Fisher-Price®

**SMART CYCLE**™

Assembly Tip

Please follow these instructions carefully to properly assemble the pedals to the Smart Cycle™.

Left Pedal   **Right Pedal**   **Assembly Tool**

Your Smart Cycle includes a left and right pedal along with an assembly tool.
You must use the assembly tool to attach the pedals.

1

- Locate the left pedal marked with an **L** on the outside end.
- Fit the threaded end of the left pedal into the hole in the left pedal axle marked with an **L**.
- Hand-tighten the pedal by turning it **COUNTER-CLOCKWISE**.

2

Counter-Clockwise **L**

- Fit the end of the assembly tool to the groove in the end of the pedal.
- Turn the assembly tool **COUNTER-CLOCKWISE** to **fully** tighten the pedal.

3
- Fit the threaded end of the right pedal (marked with an **R**) into the hole in the right pedal axle (also marked with an **R**).
- Hand-tighten the pedal by turning it **CLOCKWISE**.

4
R Clockwise

- Fit the end of the assembly tool to the groove in the end of the pedal.
- Turn the assembly tool **CLOCKWISE** to **fully** tighten the pedal.

Assembly Tip

Please follow these instructions carefully to properly assemble the handlebar to the Smart Cycle™.
Handlebar

Connector

Socket

1
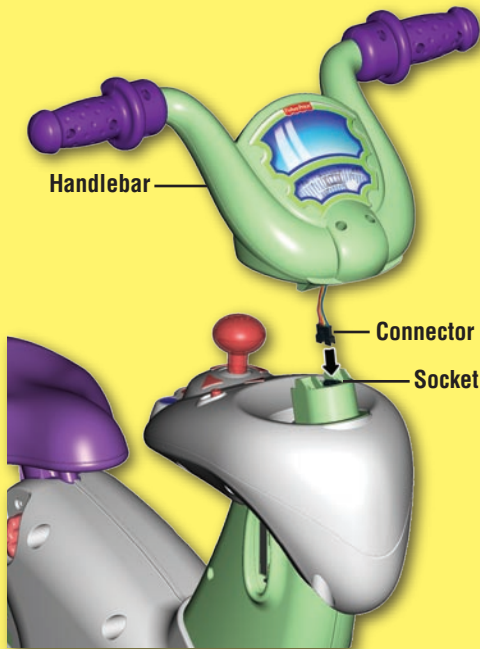

• Plug the handlebar connector into the socket in
  the console.
*Hint: The connector will only fit one way into the socket.
If it does not seem to fit, turn it around and try again!*

Tab

Post

2
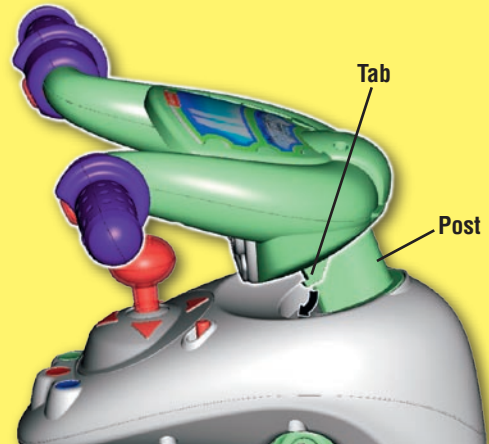

• Place the handlebar, at an angle, onto the top of the post.
• Push to insert the tab on the back of the handlebar into
  the slot in the console.

TOP VIEW

3

• Next, push the handlebar forward and down to **"snap"** it
  in place. Make sure you hear a **"snap". This may take a
  lot of force.**

4

• Insert two #8 x 1" screws into the handlebar and tighten.
  *Hint: If the screws cannot be tightened, you have not
  assembled the handlebar properly. Remove the handlebar
  and refer back to Assembly steps 2 and 3.*
