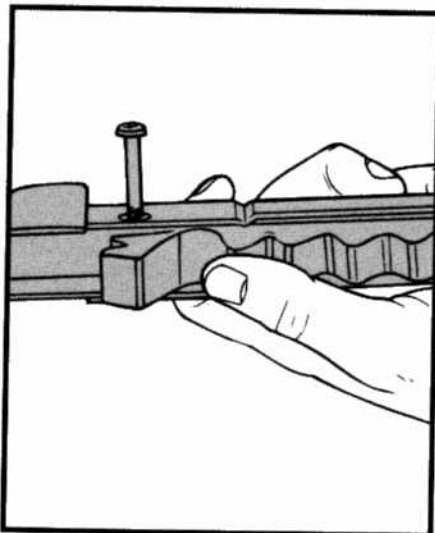

2

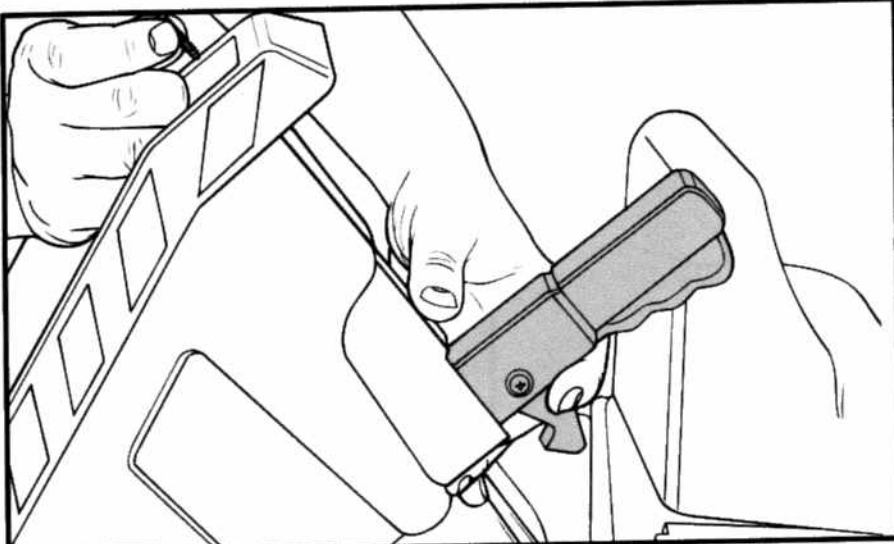

ASSEMBLE upper and lower halves of latch release lever.

3

INSERT shoulder bolt.
SCREW on acorn nut.
TIGHTEN.

4

SLIDE latch assembly into cavity on underside of dump bed.
INSTALL a 1" black screw into top side of dump bed.
TIGHTEN.

