

## Track Layout • Configuration de la piste

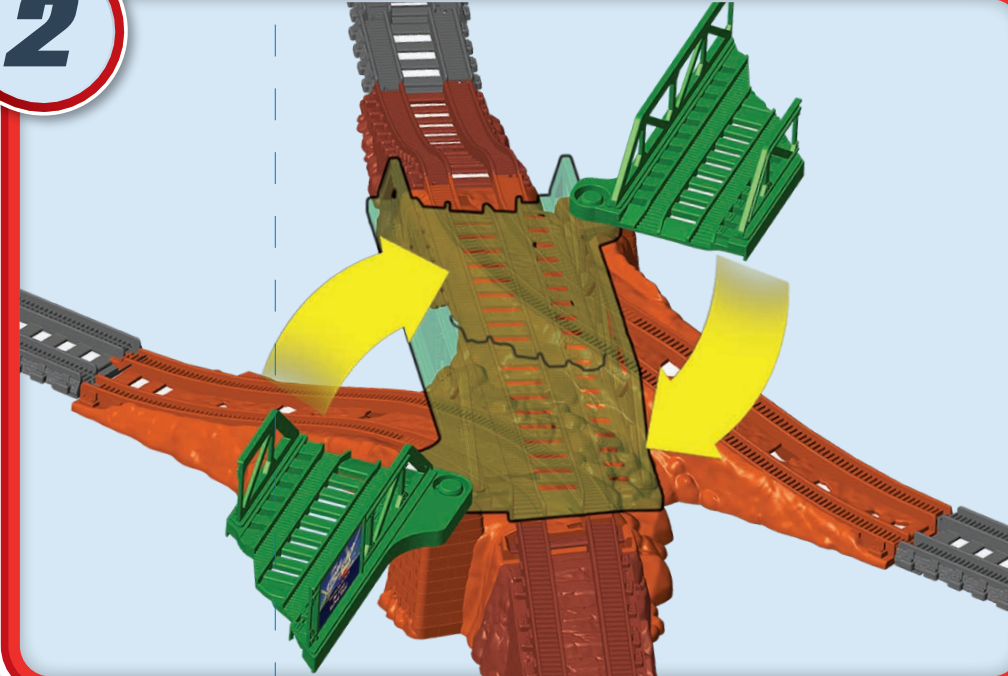

## How To Play • Comment jouer

1

