How to Play

1

Close the gates as shown. Load the small robot into the holder. Place engine and cargo car on the larger robot hand section of track.

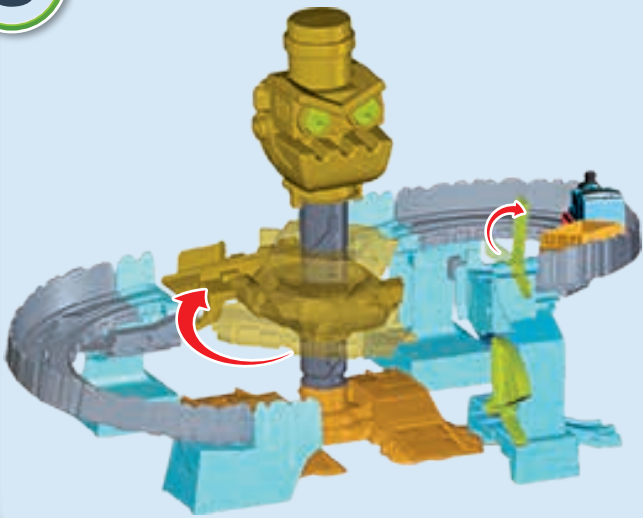

2

Press down on the large robot's head, then pull the head back up to lift the engine.

How to Play

3

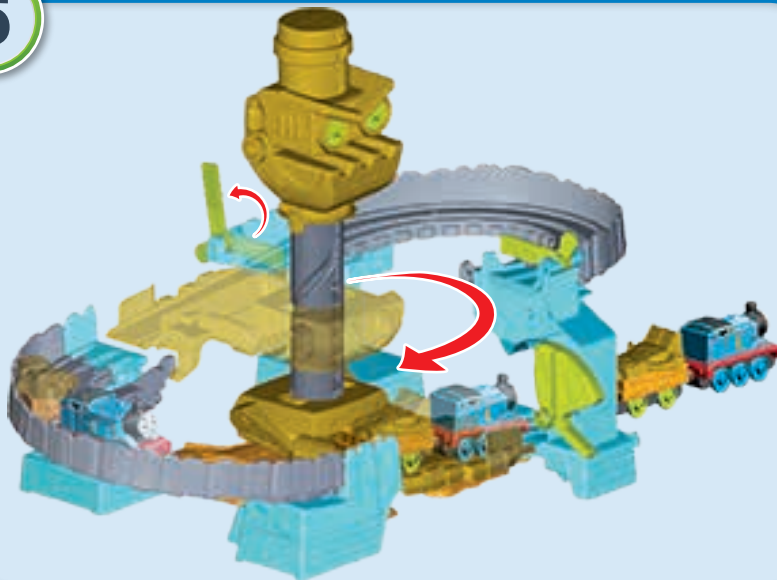

Lift the gate as shown to release the engine. The giant robot hand track will automatically turn clockwise to bridge the gap in the tracks as shown.

4

Load the small robot into the cargo car.

5

Lift the gate to release engine. The giant robot hand track automatically turns again to bridge the gap in the tracks, allowing the engine to roll down the ramp and off the track.
