CONGRATULATIONS YOUR SET IS COMPLETE!

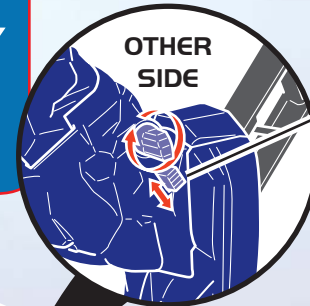

14

Insert pterodactyl's tail into cave until it locks into place.

GET READY TO PLAY

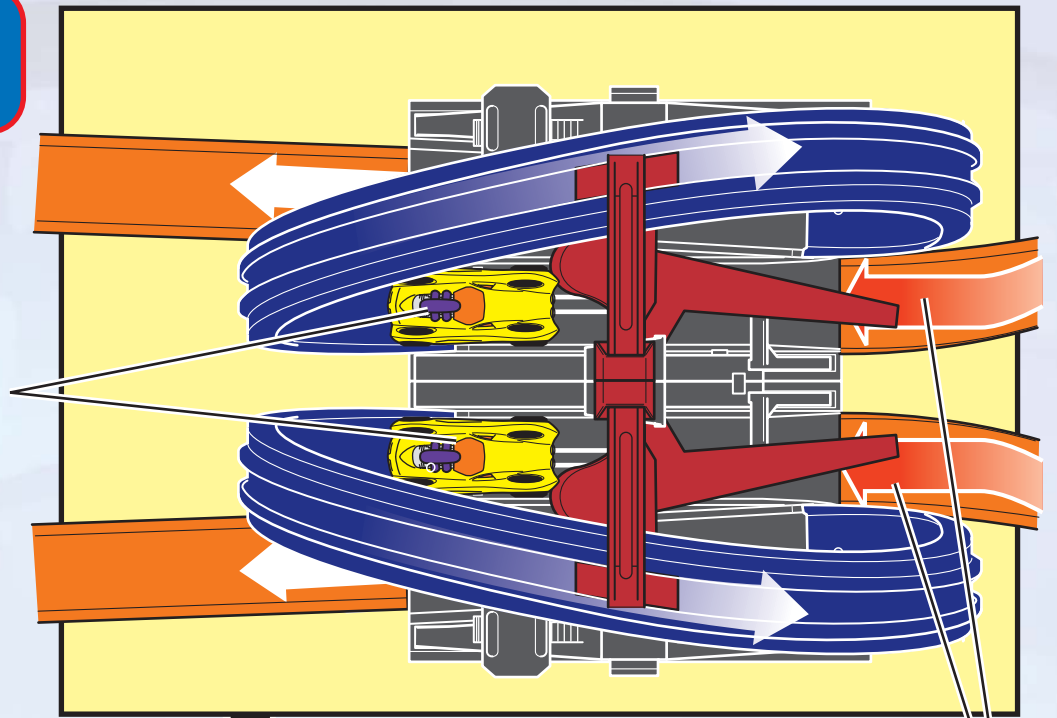

ON/OFF SWITCH
(UP=OFF / DOWN=ON)

With the switch in the OFF position, wind the knob clockwise. Keep switch OFF until ready to start play.

