**GeoTrax™**  
*Rail & Road System*

**Sky High Suspension Bridge™**

# Parts

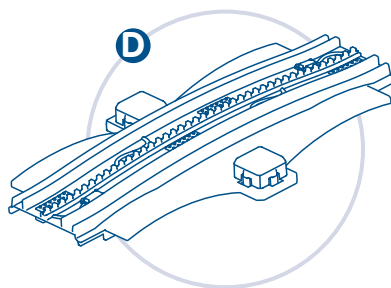

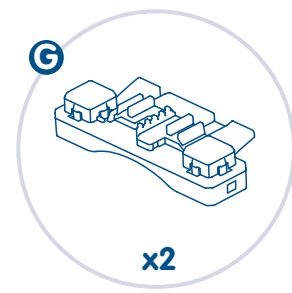

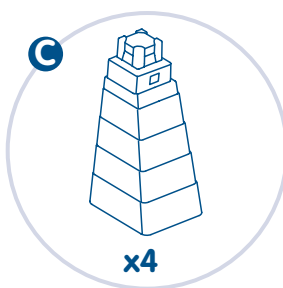

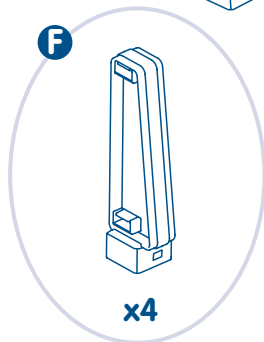

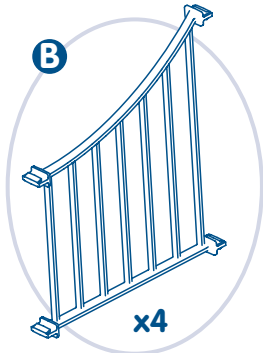

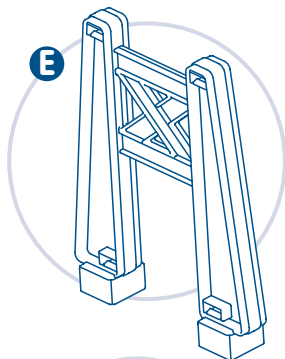

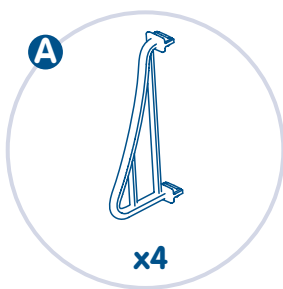

- A. 4 End Rails
- B. 4 Side Rails
- C. 4 Supports
- D. Span
- E. Main Tower
- F. 4 Small Towers
- G. 2 Span Ends

Please keep this instruction sheet for future reference, as it contains important information.

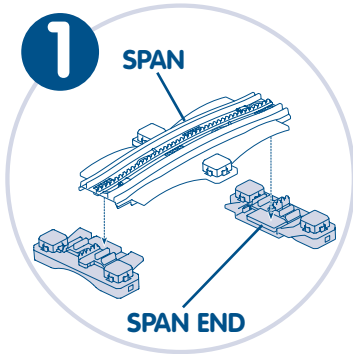

Adult assembly is required.

No tools needed for assembly.

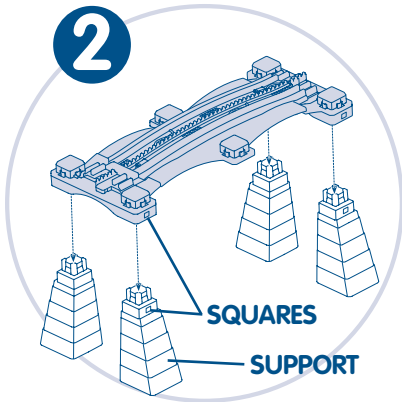

**Younger children may need parental assistance building elevated GeoTrax™ layouts. The more your child plays with these toys, and development and skill increases, the less assistance your child will need!**

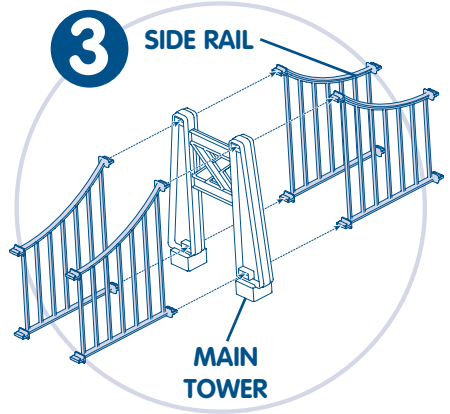

# Assembly

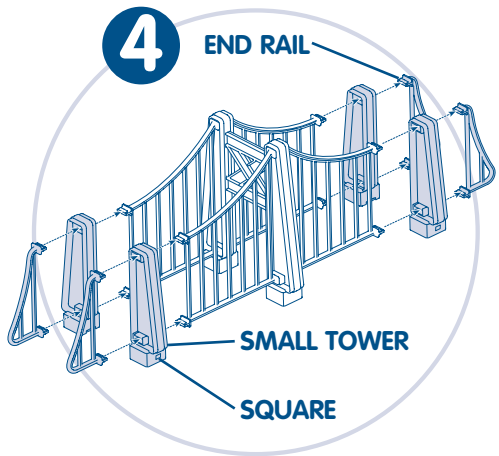

"Snap" the span ends onto the span.

