## 1 SET UP

<p>Lift handle.</p>	<p>Open bottom of graphic fusion chamber.</p>	<p>If sponge is dry, remove from chamber and hold under running water. Squeeze sponge multiple times to absorb water.</p> <p><b>a</b></p> <p>Replace sponge in chamber. Make sure all corners are tucked into place.</p> <p><b>b</b></p>	<p>Close bottom of chamber and lock into place.</p> <p><b>Click!</b></p>	<p>Pull handle down until you see knobs on side click into place. DO NOT pull handle all the way down.</p> <p><b>Click!</b></p>
<p>Drive into Car Design Machine.</p> <p><b>SIDE VIEW</b></p> <p>Make sure the BACK WHEELS are clipped in securely on both sides.</p>	<p>Select a graphic fusion decal and peel off the clear, protective top sheet.</p> <p><b>a</b></p> <p>DO NOT TOUCH DECAL AFTER REMOVING CLEAR SHEET.</p> <p>Load decal into bottom of chamber with the design facing down and the arrow facing forward. Make sure arrows are lined up.</p> <p><b>b</b></p> <p>Adjust the front of the car so it sits in a straight line on the platform. This will ensure the decal is centered above the car.</p> <p><b>FRONT VIEW</b></p>	<p>Fill tray with water to the fill line and pour into graphic fusion chamber.</p> <p><b>FILL LINE</b></p> <p>Overfilling of reservoir may cause leakage.</p>	<p>Insert empty tray into bottom of machine. Make sure tray is inserted correctly so play surface does not get wet.</p>	

## 2 TO APPLY DECAL

<p>Press handle all the way down until it locks in place.</p> <p><b>Click!</b></p>	<p>After one minute, pull handle all the way up. Remove backing paper from sponge and discard.</p>	<p>Lift platform to release your newly designed Hot Wheels® vehicle!</p>
<p>Dab finishing tool in water.</p> <p>Tap on decal to smooth it out.</p>	<p><b>CLEAN OFF TO REDESIGN</b></p> <p>For best results, remove decal with rubbing alcohol and rag or paper towel (not included).</p> <p>First use wrench side of finishing tool to separate decal into pieces. Then saturate car with rubbing alcohol and use rag or paper towel to rub pieces off vehicle. Repeat until decal is completely removed. Dry car thoroughly before applying another decal.</p> <p><b>NOTE:</b> Decals applied to vehicles created with Car Maker should not be removed.</p>	<p>Drain, rinse, clean and dry all items thoroughly before storing.</p>

## 3 MORE WAYS TO PLAY

**HOT WHEELS TRACK SYSTEM**

CONNECT TO HOT WHEELS® TRACK (NOT INCLUDED).

**TROUBLESHOOTING**

Q. How can I ensure that the graphic fusion decal is applied evenly onto my car?

A. To apply the decal evenly onto your car, make sure:

- The back wheels are clipped in securely on both sides.
- The front of the car sits in a straight line on the platform. This will ensure that the decal is centered above the car.

Q. How can I prevent water from spilling onto the play surface?

A.

- Try pouring water slowly into the graphic fusion chamber. Do not overfill.
- It is normal for some water to drip down once poured into the chamber. Make sure the tray included is inserted correctly to catch the water.