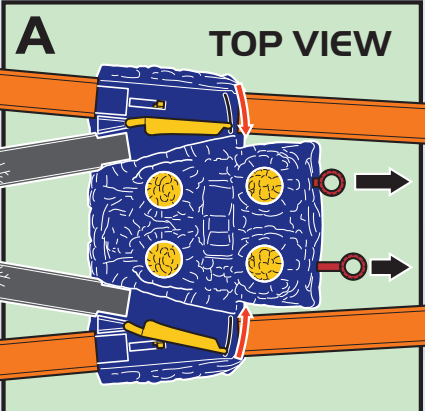

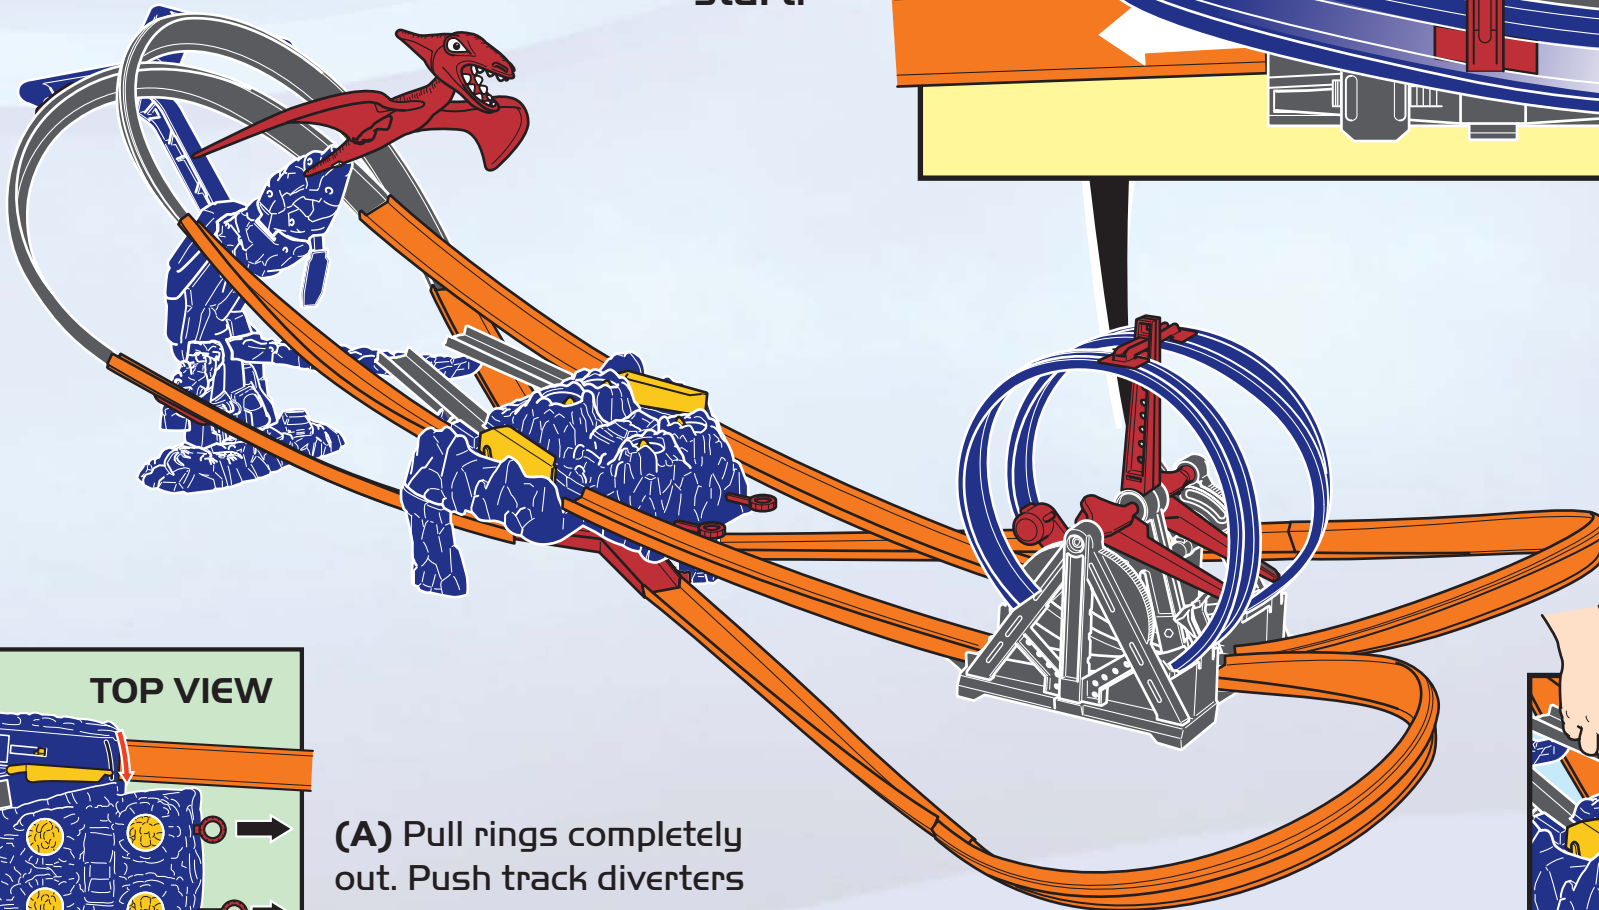

GET READY TO PLAY (CONTINUED)

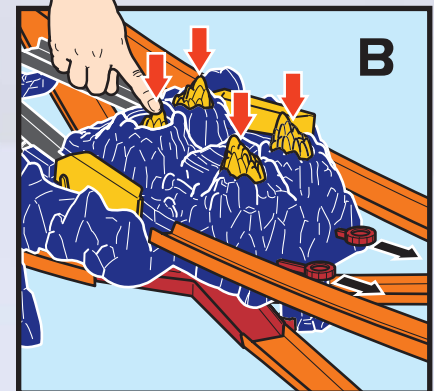

Place cars
in front of
red levers
on inner
loop to start.

