# Make-A-MATCH™ game

## OBJECT

Find as many matches as you can.  
Once all the files are matched up, the player  
with the most files WINS!

## Contents

72 picture files

Colors and decorations may vary from those shown.

## Special Bonus Match

If you match these Special Bonus files, they count as TWO files each when counting up your files at the end of the game.

## Winning

Once all of the cards have been matched, the players count to see who has the most files (be sure to count each Special Bonus tile as 2). The player with the most files wins!

## Hints for a faster and Simpler game

To make the game easier for younger players, when turning cards over, leave them face-up until they are matched and removed from play. This way, it's possible for players to make a match after flipping over one card. If a match is made, the player then flips over another card. The player's turn continues until he flips a card and cannot make a match with any of the other face-up cards on the playing area.

## Setup

1. Choose how many tiles to play with. You may use all 72 tiles or, with younger players, you may want to use fewer pairs. For every tile you use, also include a matching tile so you can pair them together during the game.
2. Put the tiles you are using face-down and mix them up.
3. Set out the tiles face down in rows.

## Let's Play

- The youngest player goes first.

### On Your Turn:

- Turn over any two tiles of your choice so all players can see them.
- If they are a match, take them and put them in your scoring pile. Then go again!
- If they do NOT match, turn them back over face-down exactly where they were. Try to remember which pictures were on these tiles for later in the game – even if it's not your turn!
- If you do not make a match your turn is over and it's the next player's turn.