- Locate the square mark on both the side of a support and on the span assembly. Match the squares and "snap" the support into the underside of the span assembly, as shown.
- "Snap" the remaining supports into the span matching the square marks on each.

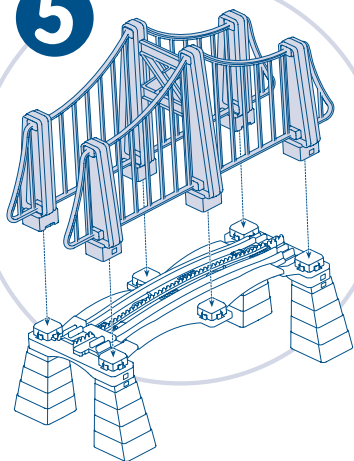

"Snap" the four side rails into the main tower, as shown.

- Locate the square mark near the bottom of each small tower.
- With the square marks facing out, "snap" the small towers to the side rails, as shown.
- "Snap" the end rails to the small towers, as shown.

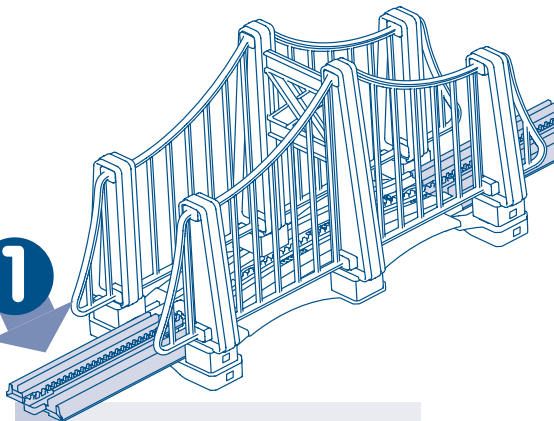

# Multiple Levels of Track Layout

5

"Snap" each of the towers onto the span assembly.

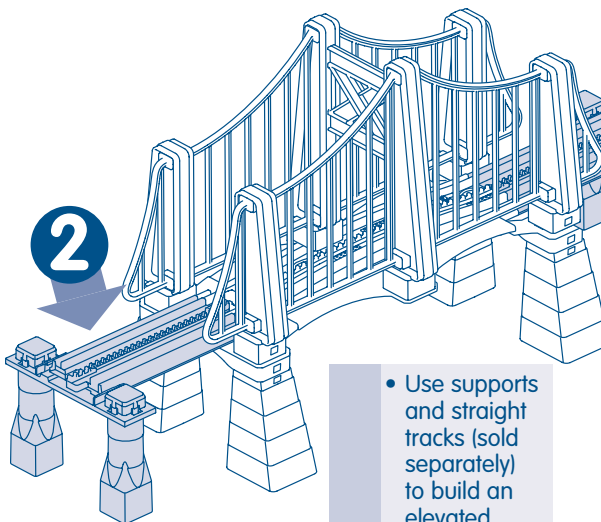

1

- To build a ground-level layout, separate the span assembly from the supports and place the span assembly on the floor.
- Attach straight tracks (sold separately) to either end of the span assembly.

2

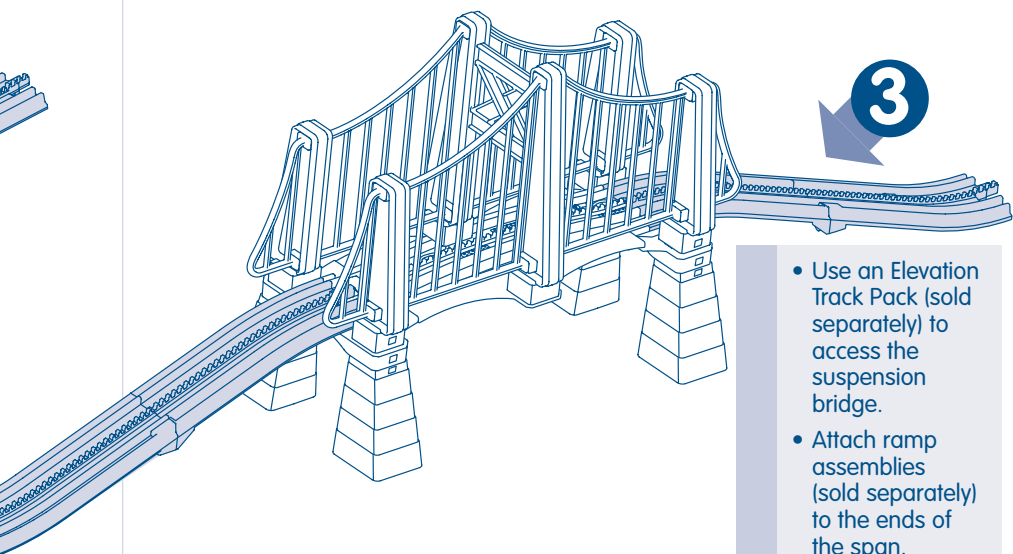

- Use supports and straight tracks (sold separately) to build an elevated assembly.

Assembly is now complete!

# Parts Outputs!

TRACK NOT INCLUDED

- Use an Elevation Track Pack (sold separately) to access the suspension bridge.
- Attach ramp assemblies (sold separately) to the ends of the span.

**Elevation  
Track Packs  
take your  
GeoTrax™  
Rail & Road  
System to  
a whole  
new level!**

Elevation Track Packs work with all GeoTrax™ Rail & Road Track Packs. Multiple Elevation Track Packs used to create this configuration. Playset and accessories sold separately and subject to availability.