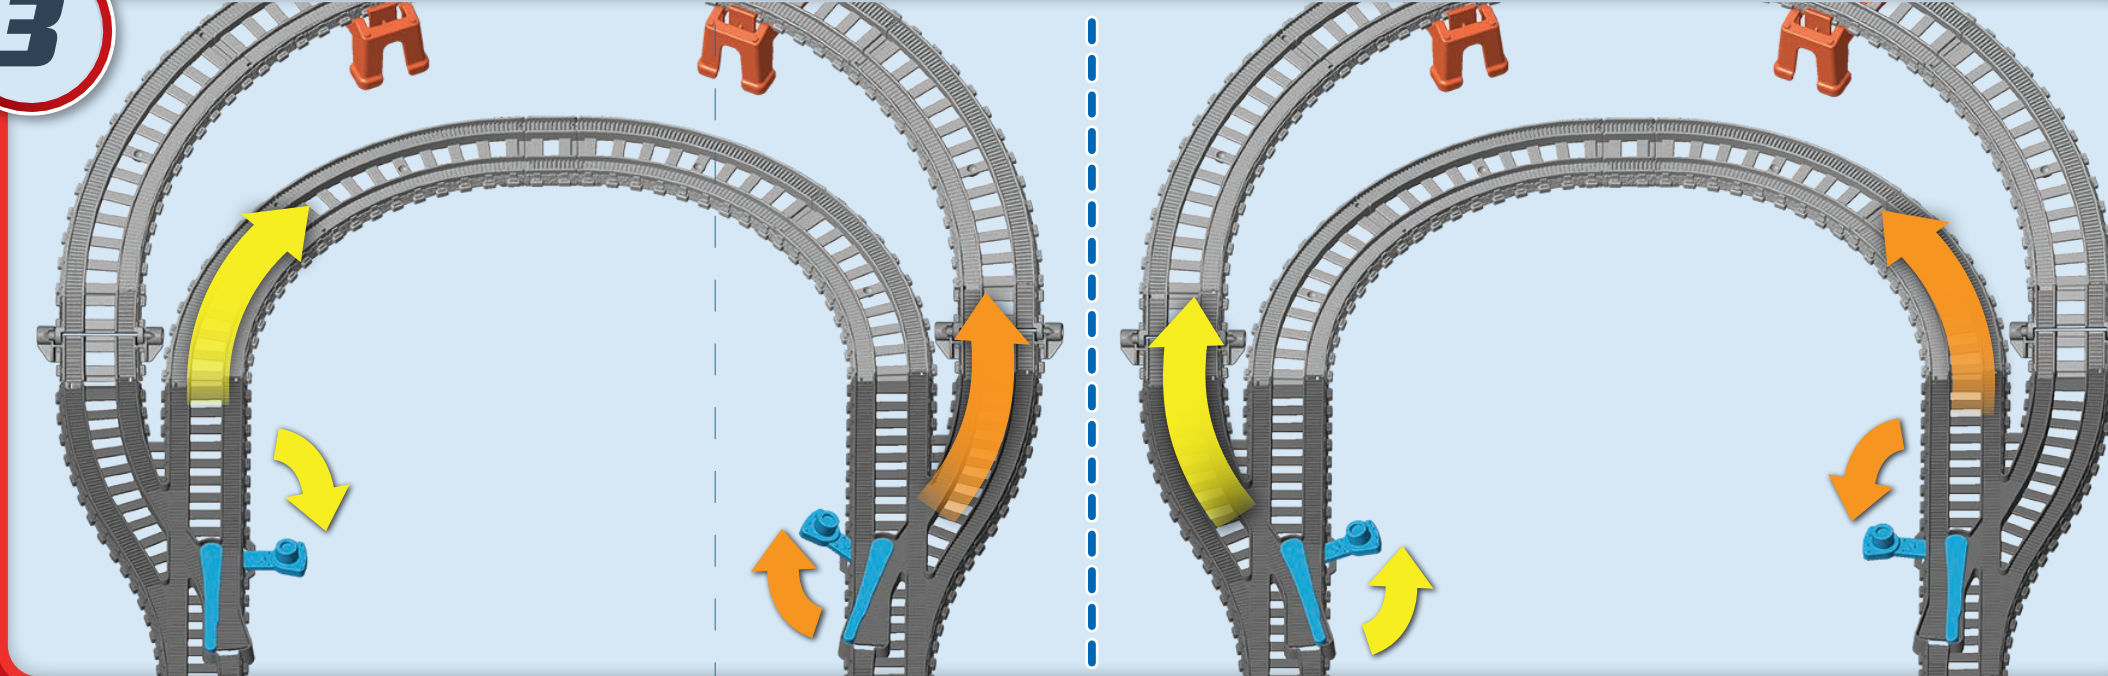

Press and set the two racing flags and the fireworks.  
Préparer les deux drapeaux de course et les feux d'artifice.

