Warning

Consumer Information

<table>
<tr><td>

⚠ WARNING

Prevent serious injury or death from falls or sliding out.

- The child should be secured in the high chair at all times by the restraining system, either in the recline, semi-recline or upright position. The restraint belts must be adjusted to fit your child snugly. The tray is not designed to hold the child in the chair.
- Always keep child in view while in the high chair.
- Never leave child unattended.
- It is recommended that the high chair be used in the upright position only by children capable of sitting upright unassisted.

Assembly

> ## ⚠ CAUTION
>
> This product contains small parts in its unassembled state. Adult assembly is required.

IMPORTANT! Before each use or assembly, inspect this product for damaged hardware, loose joints, missing parts or sharp edges. **DO NOT** use if any parts are missing or broken. Contact Fisher-Price® for replacement parts and instructions if needed. Never substitute parts.

1
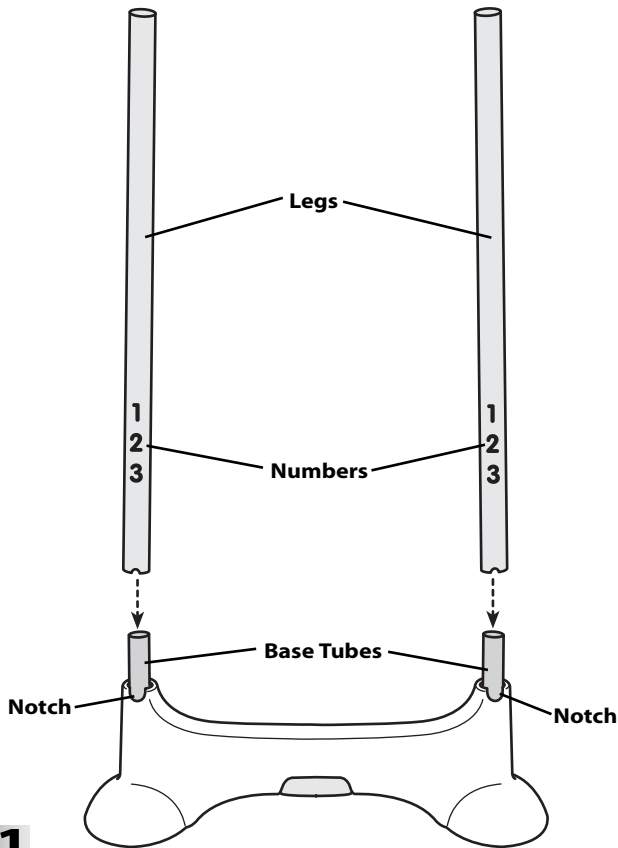

- Position a base so that the notches face you.
- Position two legs so that the numbers face you.
- Fit a leg onto each base tube.
- Twist and push each leg until it **"snaps"** into each base tube.
- Repeat this procedure to assemble the remaining two legs to the other base.
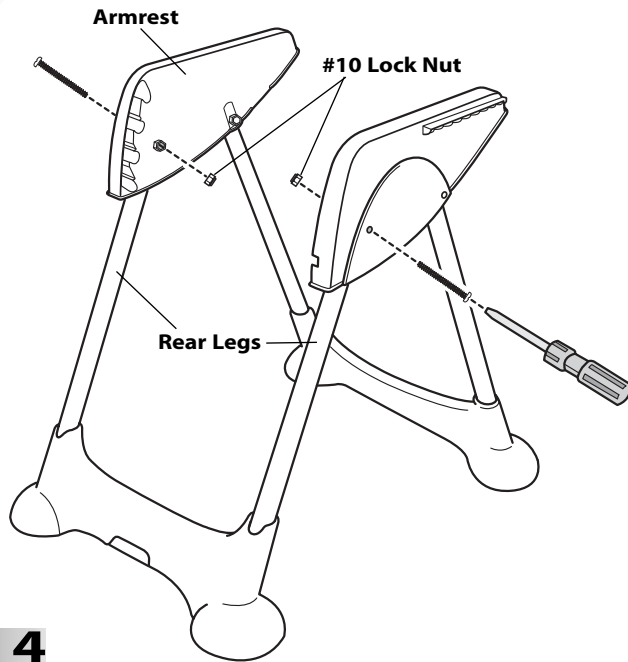

