

ANSWERS

Only look in here after first trying a hint. If you look more than once, the amulet will not work. If you look at the last page before you've finished the game, then the amulet will not work.
It's science.

You lose the game.

P1

When you build the tower with LITHIA on one side, the word SEARCH is on the other side.

P2

When the paper is correctly folded into the shape of a cup, no lines are visible. The letters on one side spell out INSIDE.

P3

When you correctly weave together the strips the words on the back say: “What is our favorite building material?”

The picture on the front shows young Thia and Lisa building a castle and robot out of CARDBOARD.

DIRECTIONS

When correctly placed, the decoder reads
“SAY FIRST THREE ANSWERS”.

Where is P4/P5

The first three answers tell you to
SEARCH INSIDE CARDBOARD. The
remainder of the puzzles can be found
inside the cardboard game insert.

P4

Starting in the bottom left corner, read up to the top, then over to the right, then down that column, then to the right, then up again, etc. Following this winding pattern gets you the instruction: "NAME THE BABY ANIMAL ON YOUNG LISA'S T-SHIRT."

When you look back at the woven picture of young Lisa, you find a KITTEN on her shirt.

P5

Each of the symbols on the page
show a letter that has been
doubled as if in a mirror but in
different directions. The original
letters are HURT.

Li-Thia Last

Coloring each of the TRUE answer numbers forms the letters L-T-C on the grid.

The letters form the combination you need to open the purple jar and access the ring base.

P10

When the two sides are correctly aligned, the letters around them say
“TWO MINUS ONE PLUS SIX”.

$$\text{So, } 2 - 1 + 6 = 7$$

Answer: SEVEN

P9

This is 'A Study of Four Cells' so you only need to study the four cells mentioned. In order for all of the statements to be true, you must place the cells in the following order:

Cluster of Grey Orbs – F

Spiky Cell - I

Curling Blue Cell - V

H Shaped Cell - E

Answer: FIVE

Where is P8?

This puzzle is hidden on the inner side of the red envelope.

P8

When you close one eye and put the puzzle as flat as possible in front of your other eye, the long skinny lines in front of “P8 Answer” form the word: TWO.

P7

When the two memmings follow the correct path they form the image of a FLOWER.

P6

When you match the bones you have
(including the one found inside the egg)
with the sketches they are over the
letters CH-I-CK-EN.

P12

The riddle has spaces in the wrong place.
When you put them in the right place it reads:
“I am that which is born out of darkest black.
Darkness creates me, it is no attack.
I can join two souls close, a mark of their bond
Or be the prize with which a thief will abscond.”
The answer is DIAMOND.

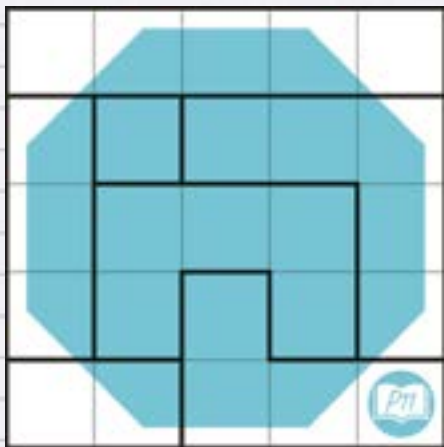

Doc Gnaw Last

When you place the atomic compound with the one circle over the “P” in “Procedure” and align it with the page, you can follow the lines starting at the circle to get the sentence “PRESS INK STAIN”.

When you press the ink stain found inside the red box, the false bottom reveals the red gem underneath.

P11

Putting the squares together correctly reveals the shape of a blue OCTAGON.

P13

Tracing each of the sequences individually on the portrait will yield the letters C-R-O-S-S.

Quick! Put the AMULET-RING together
and apply the WOLFBEGONE Sticker!

Doc Gnaw arrives at your door snarling.
You zap her with the Amulet and she
stumbles back screaming “Oh, the
Humanity!” as she returns to her scientist
form. Phew! It worked!

Dr. Lisa David arrives soon after to
embrace her long lost friend and welcome
her back to the human race.

YOU DID IT! YOU SAVED THE
WORLD AND A FRIENDSHIP!
STOP YOUR TIMER!

YOU
WIN!

P14

If you take the first word of each line of the poem, you get the following question:

“What word is after 3 on the hints book cover”

The hint book says “look in here more than 3 times” so the answer is TIMES.

P15

The riddle is written with every other word on one side of the page, so it helps to have two people read it. It says: “I play by your side when the sun is out. In midday I’m quite stout. But hours later I’m thin as a beansprout. When darkness falls I’m nowhere about.”

The answer is: SHADOW

Lisa David Last

The capitalized words on the lid of the blue box told you that “Cold pieces match last conclusions.” So you need to put the blue pieces in the freezer.

Once frozen, letters appear on the backs of the pieces. You need to match those letters to the answer letters on the “Last” page.

When this is done, the pieces will come together to form the numbers 4-5-1. 4-5-1 is the combination you need to open the blue jar and access the blue gem.

Final Puzzle

Final 1: The answer to P8 is two. So, if you count the letters from top to bottom and take the EVEN ones (divisible by two) you will get: ANSWER.

Final 2: The answer to P5 is HURT. So if you take the letters below H-U-R-T you will get: BOOK.

Final 3: The answer to P15 is SHADOW. If you make the shadow of the game piece fall within the brackets, the letters G-P-A-E are left outside the shadow and can be rearranged into PAGE.

Math Equation

Number of sides on P11 (Octagon) = 8

P14 = Times

Number of feet on P6 (Chicken) = 2

Number of vowels in P5 (Hurt) = 1

So: $(8 \times 2) = 16$

$16 - 1 = 15$

Filling in the blanks for P1, Final 1, Final 2, and Final 3 and doing the math gets you the phrase: "SEARCH ANSWER BOOK PAGE 15" which is where you will find the decal you need to complete the amulet.