CAR
DIRECTION

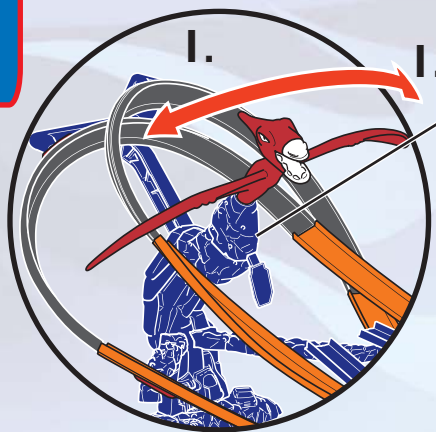

(A) Pull rings completely out. Push track diverters in as shown.

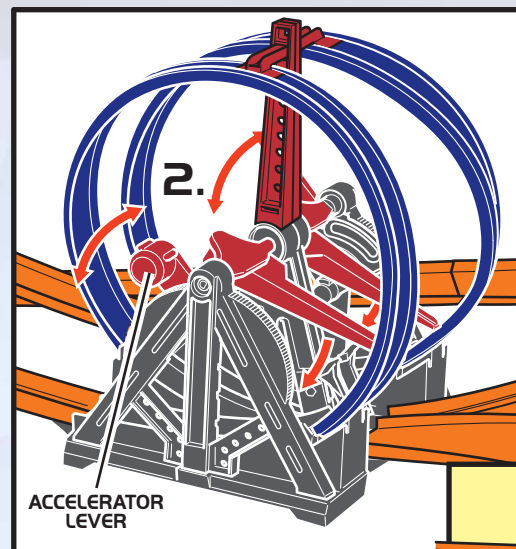

(B) Then push down all four volcano peaks until they lock.

TO PLAY 2-PLAYER

NOTE: 1-player game play is the same as the 2-player game play shown here you just won't have the head to head racing action.

