**⚠ WARNING**

**ADULT SUPERVISION NECESSARY.**  
An unsupervised child operating the vehicle could be seriously, even fatally, injured. Children do not have the judgment necessary to avoid many accidents. Be sure that children operating this vehicle are supervised at all times.

# Thank you for buying a Power Wheels® Highway Patrol!

For over twenty years, Power Wheels has manufactured high-quality, battery-powered vehicles for children. Our constant goal is to provide your youngster with an enjoyable - and safe - driving experience. To help achieve this goal, ***it is extremely important that you read this entire manual, and share the appropriate information with your child.***

## About Your Owner's Manual

### Locating Information

For ease of reference, your manual contains:

- (1) Table of contents - for quick reference to general topics.
- (2) Index - located at the back of the manual - for quick reference to specific topics listed alphabetically.

## Safety Messages and Vehicle Information Notices

Throughout this manual you will find important messages as follows. Please read all of them carefully.

 **WARNING**

**WARNING** - SIGNALS SOMETHING THAT COULD HURT YOUR CHILD OR YOU. The message explains the hazard and how you can avoid it.

 **CAUTION**

**CAUTION** - SIGNALS SOMETHING THAT COULD DAMAGE THE VEHICLE. The message explains the risk and how you can avoid it.

**NOTE:** Is used to highlight useful information about the vehicle.

## CAUTION

Do not operate the vehicle until you have inserted the 25AMP fuse and charged the BATTERY FOR A MINIMUM OF 18 HOURS. **Failure to do so will permanently damage your BATTERY and VOID YOUR WARRANTY.**

## CAUTION

To avoid damage to motors and gears:

- Don't overload the vehicle. The maximum load is one child
- Maximum weight is 50 lbs.
- Do not tow anything behind the Highway Patrol. The extra weight may overload the vehicle.

## TO GO FORWARD:

Press down on the foot-pedal.  
Vehicle goes forward at 2-1/2 mph.

## TO STOP:

Lift the foot off the foot-pedal. Your Highway Patrol has a patented, electronic braking system that automatically stops the Highway Patrol when the foot is lifted from the pedal.

Have the child practice so that he or she becomes familiar with the forward speed and automatically knows how to stop.

## ADULT SUPERVISION REQUIRED

This section of the manual discusses how to help make your child's driving experience enjoyable and safe. Please read this section carefully, and pay special attention to all safety instructions below. While children can quickly develop the skill necessary to drive the vehicle, it is important to remember that their judgment skills are still very immature.

Unsupervised driving by children can lead to serious injury. Children are not always able to recognize or anticipate hazards, even when they have been taught about them. There is no acceptable substitute for adult supervision.

**! WARNING**  
**Always supervise a child's driving.**  
 Improper use of this vehicle could lead to a serious or fatal accident. Allow a child to play with this Highway Patrol only when you have determined that he/she can do so safely. Follow all instructions below to help the child enjoy this vehicle as safely as possible.

**Prevent unsupervised use.** To prevent unsupervised driving, it is a good idea to disconnect the motor harness from the battery. Just raise the seat and unplug the motor harness.

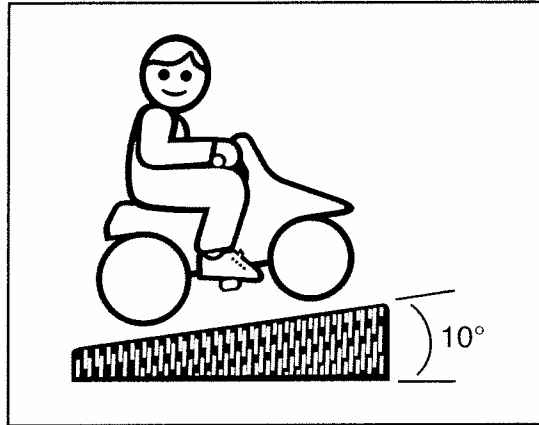

## REVIEW SAFETY RULES WITH CHILDREN

Review appropriate safety rules with your children. These rules should also be reviewed with neighbor children or other playmates who want to drive or ride. Before the children use the Highway Patrol, the adult should carefully evaluate the driving area as well as the children's ability.

