Where great minds think like kids™

Since 1961, early childhood development experts at the Fisher-Price™ Play Lab have watched and learned from real-life fun experts (aka kids) to help us design toys that help babies learn and grow in the most natural way. From engaging activities to get them sitting up and crawling, to supportive pals that help with first steps and introduce first words, Fisher-Price® infant toys help make reaching those important milestones (and everything in between) so much fun.