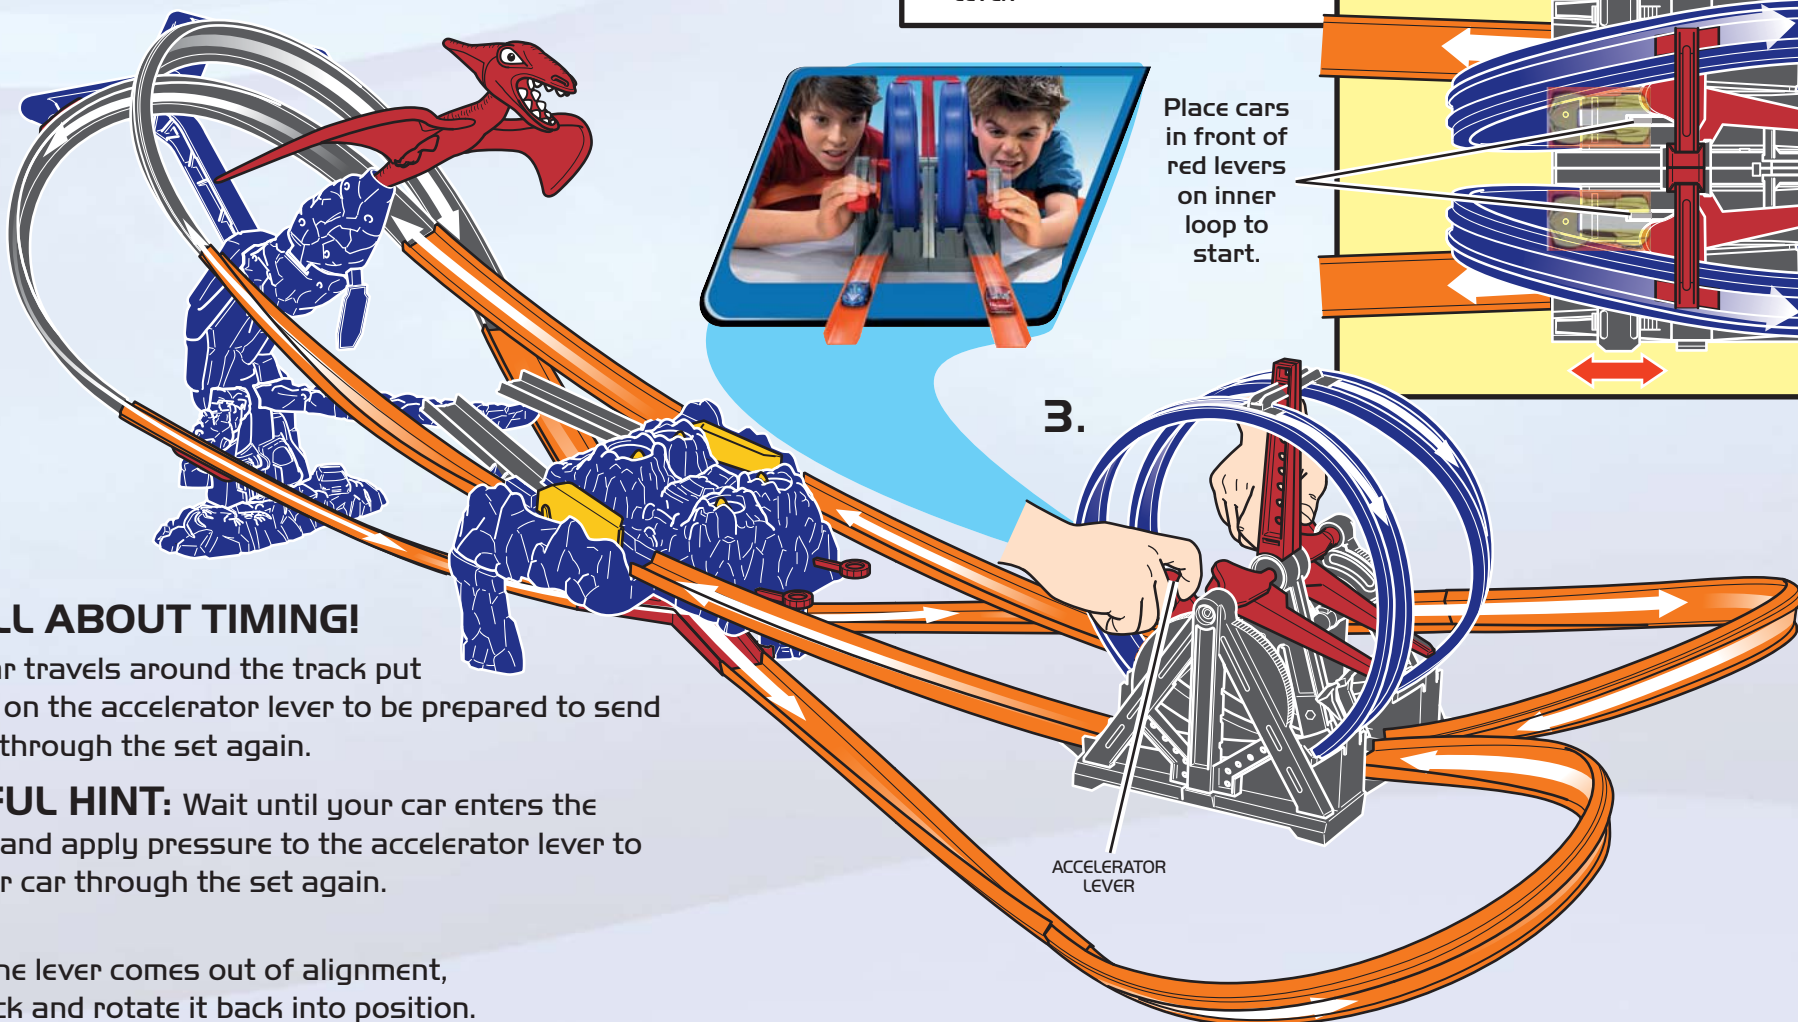

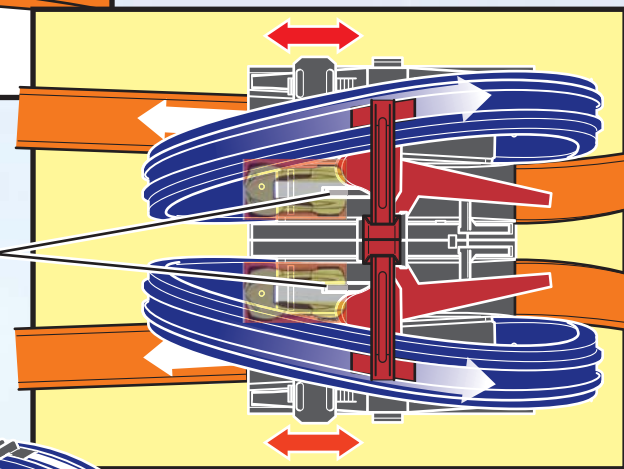

1. Push switch to the ON position to start. Watch as the pterodactyl moves from side to side.

2. Place cars in front of red levers on inner loop to start.

3. Push down on accelerator levers to propel your car through the track.

TOP VIEW

Place cars in front of red levers on inner loop to start.