2

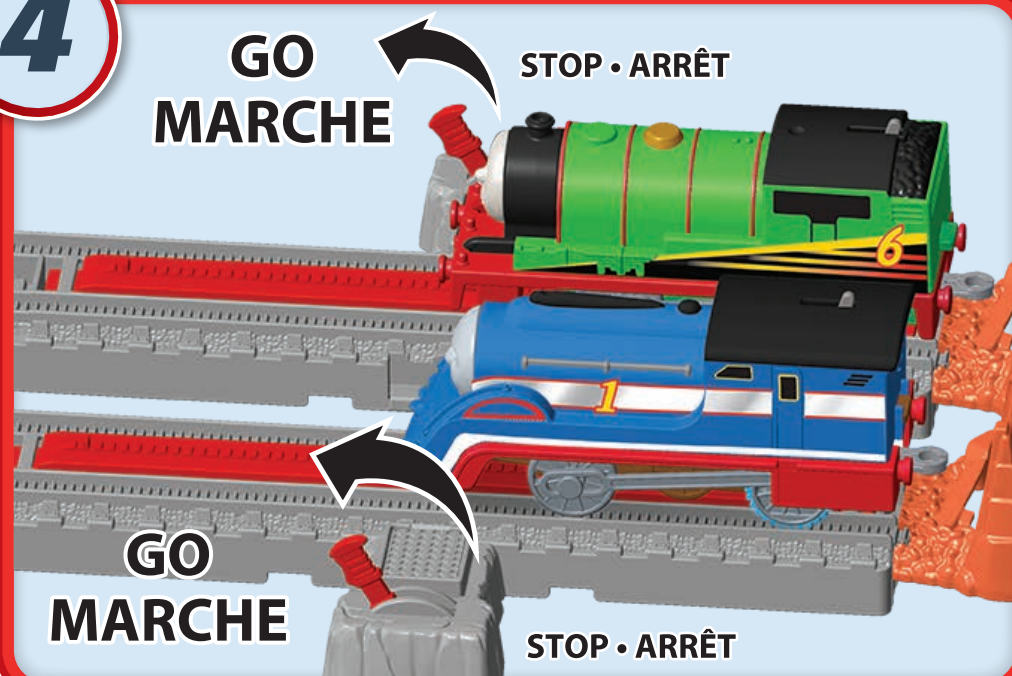

Connect the two pieces to set the bridge.  
Connecter les deux pièces au pont.

3

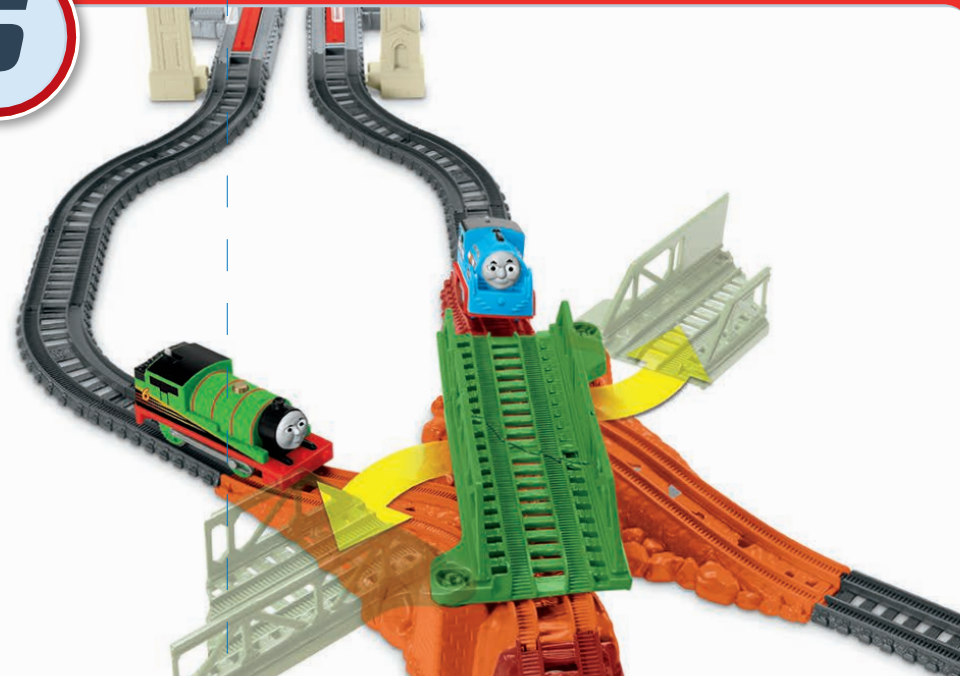

To ensure the engines continue racing on opposing tracks, set the track-switches in the correct positions, as shown.  
Pour que les trains continuent de rouler sur les rails opposés, placer les aiguillages au bon endroit, comme dans l'image.

