JHF61 - LAMBORGHINI MIURA P400 SV

LAMBORGHINI MIURA P400 SV

Often considered the world's first supercar, the Miura remains a major highlight in Lamborghini's history. Featuring a powerful V12 engine and sleek profile, this iconic model made waves at the 1966 Geneva Motor Show. It was the fastest car in production upon release and its mid-engine layout would become the new standard for high-performance supercars.

Souvent considérée comme la toute première "supercar", la Miura reste l'une des plus grandes réussites de Lamborghini. Avec son puissant moteur 12 cylindres et son profil minimaliste, ce modèle emblématique a fait grand bruit au salon de l'automobile de Genève de 1966. Au moment de sa sortie, il s'agissait de la voiture la plus rapide en production et sa configuration à moteur central allait devenir la nouvelle norme pour les supercars hautes performances.

1971

A menudo considerado el primer coche de alta gama del mundo, el Miura sigue siendo uno de los mayores hitos de Lamborghini. Con un potente motor V12 y un perfil elegante, este emblemático modelo causó sensación en el Salón del Automóvil de Ginebra de 1966. En el momento de su lanzamiento, era el coche más rápido jamás fabricado y su motor central se convertiría en el nuevo estándar de los automóviles de alto rendimiento.

Der Miura wird häufig als der weltweit erste Supersportwagen bezeichnet und erfüllt Lamborghini bis heute mit Stolz. Mit seinem kraftvollen V12-Motor und dem schlanken Profil sorgte dieses ikonische Modell auf dem Genfer Autosalon 1966 für Aufsehen. Es war zum Zeitpunkt der Veröffentlichung der schnellste Serienwagen und hat mit dem Mittelmotor-Konzept einen neuen Standard für Hochleistungsportwagen gesetzt.

MAXIME LECLAIR

The Miura is gorgeous overall, but what I love the most about it is the iconic louvers on the back. In designing the car as a building set, it was essential to recreate them as faithfully as possible. We also included pivoting pop-up headlights, true to the original vehicle. The result is a true love letter to this legendary car.

La Miura est magnifique dans son ensemble, mais ce que j'aime le plus, ce sont les aérations emblématiques à l'arrière. Pour concevoir le set de

construction de cette voiture d'exception, il était essentiel de rester aussi fidèle à l'original que possible. Nous avons également inclus des phares escamotables pivotants, fidèles au véhicule d'origine. Le résultat est une véritable déclaration d'amour à cette voiture légendaire.

El Miura es precioso en general, pero lo que más me gusta de él son las inconfundibles rejillas louver de la parte trasera. Al diseñar el coche como un conjunto de construcción, era esencial recrearlas con la mayor fidelidad posible. También incluimos faros escamoteables pivotantes, fieles al vehículo original. El resultado es una verdadera carta de amor a este coche legendario.

Der Miura ist einfach bildschön, doch am meisten gefallen mir die Lüftungsschlitze hinten. Bei der Gestaltung des Autos als Bauset war es wichtig, es so originalgetreu wie möglich nachzubilden. Wir haben außerdem schwenkbare Klappscheinwerfer integriert, ganz im Stil des Originalfahrzeugs. Das Ergebnis ist eine detailgetreue Hommage an dieses legendäre Fahrzeug.

CRAIG CALLUM

The Miura is up there with the most iconic supercars of all time. Our die-cast captures all the details of this most honored car with an opening rear cowl to reveal the V12 engine, and an opening front cowl for more authenticity and detail. The vehicle has the classic Miura stance with the body draped elegantly over the rubber Real Riders™ wheels, new Kidney Bean rims and will be the center piece of any die-cast collection.

La Miura figure parmi les voitures de sport les plus emblématiques de tous les temps. Notre modèle moulé sous pression reproduit fidèlement chaque détail de cette voiture légendaire : coque arrière ouvrante révélant le moteur V12, coque avant ouvrante, et une

finition qui ajoute encore plus d'authenticité et de réalisme. Le véhicule affiche l'allure classique de la Miura, avec une carrosserie élégante posée sur les roues en caoutchouc Real Riders™ et les nouvelles jantes Kidney Bean. Une vraie pièce maîtresse pour toute collection de modèles moulés sous pression.

El Miura está entre los automóviles más icónicos de todos los tiempos. Nuestro modelo de fundición captura todos los detalles de este venerable auto con una capota trasera que se abre para mostrar el motor V12, y una capota frontal que también se abre para mayor autenticidad y detalle. El vehículo tiene la clásica postura del Miura, con el cuerpo envuelto elegantemente en las ruedas Real Riders™ de goma, nuevos aros Kidney Bean, listo para ser la pieza central de cualquier colección de autos de fundición.

Der Miura zählt zu den legendärsten Supersportwagen aller Zeiten. Unser Die-Cast-Modell fängt jedes Detail dieses ikonischen Fahrzeugs ein. Die Heckhaube lässt sich öffnen und gibt den V12-Motor frei, während die Fronthaube für noch mehr Authentizität und Detailtreue sorgt. Die klassische Miura-Silhouette ruht auf Real Riders™ Rädern mit neuen „Kidney Bean“ Felgen und verkörpert Eleganz und Leistung in perfekter Balance. Ein echtes Highlight und der Mittelpunkt jeder Die-Cast-Sammlung.