E

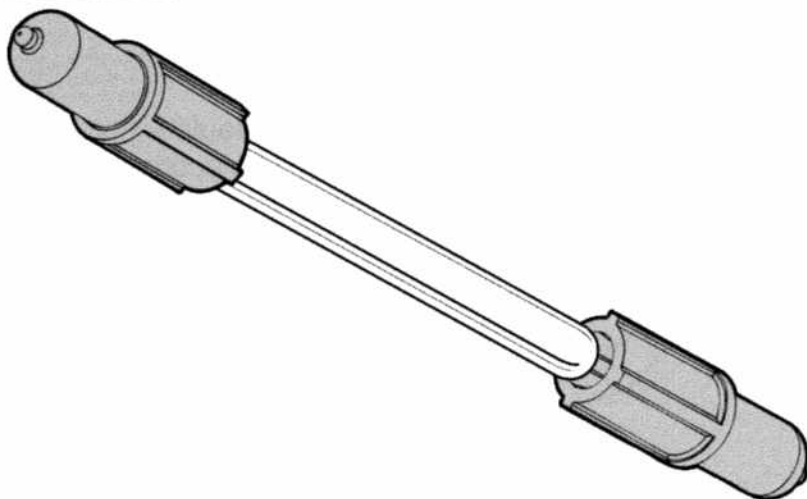

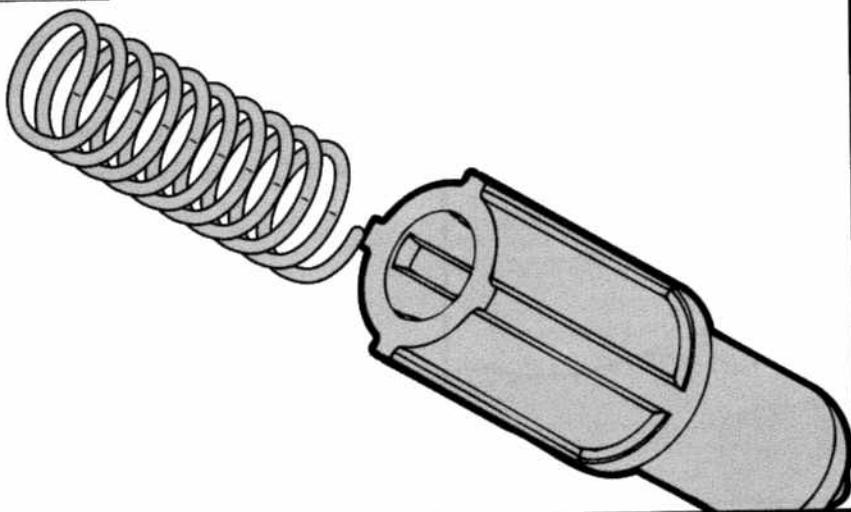

DUMP BED INSTALLATION

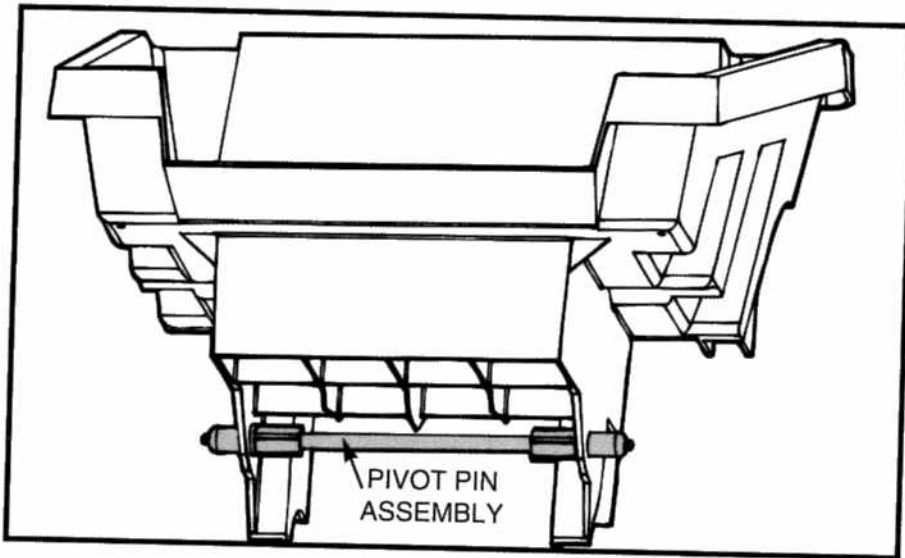

1

DROP a small spring into each bullet.