2
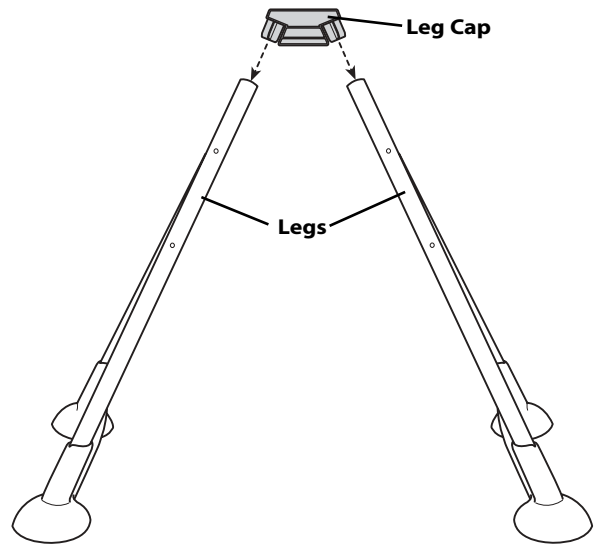

- Fit a leg cap into the openings of two legs, as shown.
- Push down on the leg cap to be sure it is secure, **and there is no gap between the top of the legs and the leg cap.**
- Repeat this procedure to attach the other leg cap to the other two legs.

3
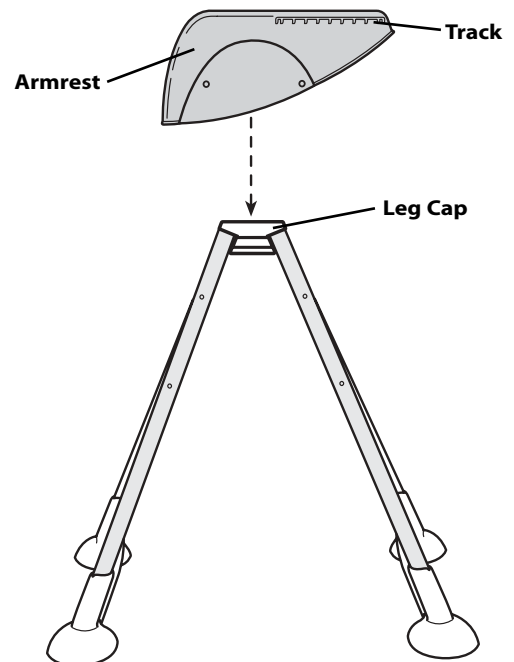

- Position an armrest so that the track is facing out.
- Fit the armrest onto a leg cap, as shown.
- Repeat this procedure to attach the other armrest to the other leg cap.

Securing Your Child

IMPORTANT! Before each use, inspect this product for damaged hardware, loose joints, missing parts or sharp edges. DO NOT use if any parts are missing or broken. Contact Fisher-Price® for replacement parts and instructions if needed. Never substitute parts.
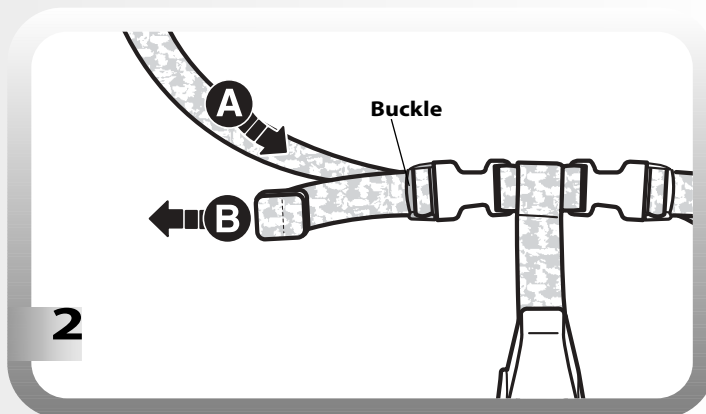

