# TAKING RESCUE POWER TO THE MAX!

## ⚠ CAUTION

To prevent entanglement, keep hair away from wheels.

- Slide the backpack onto the connector on back of the figure as shown.

- Place Ariel Flyer™ on the all-terrain skateboard.
- Press, the button on the backpack in completely to see her speed to the rescue!

# BATTERY REPLACEMENT

- Locate the battery compartment door on the bottom of the backpack.
- Loosen the screw in the battery compartment door with a Phillips screwdriver. Remove the battery compartment door.
- Insert two new "AA" (LR6) **alkaline** batteries, as indicated inside the battery compartment.

**Hint:** We recommend using **alkaline** batteries for longer battery life.

- Replace the battery compartment door and tighten the screw with a Phillips screwdriver. Do not over-tighten.
- When motion on this toy becomes slow or stops, it's time for an adult to change the batteries!

# BATTERY TIPS

**For best results, use only alkaline batteries.**

**SHOWN ACTUAL SIZE**

- Do not mix old and new batteries.
- Do not mix different types of batteries: alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium).
- Remove the batteries during long periods of non-use. Always remove exhausted batteries from the toy. Battery leakage and corrosion can damage this toy. Dispose of batteries safely.
- Do not dispose of batteries in a fire. The batteries may explode or leak.
- Never short circuit the battery terminals.
- Non-rechargeable batteries are not to be recharged.
- Only batteries of the same or equivalent type as recommended in the "Battery Replacement" instructions are to be used.
- If removable rechargeable batteries are used, they are only to be charged under adult supervision.
- Rechargeable batteries are to be removed from the toy before they are charged.
- If you use a battery charger, it should be examined regularly for damage to the cord, plug, enclosure and other parts. Do not use a damaged battery charger until it has been properly repaired.
