The '94 Toyota Supra is incredibly prevalent in pop culture, so it was an honor to design it as our first Toyota set from Mattel Brick Shop™. 40 custom pieces were designed to accurately recreate its round shape. The carbon fiber style finish is the piece de resistance on this build, adding interesting depth to the all-black design. To match the Hot Wheels® die-cast car, we included a flat spoiler and skirt as customization options.

La Toyota Supra 1994 est extrêmement présente dans la pop culture. C'était donc pour nous un honneur de travailler sur ce modèle pour notre premier coffret Toyota Mattel Brick Shop™. 40 pièces personnalisées ont été conçues pour recréer avec précision sa forme toute en courbe. La finition en style fibre de carbone est la pièce maîtresse de cette construction, ajoutant une profondeur intéressante à ce modèle entièrement noir. Pour correspondre à la voiture Hot Wheels®, nous avons inclus un spoiler plat et un bas de caisse comme options de personnalisation.

El Toyota Supra de 1994 tiene una increíble prevalencia en la cultura pop, por lo que ha sido un honor diseñarlo para nuestro primer conjunto de Toyota para Mattel Brick Shop™. Hemos diseñado 40 piezas personalizadas para recrear su forma redondeada con precisión. El acabado de fibra de carbono es la pieza clave de esta construcción, puesto que añade una interesante textura al diseño totalmente negro. Para que combine con el coche metálico de Hot Wheels®, hemos incluido un alerón plano y un faldón como opciones de personalización.

Der '94 Toyota Supra ist in der Popkultur unglaublich präsent, daher war es eine Ehre, ihn als unser erstes Toyota-Set von Mattel Brick Shop™ zu entwerfen. Es wurden 40 individuelle Teile entworfen, um die runde Form authentisch nachzubilden. Die Carbonfaser-Oberfläche ist das Highlight dieses Modells und verleiht dem komplett schwarzen Design eine interessante Tiefe. Passend zum Hot Wheels® Die-Cast-Auto bieten wir einen flachen Spoiler und eine Schürze zur individuellen Gestaltung.

JIMMY LIU

One of the 90's JDM titans, this iconic Japanese sports car always had a presence on the streets and is one of the most influential cars in JDM car culture. The legendary 2JZ 6 cylinder engine was easily tunable and reliably put some serious power to the ground. As a dream car for myself and many others, our Hot Wheels® version features custom aero with a proper stance to really live up to its highway missile reputation!

Cette voiture de sport japonaise emblématique, qui compte parmi les légendes JDM des années 1990, a toujours été présente sur les routes et reste l'un des modèles qui auront le plus marqué la culture automobile JDM. Le légendaire moteur 2JZ 6 cylindres était facilement modifiable et transmettait une puissance impressionnante aux roues avec une fiabilité remarquable. Pour rester fidèle à cette voiture qui compte de nombreux fans (dont je fais partie), notre version Hot Wheels® est dotée d'un aérodynamisme personnalisé et d'une allure inimitable : de quoi faire honneur à sa réputation de missile automobile !

Este icónico coche deportivo japonés, además de ser unos de los titanes del JDM en los 90, siempre ha tenido una gran presencia en las calles y es uno de los coches más influyentes de la cultura automovilística del JDM. El legendario motor 2JZ de seis cilindros se adaptaba con facilidad y aportaba una potencia muy considerable. Este coche es un sueño tanto para mí como para muchas otras personas, y nuestra versión Hot Wheels® tiene una forma aerodinámica personalizada e ideal para mantener su reputación de cohete en la carretera.

Dieser ikonische japanische Sportwagen gilt als einer der Titanen der japanischen Autokultur der 90er Jahre. Dieses Auto war stets auf den Straßen präsent und ist eines der einflussreichsten Autos der JDM-Autokultur. Der legendäre 2JZ 6-Zylinder-Motor war leicht zu tunen und brachte zuverlässig ordentlich Leistung für die Straße. Als Traumauto für mich und viele andere verfügt unsere Hot Wheels® Version über eine maßgeschneiderte Aerodynamik mit einer passenden Haltung, damit das Auto seinem Ruf als Autobahnrakete wirklich gerecht wird!