4

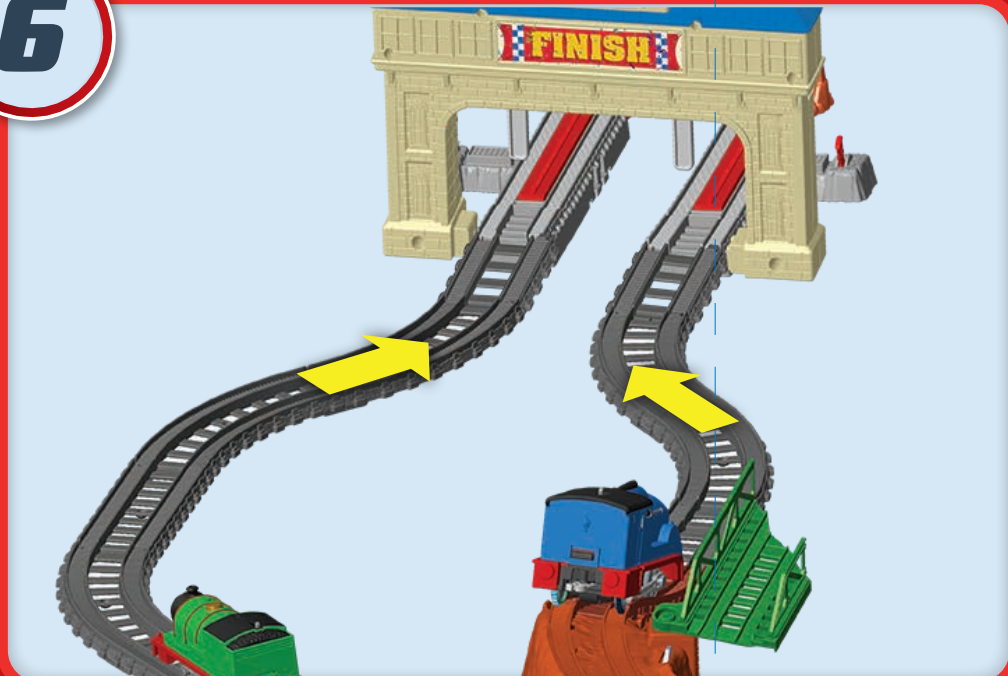

Set the stop-tracks to "stop," place your engines as shown, turn the engines on, then release them to start the race!  
Placer les rails d'arrêt en position « arrêt », installer les locomotives comme illustré, démarrer les locomotives, puis les relâcher pour lancer la course!

5

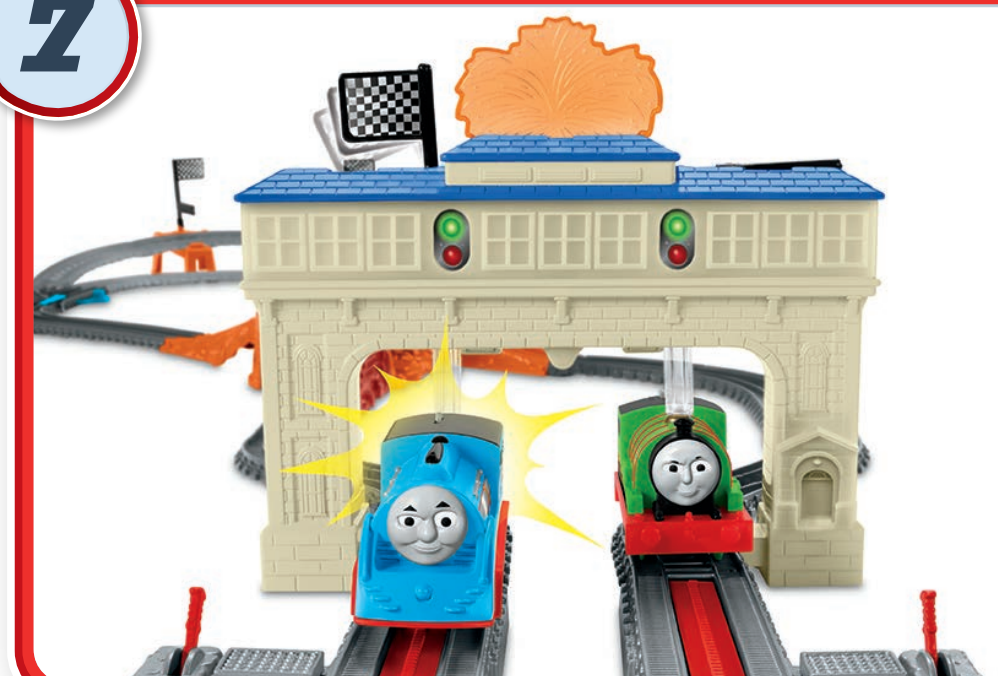

As the engines race ahead, they trigger the bridge to burst apart.  
Les locomotives déclenchent l'explosion du pont pendant leur course.

6

The engines race back over the tracks towards the finish line.  
Les locomotives font la course sur les rails jusqu'à la ligne d'arrivée.

7

As the first engine crosses the finish line, the victory flag and the fireworks pop up!  
Quand la première locomotive franchit la ligne d'arrivée, le drapeau de la victoire et les feux d'artifice apparaissent!