2

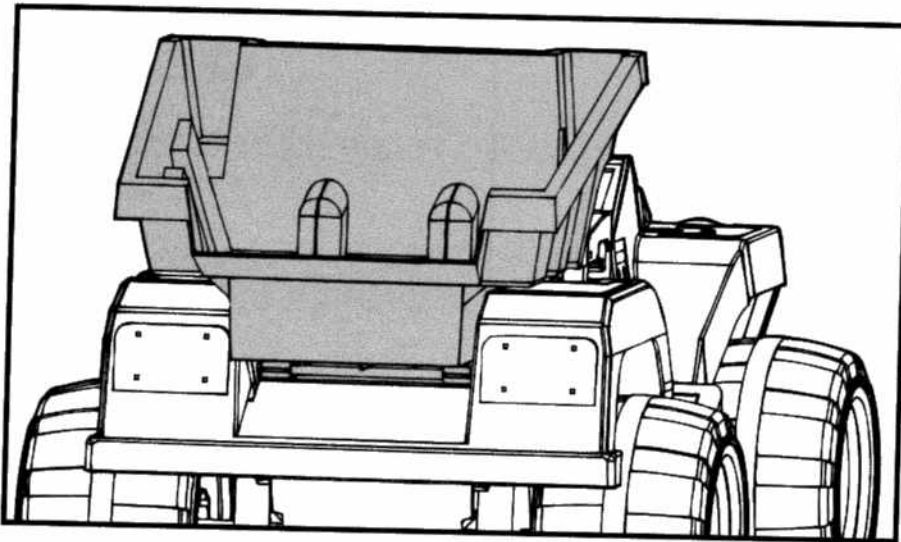

PLACE bullets onto ends of pivot pin.

3

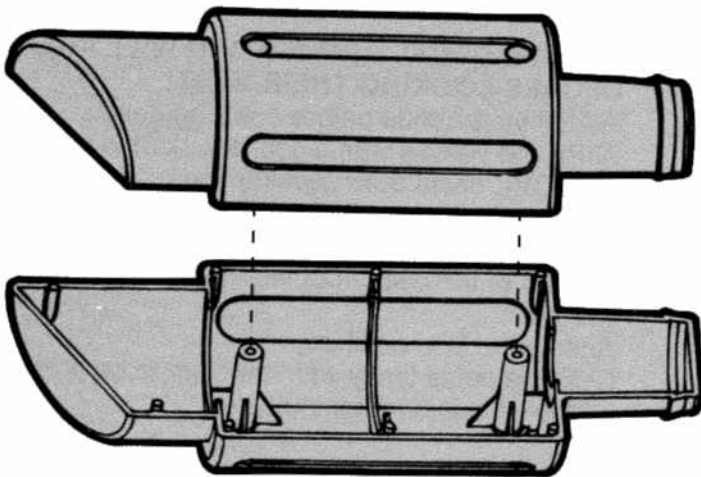

SQUEEZE pivot pin assembly to install into underside of dump bed.

4

SQUEEZE bullets from outside on dump bed. ALIGN with holes in rear of body. RELEASE bullets and snap into body.

F STACK

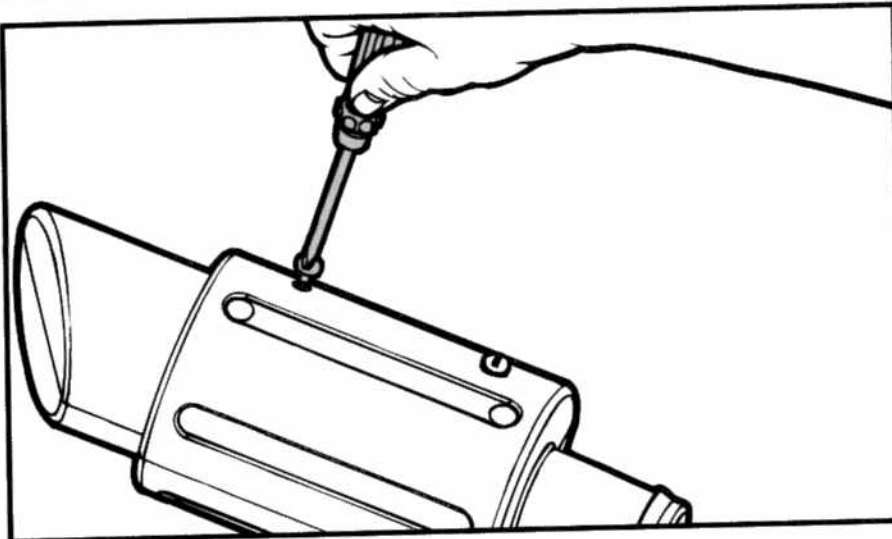

1

ASSEMBLE halves of stack.

