Welcome to the Imaginext™ System

The Imaginext™ system lets your child's imagination come alive. With easy snap together panels, kids can build different structures in lots of different ways. Use some of the parts or all of them!

Preschool children will enjoy using all parts of this toy to build structures of their own creation. At first they will need parental assistance to build the structure on the front cover. It may be easier to use our step-by-step instructions and give your preschooler only the parts that will be assembled in each step. The more your child plays with this toy, and development and skill increases, the less assistance your child will need!

**Please keep this instruction sheet for future reference,
as it contains important information.
For children 4-10 years.**

Let's Build It!

**Proper label application will help to keep the labels looking their best!
When applying labels, keep the following guidelines in mind:**

- Wash your hands before applying the labels.
- Before applying the labels, wipe the surfaces of this toy with a clean, dry cloth to remove any dust or oils.
- Place the labels exactly as shown in the illustrations.
- For best results, avoid repositioning a label once it has been applied.

WARNING

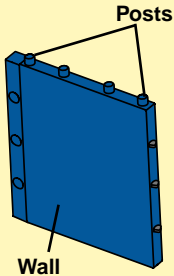

Warning – Choking Hazard
Not recommended for children
under 3 years because it contains
small parts that can be swallowed.

CAUTION

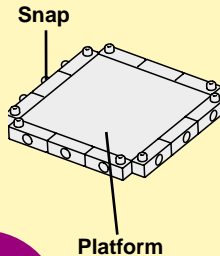

- Do not launch the projectile at close range.
- Only use the projectile supplied with this toy.
- Do not fire at people or animals.

Building System Tips

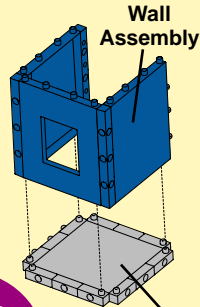

Here are a few basic tips of the Imaginext System!

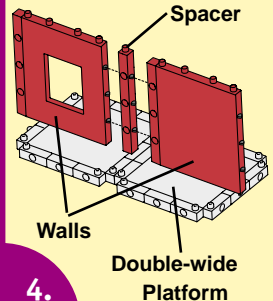

1.

2.

3.

4.

1. Posts Up

Posts should always face up on walls.

2. Locate Snaps

Look at the platforms carefully and note the locations of the snaps.

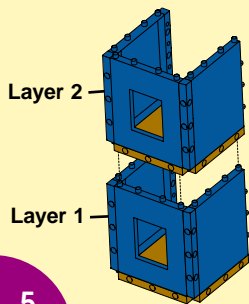

3. Walls Before Platforms

Assemble walls before attaching to platforms.

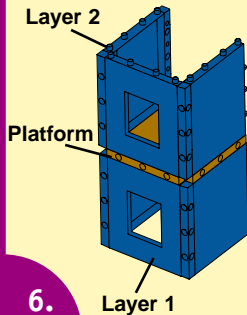

4. Use Spacers Between Walls that Connect to Platforms

Walls joined side-by-side may require a spacer between them when connected to two single platforms, or one double-wide platform.

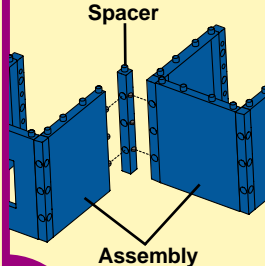

Building System Tips

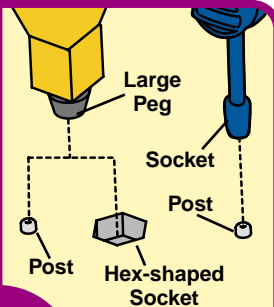

5.

6.

7.

8.

5. Build Up

Build the bottom layer first, then build additional layers.

6. Platforms In-between Layers

Use a platform between each layer of your design.

7. Spacers Between Assemblies

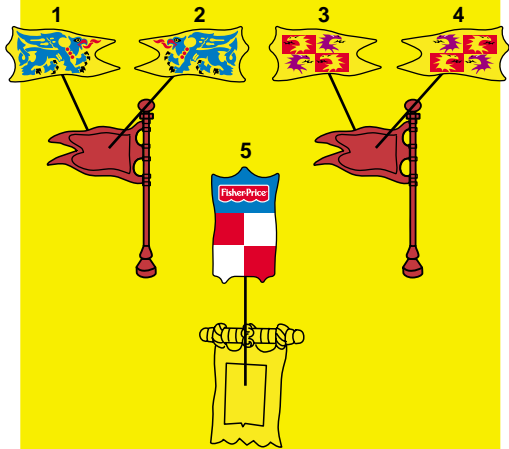

Use a spacer to connect assemblies when needed.

8. Sockets and Posts

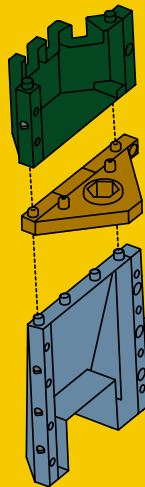

Accessory pieces with a socket fit on any post. Accessory pieces with a large peg fit into hex-shaped sockets or on top of any post.

A New Adventure Every Time!™

Imagine a medieval world filled with dungeons and dragons, catapults and cannons. Now, let the Imaginext™ System help you bring those adventures to life with building panels kids can quickly snap together. So they can build and rebuild almost any way they like.

Care

Wipe the toy with a clean cloth dampened with a mild soap and water solution. Do not immerse the toy.
