PERFORMANCE TIPS

- Q: Why can't my car fully enter the pit lane to recharge?**
A: Your car might be traveling too fast when it enters the pit lane. Push your car forward into the pit lane to continue charging your car.
- Q: My car keeps crashing on the track for no reason. What is the problem?**
A: Clear all obstructions on the track. Adjust track side walls at each connection point.
- Q: My Speed Chargers car keeps slowing down by itself on the tracks even though it is charged.**
A: Lint may collect around your car's axles. This may cause the car to run slowly. Use tweezers or a toothpick to remove lint.