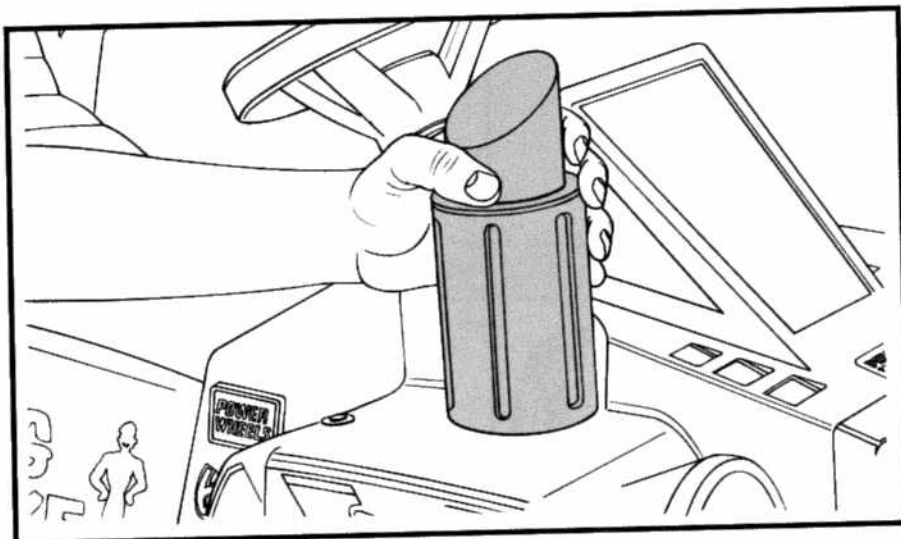

2

INSTALL two 1-1/2" black screws into stack.

3

PLACE stack into body.

G

DECALS

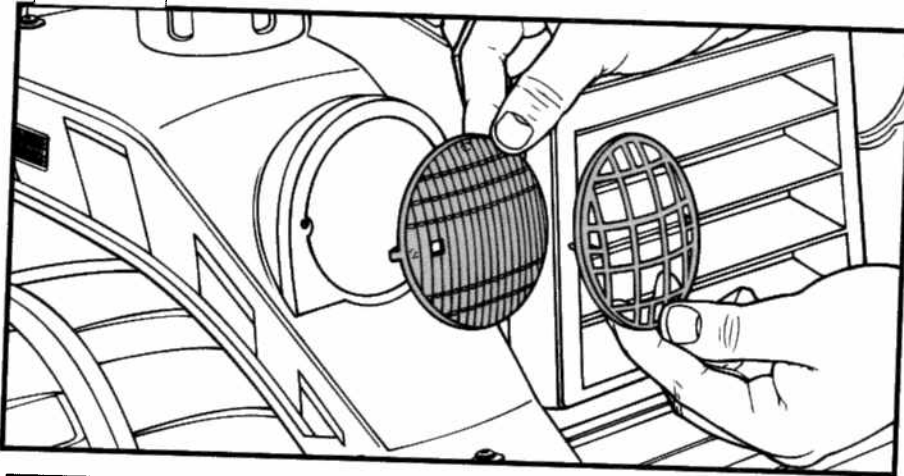

PROPER DECAL APPLICATION WILL KEEP THE DECALS LOOKING THEIR BEST!

WASH your hands before applying decals.
WIPE the vehicle with a soft **dry** cloth to remove dust.
REMOVE decal from backing sheet.
ALIGN decal in desired position.
LAY down one edge of decal, then slowly lay down the rest of the decal rubbing toward the center as you go.
After decal is in position,
RUB the decal firmly with the cloth to be sure adhesive is in firm contact.