⚠ WARNING

Prevent serious injury or death from falls or sliding out.
The child should be secured in the high chair at all times by the restraining system. The restraint belts must be adjusted to fit your child snugly. The tray is not designed to hold the child in the chair.

1
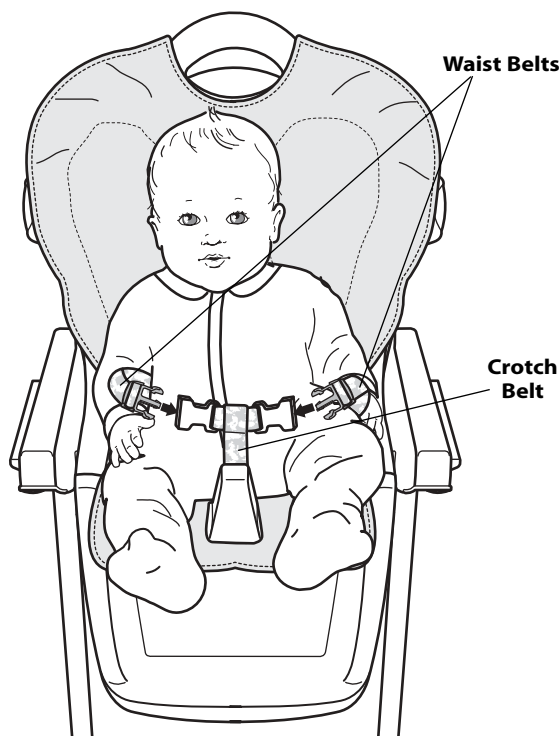

- Place your child in the seat. Position the crotch belt between your child's legs.
- Fasten both waist belts to each side of the crotch belt. Make sure you hear a **"click"** on both sides.
- Check to be sure the restraint system is securely attached by pulling it away from your child. The restraint system should remain attached.

2

To tighten the waist belts:
- Feed the anchored end of the waist belt up through the buckle to form a loop **Ⓐ** .
- Pull the free end of the waist belt **Ⓑ** .
- Repeat this procedure to tighten the other waist belt.

3
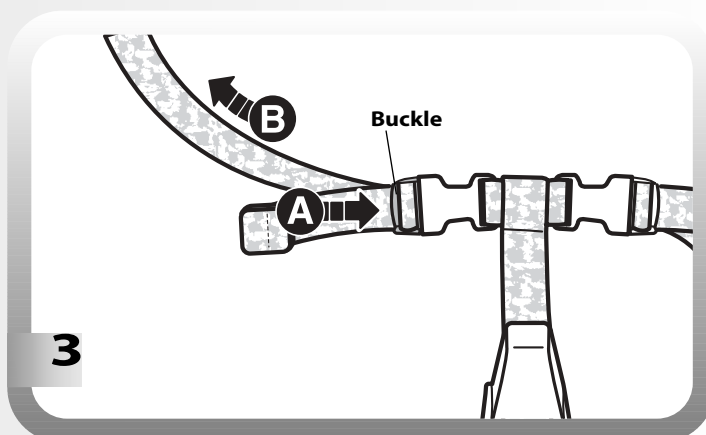

To loosen the waist belts:
- Feed the free end of the waist belt up through the buckle to form a loop **Ⓐ** .
- Enlarge the loop by pulling on the end of the loop toward the buckle.
- Pull the anchored end of the waist belt to shorten the free end of the waist belt **Ⓑ** .
- Repeat this procedure to loosen the other waist belt.

