SENSORY
bright™

Light Station

LET'S EXPLORE & DISCOVER!

The Sensory Bright™ Light Station is so packed with fun things to experience, how do you know where to start?

Once you know all it can do, you'll see how easy it is for kids to play their own way and create unique sensory experiences.

You'll also find interesting info about how sensory play benefits preschool kiddos of all abilities. Taking control of all the visual and auditory options of the Light Station helps kids learn how to regulate their sensory needs, which ultimately **fosters independence.**

Enjoy!

see it in action!

- Explore and engage your senses by bringing other materials, such as the included accessories, to the Preschool Light Station. See how the light patterns shine through the accessories to create new colors. You might even experiment by changing the distance between each accessory and your eyes to see how your perception changes!
- Pump up the DJ Dance Party™ for your toys! Activate the full spectrum of colors, speed up the songs, build the melody and rhythm, and turn up the volume!
- Create a calm, cozy cool-down zone by using only the cool color tones, lowering or muting the volume, and watching the patterns move in Invent Mode. Add in some nature sounds to create an even more soothing experience.