1. Do not permit any child to drive the Power Wheels® vehicle in the street or near moving, adult vehicles. Driving the Power Wheels vehicle in areas of motorized traffic is very dangerous. Always supervise the child's driving and monitor the driving area.
2. Do not permit any child to drive near bodies of water (such as pools or creeks), obstructions (such as furniture, low tree limbs or play equipment), or drop-offs (such as stairs or decks).
3. Forbid driving in the dark. A child could encounter unexpected obstacles and have an accident. Operate the vehicle only in the daytime or in a well-lighted area.
4. Teach the child to avoid driving on inclines or slopes. Restrict the child's driving to areas that are level. Driving down a steep slope, the vehicle may gain unsafe speed even if the foot pedal is released to stop.

## RULES FOR SAFE DRIVING

Incline should never be more than 10°

- Driving across a slope, the vehicle may tilt and tip over. The wheels could lose traction causing the vehicle to slip.
- Driving up an incline the motor may stop and the vehicle could roll backwards at an unsafe speed.

5. Operate this vehicle with no more than one child. Children sitting on other places or standing on the vehicle could fall off the vehicle, cause a tip-over or block the driver's view. A child could be seriously injured.
6. Watch out for moving parts. Children must never put anything near any moving parts while the vehicle is in operation. Rotating parts, such as motors, gear boxes and wheels, can snag fingers, hair, etc., and pull them into compression points causing serious injury. Do not permit operation of vehicle on its side or in an upside-down position.

## MONITOR SAFE DRIVING CONDITIONS

An ideal driving-area maximizes play value and safety. It should be:

- Protected from any and all motorized traffic.
- Flat and level.
- An area with an appropriate surface. The Highway Patrol vehicle can operate on hard surfaces such as asphalt and cement. Avoid loose dirt, debris, sand and gravel.
- A driving area free of any hazards such as obstructions, drop-offs and bodies of water.

A safe driving-area is far away from flammable vapors (gasoline, paint thinner, acetone, liquid wax, etc.). The foot-pedal switch, like most electrical switches, emit an internal spark when first turned on. In the presence of flammable liquids or vapors, you could have an explosion or a fire. Keep all such products in tightly sealed containers and away from the vehicle.

Several conditions affect the performance of your vehicle and the length of operating time, including:

- Driving surface
- Passenger weight
- How thoroughly the battery is charged
- Whether the vehicle is used intermittently or continuously

## SWITCHES

Do not allow the vehicle switches to get wet.

### CAUTION

Avoid operating the vehicle in water, and do not spray the vehicle with a hose.

Avoid operating the vehicle in loose dirt. Water and/or loose dirt in the switches can cause them to corrode or jam which could cause switch failure.

## VEHICLE MAINTENANCE

### PERIODIC CHECK-UPS

To ensure that your vehicle stays in good operating order, we recommend that you have your vehicle checked by an Authorized Power Wheels® Service Center. See page 23 for the list of Authorized Service Centers or call 1-800-348-0751 for the location of the Center nearest you.

### CLEANING THE VEHICLE

The vehicle can be wiped down with a soft, dry cloth. Do not use automotive wax. Do not spray with a hose.

### STORING THE VEHICLE

During snowy or rainy weather, the vehicle should be stored inside or under a protective cover.

## BATTERY

### WARNING

Alterations to this vehicle could cause a fire resulting in injury. Alterations could also ruin the electrical system. This vehicle and its electrical system should never be altered in any way. Never add unauthorized parts to the vehicle. Never use substitute parts. *Use only specified Power Wheels replacement parts.*

Your vehicle is powered by a Power Wheels Type H battery, which can be recharged with the Power Wheels Type H charger included with your purchase. **Use only Power Wheels specified batteries, fuses and chargers with Power Wheels vehicles.**

**⚠ WARNING**

**BATTERY MUST BE HANDLED BY  
ADULTS ONLY.**

The battery is heavy and contains sulfuric acid (electrolyte), and if dropped could result in serious injury.

Read the cautions on the back panel of the battery.

***Never permit a child to handle battery.***

**IF A BATTERY LEAK DEVELOPS:**

- Avoid contact with the leaking acid.
- Place the damaged battery in a plastic bag. (See page 17 for proper battery disposal.)

**IF ACID COMES IN CONTACT WITH  
SKIN OR EYES:**

- Flush with cool water for at least 15 minutes.
- Call a physician.

