

HELPFUL HINTS

- Plant growth may vary based on environment, seeds, season and climates.
- Do not store truck in direct sunlight.
- Do not use harsh chemicals on truck or on greenhouse.
- Protect play surfaces before use. Drain, rinse, clean and dry all items thoroughly before storing.
- For ease of removal, thoroughly moisten soil to remove sprout from seedling tray. Use planting shovels to gently lift sprouts out of seedling tray.

INSTRUCTIONS

Read all instructions before use. Parental supervision is advised.

3+

PLEASE KEEP THESE INSTRUCTIONS FOR FUTURE REFERENCE AS THEY CONTAIN IMPORTANT INFORMATION.

INSTRUCTIONS

1 PREPARE

1. Scoop potting soil into seedling tray. Evenly smooth out dirt in tray.
*Seeds & potting soil sold separately

2. Place seeds into the seedling tray and cover with more potting soil.

3. Fill water sprayer and gently water each section. Careful not to over water seeds.

2 GROW

1. Place seedling tray in window sill or table where there is indirect sunlight.
2. Place dome over seedling tray.

3. As seeds sprout, water occasionally, being careful not to disturb sprouts or overwater.

3 TRANSPLANT

1. Once sprouts begin touching the top of the greenhouse they are ready to be transported outside.

2. Place tray inside of truck and roll sprouts to desired garden location.

4 PREP

1. Find outside location and prep soil for sprouts.
• Use plow on front bumper of truck or use removable hoe to clear dirt.

2. Use auger to dig holes in the ground.

3. Remove sprouts from seedling tray, place in holes and cover roots with dirt. Water and place caution garden signs in visible spots around area.

5 CLEANING & STORAGE

1. Rinse seedling tray and tools with water. Dry with a cloth.

2. Wipe truck cab with a damp cloth.

3. Store tools and seedling tray in truck until next use.