Using the Tray

Adjust Forward or Backward

Slide Forward to Remove

Push

2

- While pushing the button on the front of the tray, adjust the tray forward or backward. Make sure it locks into position.
- To remove the tray, push the button on the front of the tray and slide it forward and off the armrests.
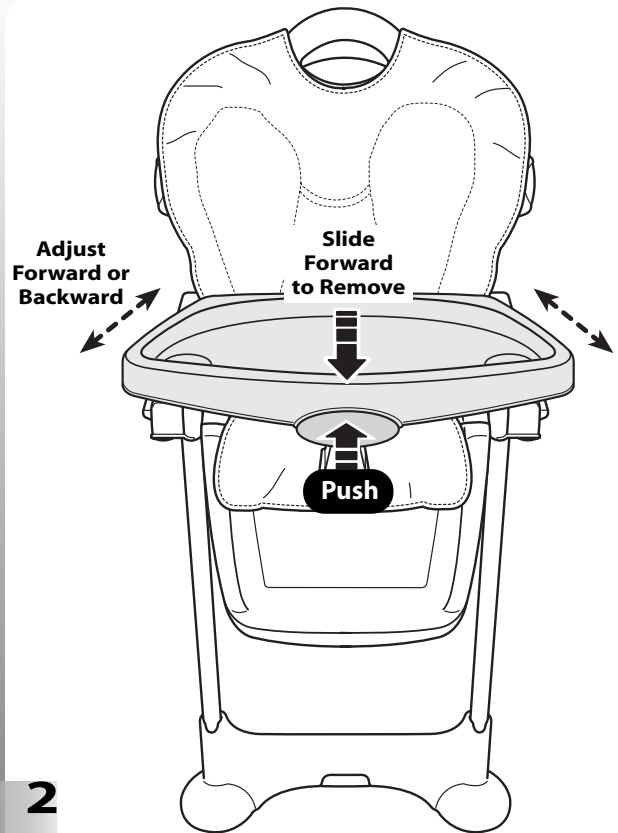

Armrest

Armrest

1

- Fit the tray onto the armrests, as shown. Push down until the tray **"snaps"** into place.
- Test to be sure the tray is secure on the armrests. Push the tray back and forth. It should not move.

**Hint:** *Before use, thoroughly wash the tray.*

Adjusting the Seat Height

⚠ WARNING

Prevent serious injury or death from falls or sliding out.
It is recommended that the high chair be used in the upright position only by children capable of sitting upright unassisted.

Hint: *Adjust the seat height to any of three positions 1, 2 or 3.*

Notch

1
2

Height Position Number

Push Height Lever

To adjust the seat height:
• Press the height lever on the front base and lift or lower the seat to the desired height.
• Make sure **both front legs** are adjusted to the same height.
• Press the height lever on the rear base and lift or lower the seat to the same height as the front legs.
• Make sure **both rear legs** are adjusted to the same height.
• Push the seat bottom to be sure all four legs are locked in place.

IMPORTANT! Make sure the number that shows in each notch in the front an back bases are the **same for all four legs.**

Adjusting the Seat Angle

Hint: *Adjust the seat angle in any of four positions: Upright, Semi-Upright, Semi-Recline or Recline.*
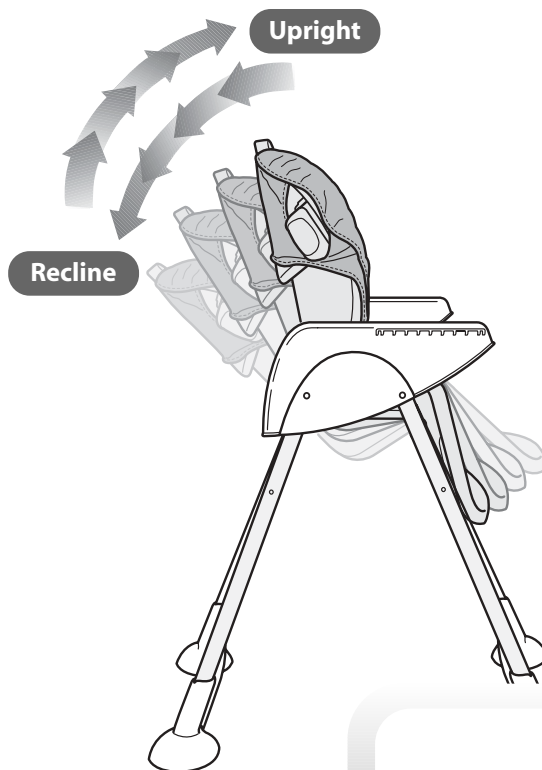