**IF ACID IS INTERNALLY INGESTED:**

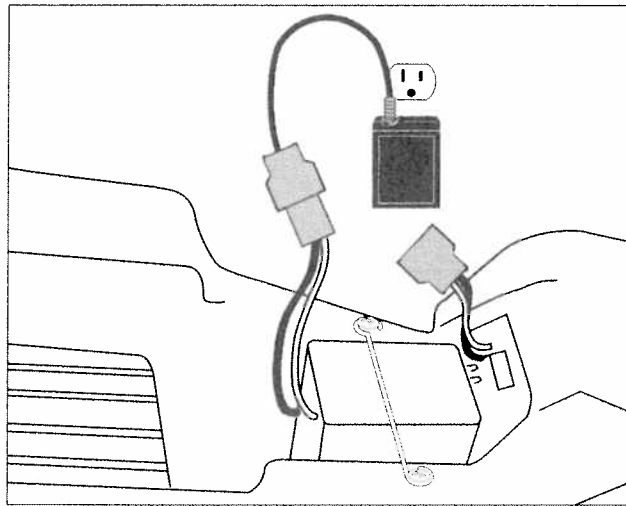

- Give plain water, milk of magnesia or egg whites immediately.
- Do not give emetics or induce vomiting.
- Call a physician.

## BATTERY CHARGING

### **⚠ WARNING**

**BATTERY CHARGING MUST BE DONE  
BY ADULTS ONLY.**

A child could be injured by the  
electricity involved in charging a battery.  
*Never permit children to  
charge the battery.*

## BATTERY CHARGING

**STEP 1:** Lift seat to gain access to battery. Be sure that a 25 AMP fuse is installed and not blown.

**STEP 2:** Unplug motor harness from battery connector.

**STEP 3:** Plug connector on charger to connector on battery.

**STEP 4:** Plug charger into standard 110 Volt wall outlet. (If outlet is controlled by a wall switch, be sure it is on.)

**STEP 5:** Recharge battery for 18 hours. **Do not charge longer than 30 hours.** If charging more than 30 hours is done repeatedly, it will:

- shorten battery life
- decrease vehicle running time

**NOTE:** While the battery is charging the charger may become warm to the touch. This is a normal condition and does not indicate a problem.

## BATTERY REPLACEMENT

Replacement batteries, chargers, and fuses must be specified Power Wheels® parts. To replace these items, contact:

- the store where you purchased the vehicle
- an Authorized Service Center (see page 23), or
- Power Wheels Customer Service: 1-800-348-0751

## PRESERVING THE BATTERY

Rechargeable batteries do not last forever. The life of the battery depends on the following factors:

- how well you follow the battery care instructions
- the total number of hours the battery is used

### WARNING

Do not lift or carry the battery by the wires or connectors. This can damage the battery and possibly cause a fire. *Lift and carry the battery by the case only.*

### CAUTION

Leaving the battery in a discharged condition will ruin it. Battery must be charged once a month, even if the vehicle is not used. Follow the battery-care instructions carefully to obtain the best battery life.

## BATTERY CARE

- Charge new battery for 18 hours before first use.
  - After the first charge, always recharge battery for a minimum of 18 hours.
  - Charge the battery after each use, regardless of how long the vehicle was used. This battery is not a nicad battery and *should not* be run down completely before charging.
  - Do not recharge battery longer than 30 hours. This could shorten battery life and decrease vehicle riding time.
  - Do not allow the battery to run down completely (until the vehicle does not move).
- Charge battery for 18 hours before storing vehicle. Charge battery for 18 hours once a month even if vehicle is not used.
  - Do not store battery in temperatures above 75° F or below -10° F.
  - Never allow the battery to move freely inside the battery compartment. Check the battery each time you recharge the vehicle.
  - Examine charger and battery periodically for wear and damage. If damage is detected, charger and/or battery should not be used and should be replaced.

## BATTERY DISPOSAL

- THIS SEALED LEAD-ACID BATTERY MUST BE COLLECTED, RECYCLED OR DISPOSED OF IN AN ENVIRONMENTALLY SOUND MANNER.
- The incineration, landfilling or mixing of sealed lead-acid batteries with the municipal solid waste stream is **PROHIBITED BY LAW** in most areas.
- Return this battery to a federal or state approved lead-acid battery recycler. This may be a Power Wheels® Authorized Service Center or a local seller of automotive batteries. **In MINNESOTA call 1-800-348-0751 if further disposal information is required;** or
- Contact your local waste management officials for other information regarding the environmentally sound collection, recycling and disposal of this battery.

