

## Battery Information

### REQUIRES:

- Phillips screwdriver (not included) for battery installation.
- Two AAA (LR03) **alkaline** batteries (not included).

+ 1.5V AAA (LR03) | x2

### BATTERY INSTALLATION

Access the battery compartment by loosening the screw in the bottom of the engine and separating the top half of the engine from the bottom half of the engine. Install the batteries as indicated inside the battery compartment. Re-assemble the halves of the engine and tighten the screw. If the engine begins to malfunction, first check battery installation. You may need to reset the electronics by removing the batteries and reinstalling them. If the engine continues to malfunction or no longer operates, it's time to replace the batteries with fresh batteries. For longer life, use **alkaline** batteries.

### BATTERY SAFETY INFORMATION

In exceptional circumstances batteries may leak fluids that can cause a chemical burn injury or ruin your product. To avoid battery leakage:

- Non-rechargeable batteries are not to be recharged.
- Rechargeable batteries are to be removed from the product before being charged.
- Rechargeable batteries are only to be charged under adult supervision.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable batteries.
- Do not mix old and new batteries.
- Only batteries of the same or equivalent type as recommended are to be used.
- Batteries are to be inserted with the correct polarity (+ and -).
- Exhausted batteries are to be removed from the product.
- The supply terminals are not to be short-circuited.
- Dispose of batteries safely.
- Do not dispose of this product in a fire. The batteries inside may explode or leak.

Protect the environment by not disposing of this product or any batteries with household waste. This symbol indicates that this product shall not be treated as household waste. Check your local authority for recycling advice and facilities.

# THOMAS & FRIENDS™

## BRIDGE LIFT THOMAS & SKIFF

Adult assembly required.

## INSTRUCTIONS

Keep these instructions for future reference as they contain important information.

## What's Included

Sheet Size Open: A3  
Sheet Size Folded: A4

Sheet Size Folded: A5

Item No : HGX65-0970  
1102769807-DOM  
Size : A3  
Paper : 70gsm FSC mix woodfree paper  
Color : 4C  
Date : 6/22/2021 (Emma Wei)

## Assembly

Look for codes on the bottom of each track.

This set includes tracks with a bend so that the engine can climb up and travel down!

Some engines may not work on this track set.

★ Assembly steps marked with a star indicate a permanent assembly. Once these parts are assembled, they can't be taken apart.

1

Turn the parts over and press to "snap" into place.

## Ready to Play?

## Let's Play!

Set the stop track to "Stop".

Push the bridge track down to connect it to the trestle.

Place the engine with the boat trailer on the track. Slide the switch on back of the engine to turn power on.

When the engine stops, flip the bridge lever back to raise the bridge.

Push the the stop track lever forward to release the engine. Be sure to set the stop track to "Stop" and lower the bridge for the next time around!