3.

ACCELERATOR LEVER

IT'S ALL ABOUT TIMING!

As the car travels around the track put pressure on the accelerator lever to be prepared to send your car through the set again.

HELPFUL HINT: Wait until your car enters the launcher and apply pressure to the accelerator lever to send your car through the set again.

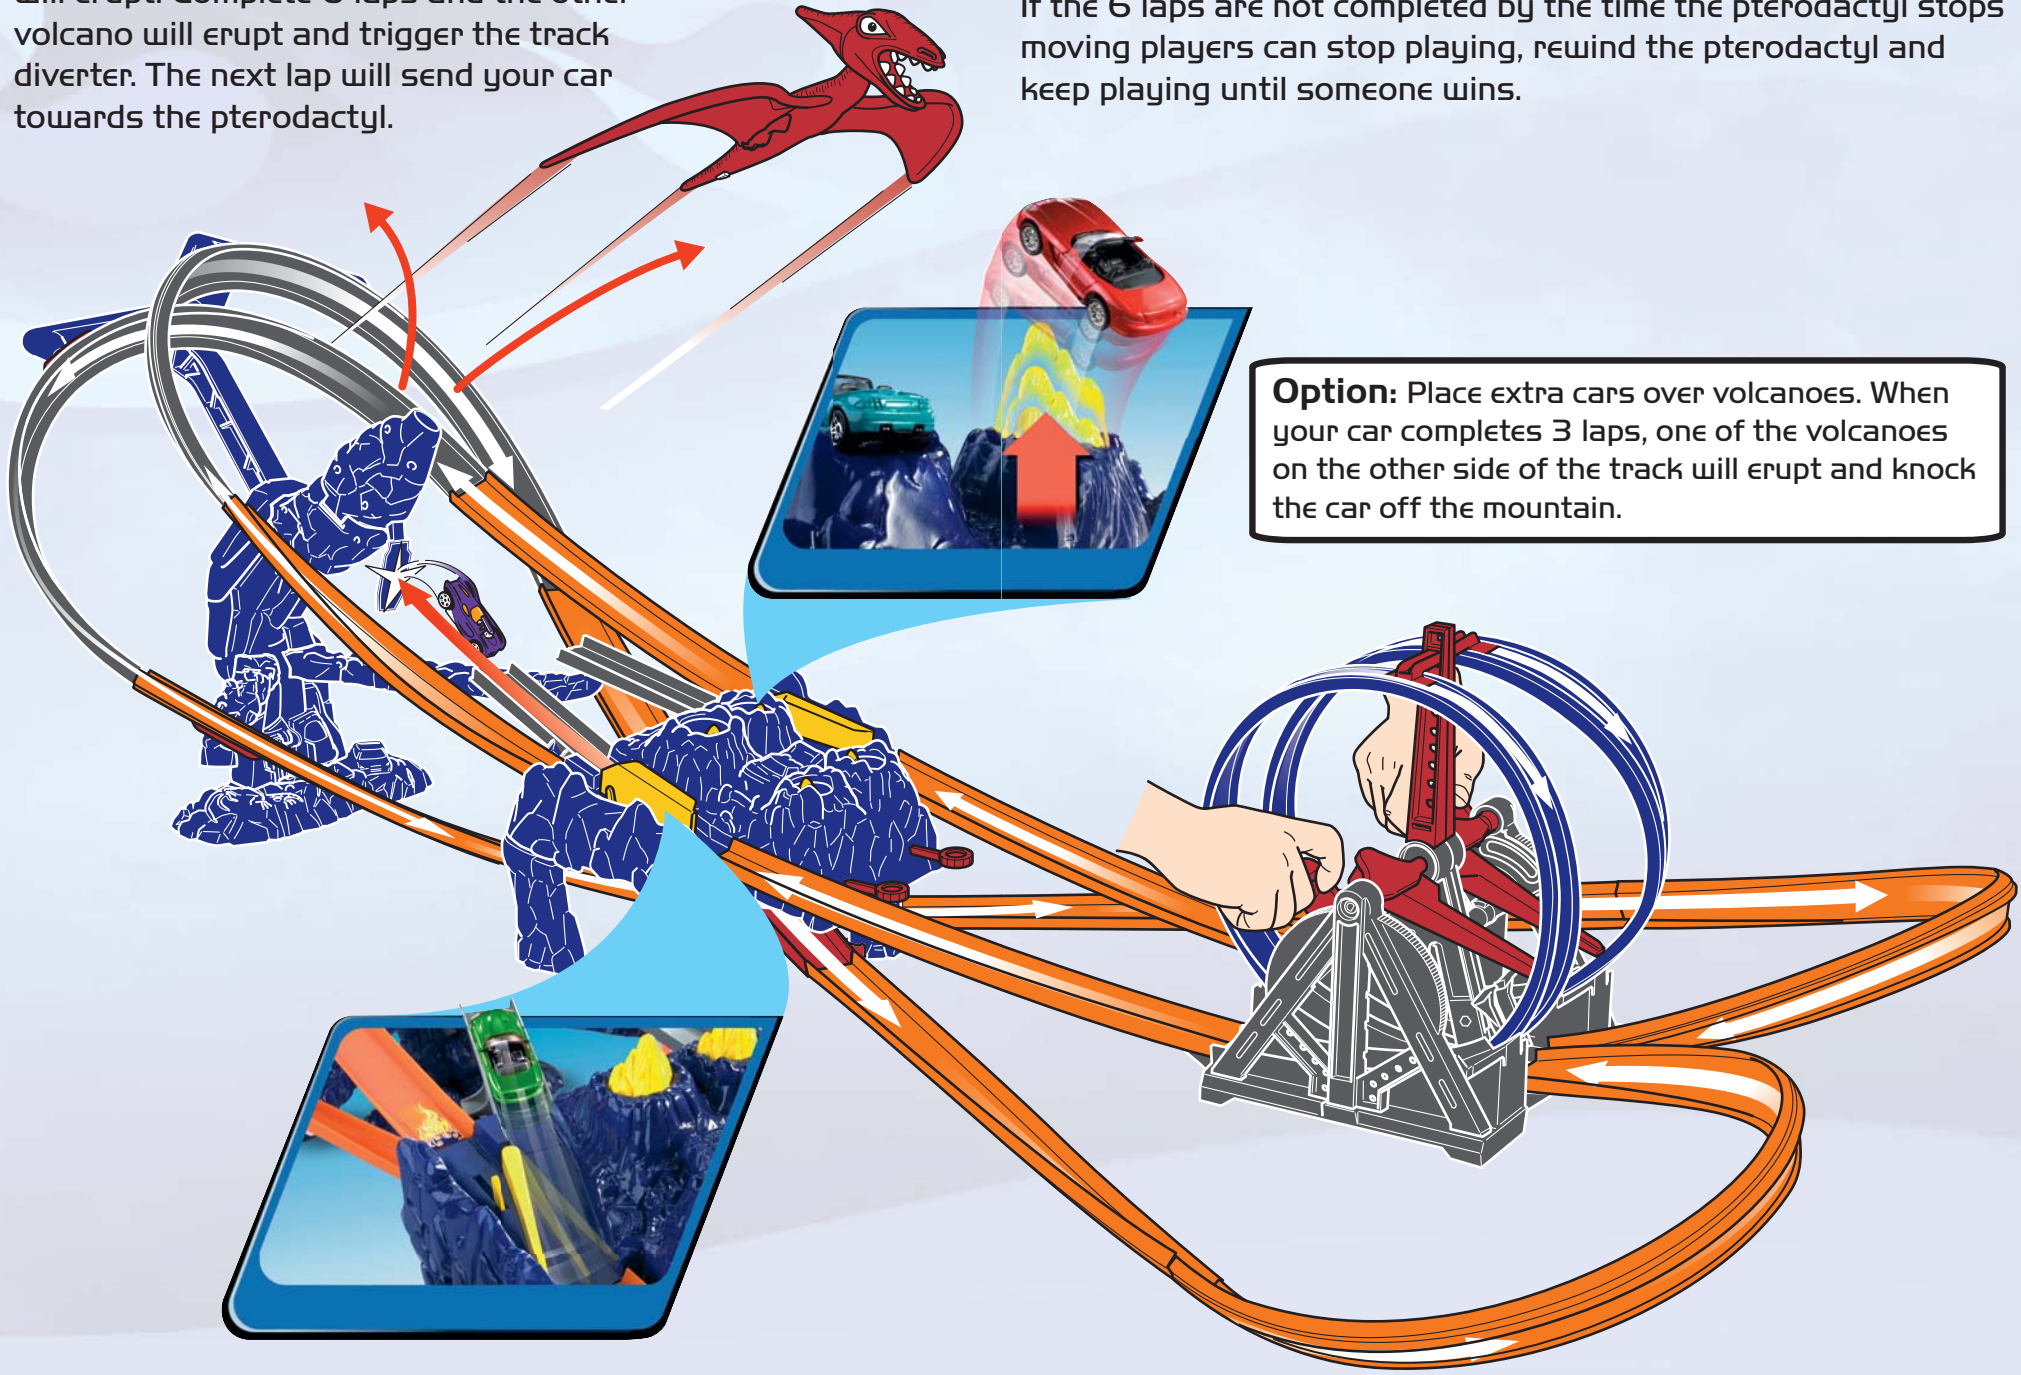

TIP: If the lever comes out of alignment, pull it back and rotate it back into position.

TO PLAY (CONTINUED)

Continue sending your car through the track. Once you complete 3 laps through the volcanoes, one volcano will erupt. Complete 6 laps and the other volcano will erupt and trigger the track diverter. The next lap will send your car towards the pterodactyl.

The first one to hit the target trigger and send the pterodactyl flying **WINS!**