Upright

Recline

Seat Recline

Squeeze

To adjust the seat angle:
• Squeeze the seat recline and push the seat back forward or pull it backwards to the desired position.
• Push the seat back to be sure it is latched in position.

IMPORTANT! When the seat is in the recline positions, be sure the tray is secure on the armrests. Push the tray back and forth. It should not move.

Using the Head Supports

Press to Raise Supports

Press to Raise Supports

Headrest Lever

Headrest Lever
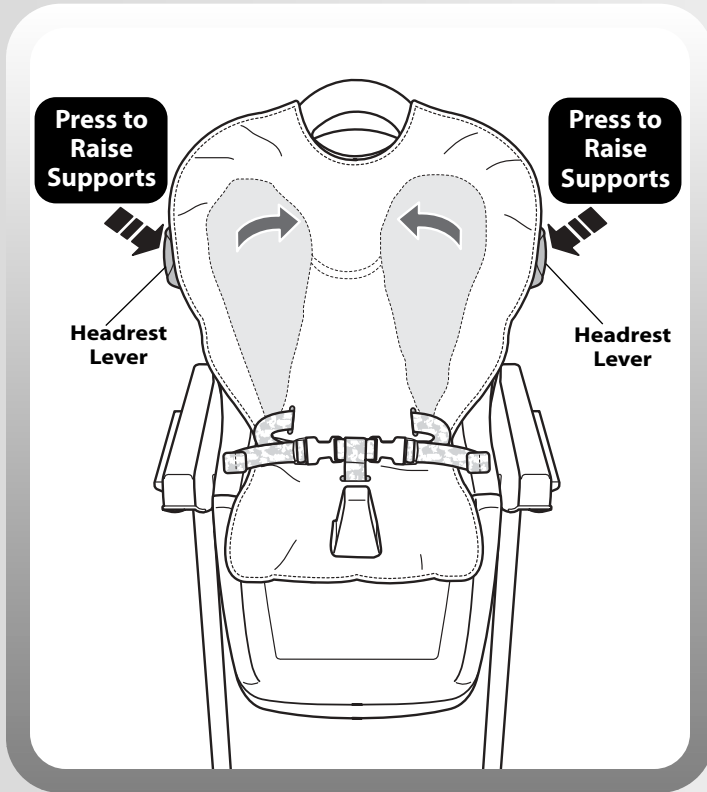

• Press the head support levers to raise supports.

Lift to Lower Supports

Lift to Lower Supports

Headrest Lever

Headrest Lever

• Lift the head support levers to lower supports.

Care

• The pad is machine washable. Wash the pad separately in cold water on the gentle cycle. Do not use bleach. Tumble dry separately on low heat and remove promptly.
• The frame and tray may be wiped clean using a mild cleaning solution and a damp cloth. Do not immerse the tray.

To remove the pad:

• Remove the six elastic loops from the pegs on the back of the seat and underside of the footrest.
• Remove the pad upper pocket from the seat back.
• Feed the waist straps through the slots in the pad and the seat.
• Feed the waist straps through the slot in the pad and the seat.
• Remove the pad from the seat.

To replace the pad, refer to Assembly steps 18-25.

IMPORTANT! Never use this product without the restraint system.