H

LENSES / LIGHTS

1

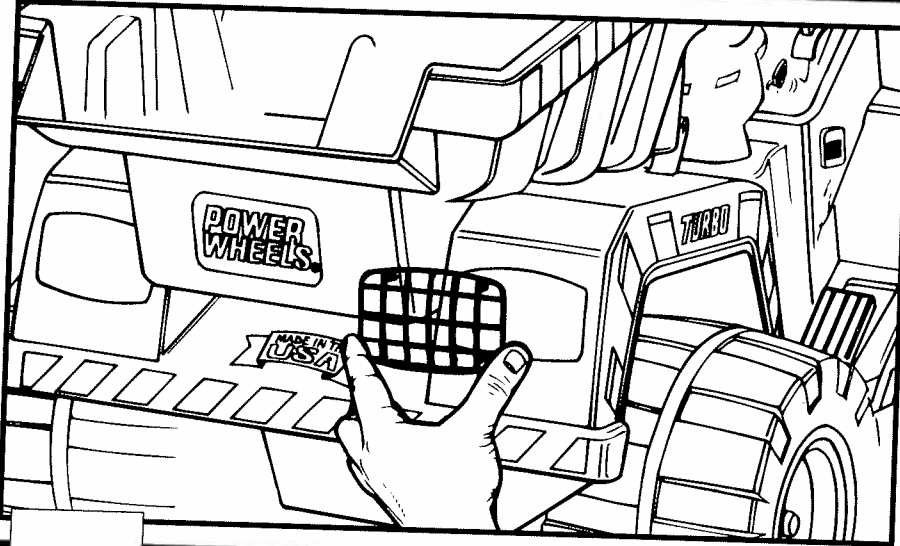

(FRONT LENSES)

ALIGN tabs in lenses with body.
SNAP lens set into place.
REPEAT on other side.

2

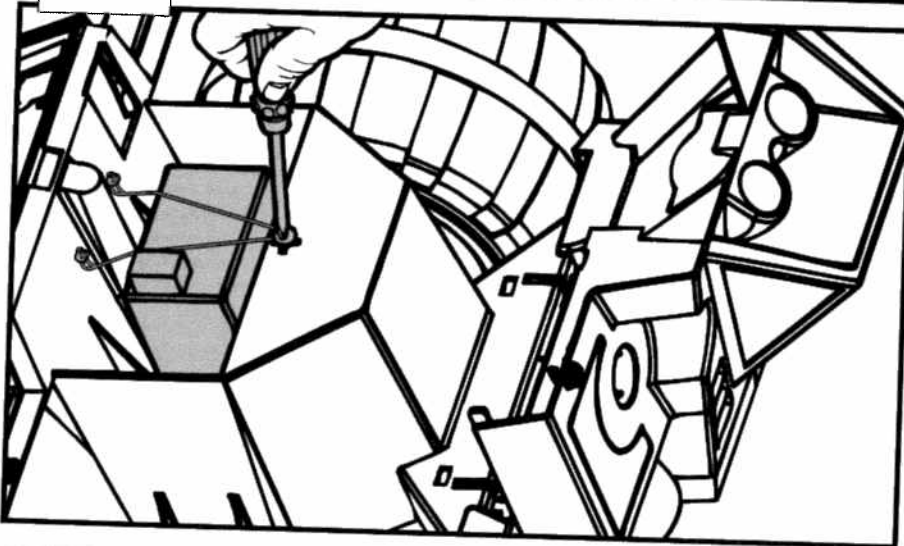

(REAR LENSES)

APPLY decal.
INSTALL lens guard on each side of back.