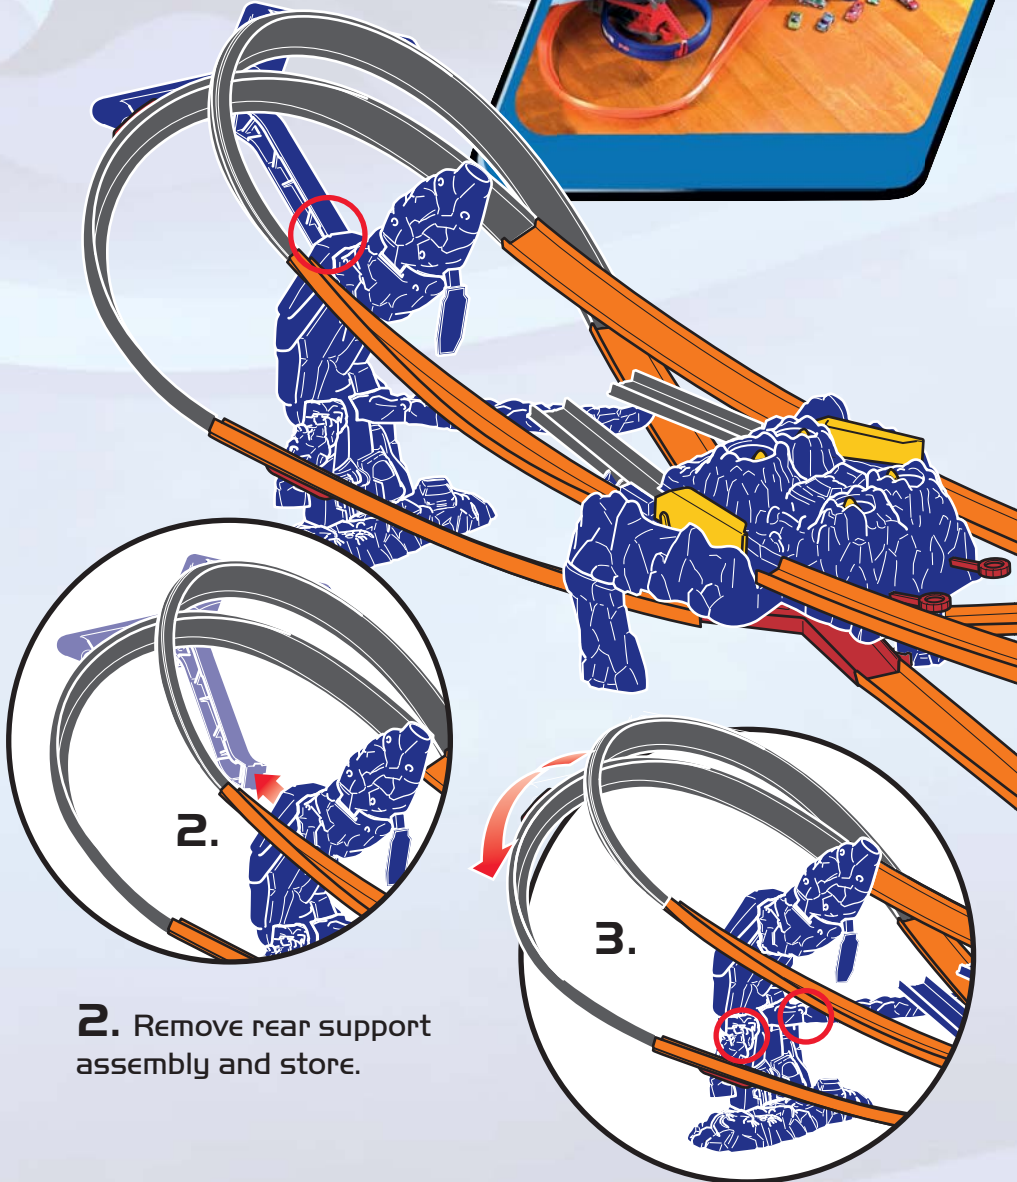

If the 6 laps are not completed by the time the pterodactyl stops moving players can stop playing, rewind the pterodactyl and keep playing until someone wins.

Option: Place extra cars over volcanoes. When your car completes 3 laps, one of the volcanoes on the other side of the track will erupt and knock the car off the mountain.

STORE YOUR SET UNDER YOUR BED!

