Helpful Hints

Ramp has a support tab that can be pulled out or pushed in, depending on the layout.

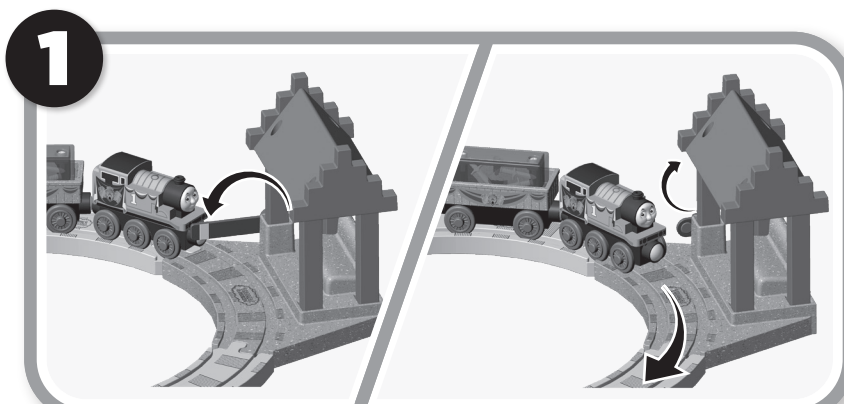

To connect the ramp to the castle, push the tab in all the way.

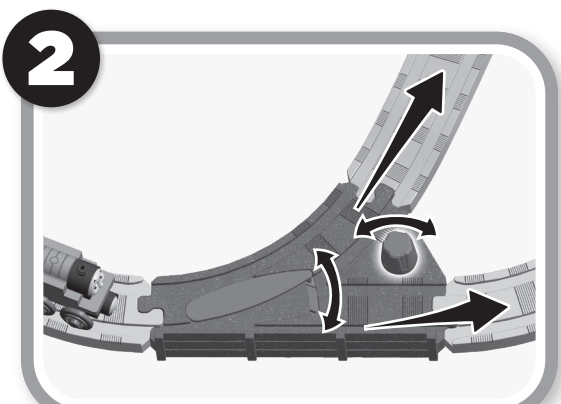

If you want to make a new layout, you can pull the tab out to support individual track pieces.

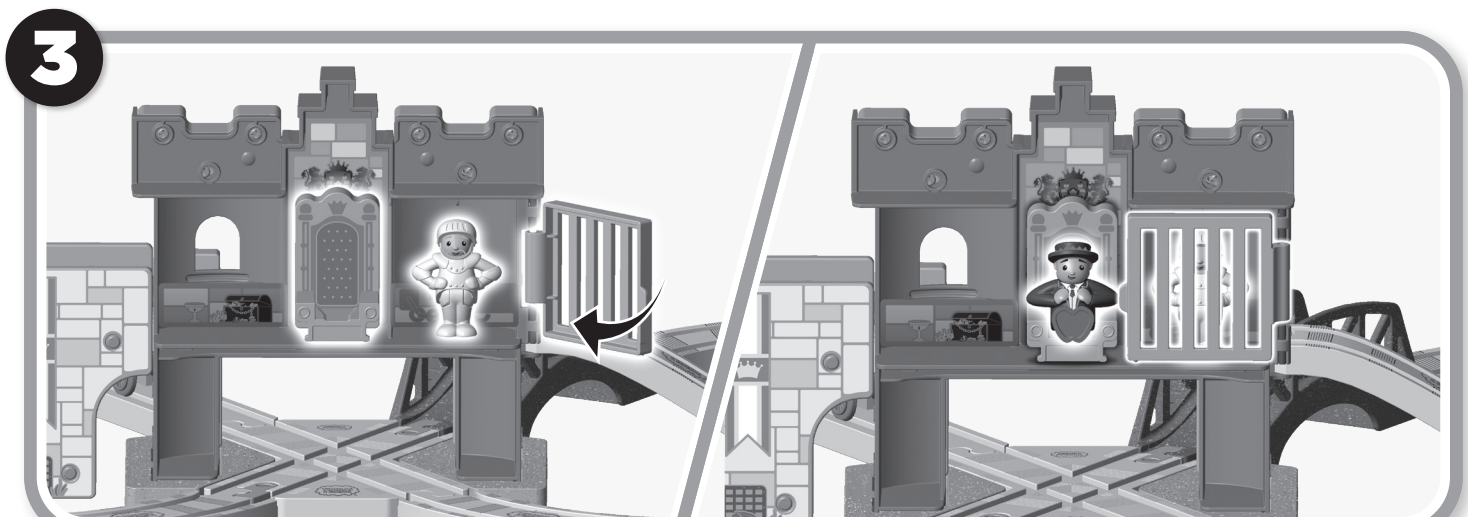

How to Play

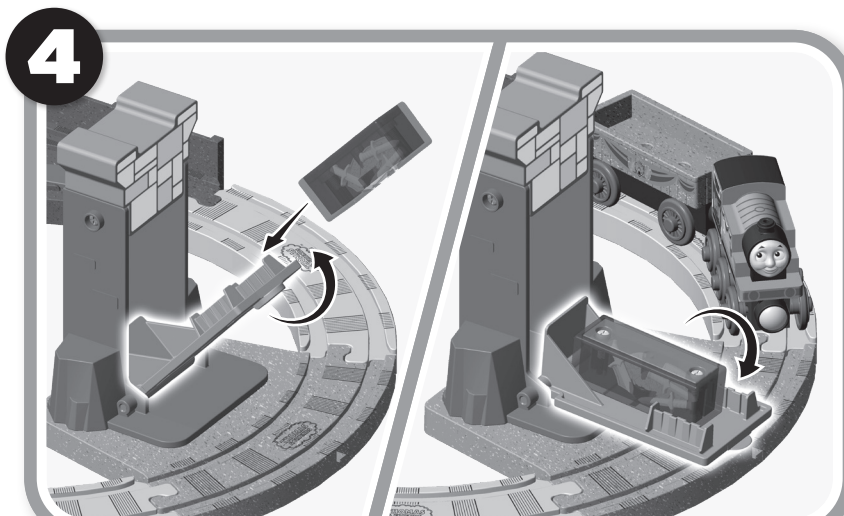

Pull down the gate to stop the engine. Flip the gate and roll the engine forward.

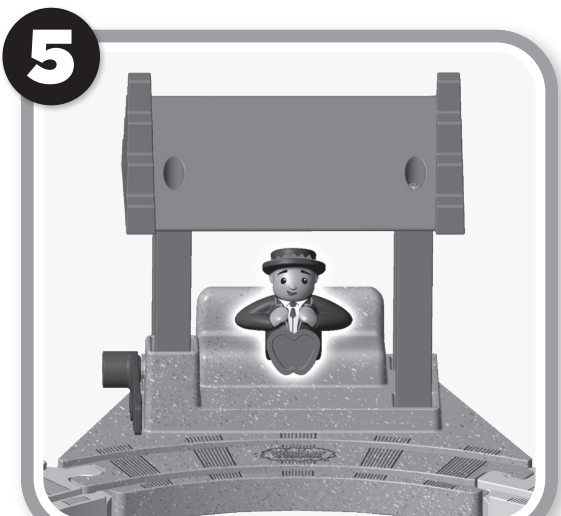

Rotate the knob to choose a direction for your engine.

Place a figure in the dungeon and close the gate. You can also put the throne in the castle and seat a figure on it.

Store the treasure in the castle ruin and close the door, then open the door to reveal the treasure and block the tracks.

The figure can also sit on the platform.
