

ROLL AND COUNT MATH BUG™

For 2 Players

Ages 3-6

Object of the Game

Complete the math challenge and win that card. Collect 5 cards and you WIN the game!

Contents

- Shaker Cup with Lid
- 27 Blue Level 1 Cards
- 20 Purple Level 2 Cards
- 9 Orange Level 3 Cards
- 3 Dot Dice
- 3 Numeral Dice

Game Play

1. The youngest player goes first and rolls the dice. Play alternates between the players.
2. Both players quickly grab any dice needed to complete the math challenge on their card.
3. When a player completes a math challenge, read the equation out loud. Then place the card in your **WIN** pile and pick a new card. Players need to complete a math challenge to get a new card!
4. Play continues until a player has 5 cards in a **WIN** pile!

Setup

1. Choose a game level and separate the cards: Blue Level 1, Purple Level 2 or Orange Level 3. Game levels are explained on the back of this sheet. Or, mix the cards and play all three levels at once!
2. Shuffle the cards. Place the deck face down and the dice within reach of the players.
3. Both players draw a card and place it face up.

1 Blue Level 1 Cards

Players match the number in **both** equation boxes.

1 Fisher-Price

2 + 2 = 4

2 Purple Level 2 Cards

Players match the number in the first equation box and then must solve the equation with the correct die in the blank equation box.

2 Fisher-Price

3 + = 7

3 Orange Level 3 Cards

Players create their own equation with **at least 2 dice on the same roll**. Add the dice to equal the number on the card.

If there is only one card remaining, place it so that each player can see it. The first player to correctly grab dice to equal the number on the card, **WINS!**