## ANSWERS TO COMMON QUESTIONS

- Q.** How often do I need to charge the battery?
- A.** Unlike a nicad battery, the Power Wheels® lead-acid battery has no memory. It's best to charge the battery after each vehicle use, or whenever the vehicle begins to slow down. When the vehicle is not in regular use, recharge the battery once a month until normal use is resumed.
- Q.** How much riding time should I get after recharging the battery?
- A.** From one to three hours of playtime per recharge. The riding time is affected by the riding surface (soft, hard, smooth, rough, flat) and the weight the vehicle carries. Riding time is also affected by how well the battery was recharged.
- Q.** What is the life expectancy of the battery?
- A.** Battery life depends on how well you follow the recharging instructions. It's also affected by the total number of hours the battery is used.
- Q.** Does the fuse have to be in when I'm charging?
- A.** Yes! The battery must have a good fuse installed when recharging and during use.
- Q.** How can I tell if the fuse is blown?
- A.** See the drawing on page 14.
- Q.** How can I tell if the charger is working?
- A.** If your charger becomes warm to the touch when it is plugged in, then it is probably working. However, some chargers do not get warm. So even if yours is not warm, it still may be working.
- Q.** If I have a problem that I can't solve myself, what should I do?
- A.** Power Wheels has over 300 Authorized Service Center locations. They can repair vehicles under warranty, or out of warranty, or sell you the proper parts for you to do the repair work. These service centers have factory-trained personnel, and use only genuine Power Wheels replacement parts. If there is not an Authorized Service Center in your area, call Power Wheels Customer Service toll-free: 1-800-348-0751.

If the vehicle fails to operate, do not return it to the retail store. Complete the following check list.

**FIRST:** CHECK THE FOLLOWING LIST.

**Vehicle is missing parts:**

- Call 1-800-348-0751 (See page 20).

**Vehicle has stopped running:**

- Is fuse installed in the battery?
- Is the fuse blown? (See page 14.)
- Are the wiring connections secure?

**Vehicle runs sluggishly:**

- Was the battery recharged for 18 hours with a good fuse installed?

**Vehicle continuously blows fuse:**

- Are you using a 25 AMP fuse?
- Are the motor wires securely attached?
- Are the driving conditions too demanding for the vehicle? (See page 10.)

**SECOND:** If, after completing the checklist, the vehicle still fails to operate, please contact your nearest Authorized Service Center (See page 23). Or contact Power Wheels Customer Service toll-free 1-800-348-0751.

**HINT:** For faster service when calling Customer Service, charge battery for 18 hours before calling, and have the following available by the phone:

- The vehicle.
- Vehicle model number (see sticker in battery compartment).
- Vehicle production run number (see sticker in battery compartment).
- Phillips and flathead screwdrivers plus pliers.
- An extra fuse is helpful.

## STATEMENT OF LIMITED WARRANTY

90-DAY LIMITED WARRANTY FOR THE POWER WHEELS® RIDE-ON TOY VEHICLE.

A 6-MONTH BATTERY WARRANTY APPLYING ONLY TO THOSE 6-VOLT BATTERIES WHICH WERE INCLUDED BY POWER WHEELS, WITH THE POWER WHEELS VEHICLE WHEN ORIGINALLY PURCHASED.

This limited warranty covers the Power Wheels ride-on vehicle and the 6-volt battery, purchased from Power Wheels by the original purchaser, against defects in materials and workmanship. This warranty covers normal use and does not cover the Power Wheels vehicle or battery if it has been damaged by unreasonable use, neglect, accident, abuse, misuse, improper service or other causes not arising out of defects in materials or workmanship. This warranty does not cover, and is intended to exclude, any liability on the part of Power Wheels, whether under this warranty or implied by law or any indirect or consequential damages for breach of warranty. Some states do not allow the exclusion or limitation so this limitation may not apply to you.

Should you need service or assistance with your vehicle during the warranty period, DO NOT RETURN THE VEHICLE TO THE STORE. Power Wheels has provided a nationwide network of Authorized Service Centers. Please refer to the list in this manual. Power Wheels is continually expanding our Authorized Service Center network. If there is not one in your area, please call Customer Service for information, 1-800-348-0751.

This warranty gives you specific legal rights, and you may also have other rights which may vary from state to state.

YOU MUST FILL OUT AND RETURN THE ENCLOSED WARRANTY REGISTRATION CARD WITHIN SEVEN (7) DAYS FROM THE DATE OF PURCHASE.

# SERVICE CENTERS

Power Wheels® vehicles may occasionally need service just like real vehicles do. Here is a list of carefully selected and specially trained authorized Service Centers who can fix your POWER WHEELS vehicle, supply new parts and batteries and answer questions about the assembly and operation of your POWER WHEELS vehicle. Please refer to the list below for the Authorized Service Center location nearest to you.