1. Unsnap track from support and remove support arm.

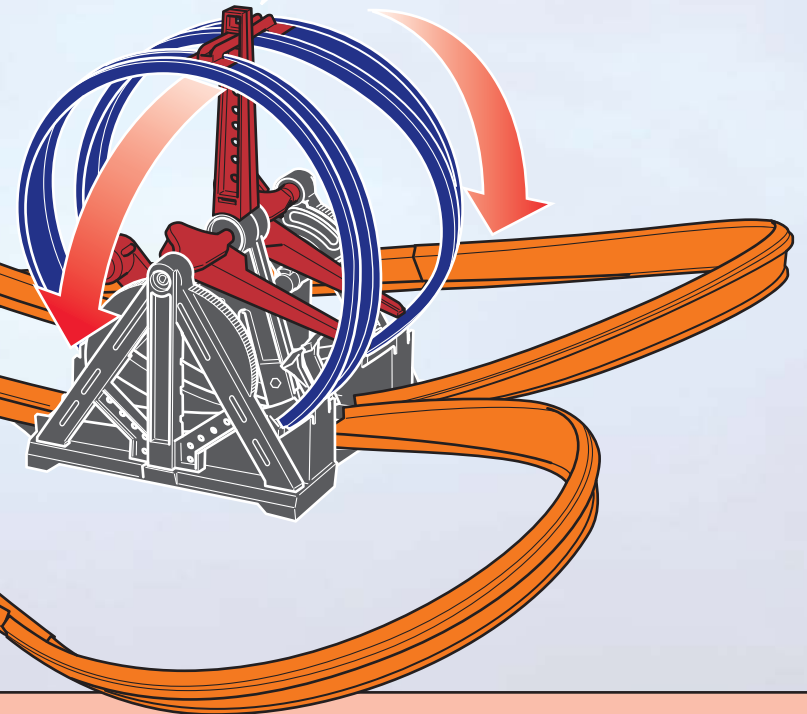

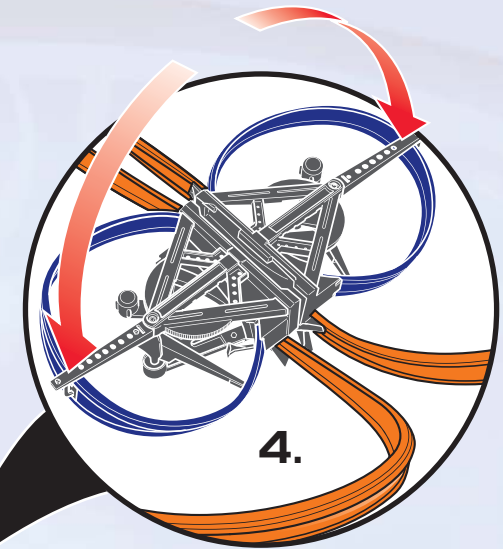

2. Remove rear support assembly and store.

3. Drop curve track assembly and tilt perch assembly backward until it lies flat.

NOTE: support arms are hinged to allow perch to bend forward.

4. Unsnap the two halves of the launcher/loop and fold down flat as shown.
