SET UP

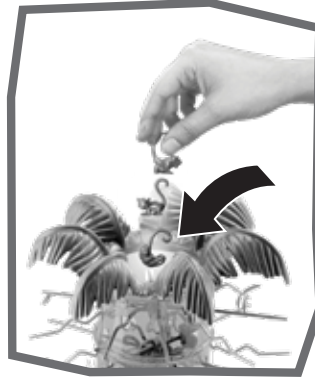

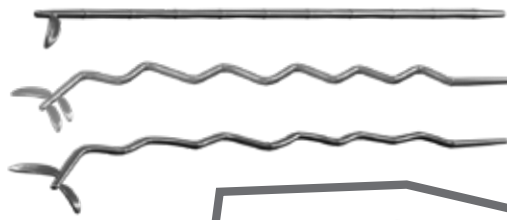

1. The Sticks have three shapes: straight, wavy and bendy. The straight Green Sticks have 1 leaf on them, the wavy Blue Sticks have 2 leaves on them, and the bendy Red Sticks have 3 leaves on them.
2. Randomly add them through the holes in the Tree making sure there is at least one kind of stick on every level (it's easiest if you start with the bendy).
3. Pour all the Golden Monkeys, Lemurs and Sloths into the tower. If any fall out, put them in again.

**CUT PLASTIC PARTS OFF FRAMES.
USE SAFETY SCISSORS.**

LET'S PLAY!

1. The youngest player goes first.
2. On your turn, roll the die and see if it lands on an icon with 1, 2 or 3 leaves on it.
3. Pull out one stick with the matching number of leaves as the die from the Tree (always taking sticks from the highest level first). **NOTE: THE STICKS ONLY PULL OUT IN ONE DIRECTION.** For example, if the die has an icon with 2 leaves on it, you must pull a stick with two leaves on it. All wavy sticks have 2 leaves, so you must pull a wavy stick.
4. As you pull, the Tree will **ROCK** from side to side and may cause animals to fall so **BE CAREFUL!** You may **NOT** use your other hand to steady the Tree as you pull.
5. If any animals fall from the Tree you must keep them.
6. If all the sticks with the same number of leaves as what you rolled have already been removed, you are lucky and miss that turn.
7. Continue in turn (clockwise) until all the animals have fallen out of the Tree.
8. The player with the fewest animals wins the game!

FOR COLORBLIND PLAYERS

Each type of stick has a specific number of leaves which can help identify the color of that stick. This will allow players with ANY form of colorblindness to easily play!

GREEN = 1 LEAF

BLUE = 2 LEAVES

RED = 3 LEAVES

The die also has leaves on each side that match the number of leaves on the sticks so players can identify which stick pull.
