CAPTION CARDS

HASHTAG CARDS

Let's Do This!

Have a player flip over 1 CAPTION card and 2 HASHTAG cards and read them out loud.

I woke up like this.

All players write the CAPTION and HASHTAGS on the bottom of their paper, where noted.

Everyone now has 45 seconds to draw the funniest picture they can, inspired by the CAPTION and HASHTAGS.

When 45 seconds are up, have one player collect the drawings face-down and shuffle them. That player lays the drawings out on the table, dramatically revealing one at a time, describing what they see. Each artist can defend/explain their masterpiece, if they choose to.

♥ = Use this side to vote for your favorite picture.

+1 = After voting ends, flip over and take points earned.

All players now vote on the drawings. Keep it fair, people! Don't vote on your own drawing and only vote once.

After voting ends, each player takes the tokens on their picture, flips them over to reveal the +1 point and sets them aside to keep track of their score. Continue for 3 more rounds.

Who's Winning?!

The player with the most points after 4 rounds wins the game!