I

BATTERY INSTALLATION

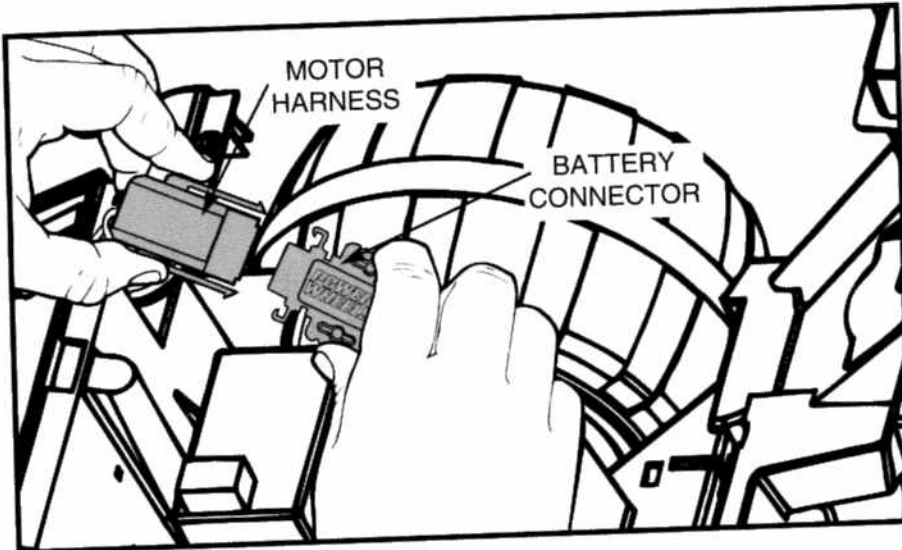

1

OPEN hood.
PLACE battery in compartment.
PLACE battery retainer into slots in body.
INSTALL one 7/8" screw into front of battery retainer.

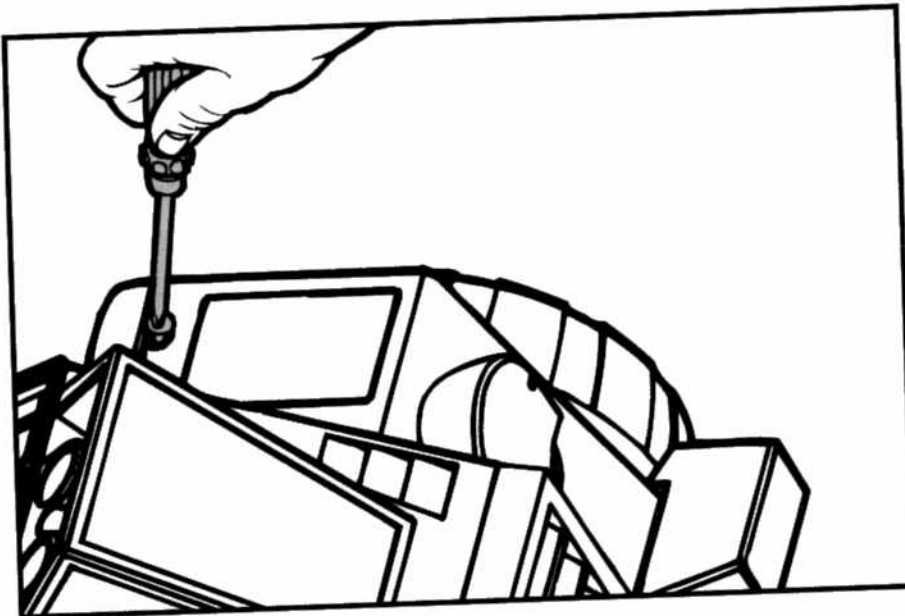

2

SQUEEZE tabs on motor harness and push into battery connector to lock in.

3

CLOSE hood.
TURN hood fasteners 1/4 turn clockwise to lock.

IMPORTANT

Carefully read your Owner's Manual for important safety messages and operating instructions before using your vehicle.

REMEMBER THE FIRST TIME . . .

Charge the battery for a minimum of 18 hours.

AFTER THAT . . .

Charge the battery a minimum of 14 hours.

TRACTION DIFFICULTIES

When a very lightweight child is driving the vehicle, traction may be less than desired on certain surfaces.

To improve traction, we suggest adding approximately 5 pounds to the compartment under the seat. Do not add weight under the dump bed, motor cover, front cab, or other places on the vehicle. Add weight only under the seat. As the child grows, the extra weight can be decreased or eliminated.

If you are still experiencing traction difficulties,
or have other questions, please call toll-free
