BATTERY REPLACEMENT

For best performance, we recommend replacing the batteries that came with this toy with two, new alkaline “AAA” (LR03) batteries.

- Locate the battery compartment door on the backpack.
- Loosen the screw in the battery compartment door with a Phillips screwdriver. Remove the battery compartment door.
- Insert two “AAA” (LR03) **alkaline** batteries, as indicated inside the battery compartment.

Hint: We recommend using **alkaline** batteries for longer battery life.

- Replace the battery compartment door and tighten the screw with a Phillips screwdriver. Do not over-tighten.
- Slide the backpack back onto the figure.
- When lights from this toy become faint or stop, it's time for an adult to change the batteries!
