

FisherPrice®

**Collect all three GeoAir™ sets for even
more high flyin' fun!
Here's how they connect...**

1

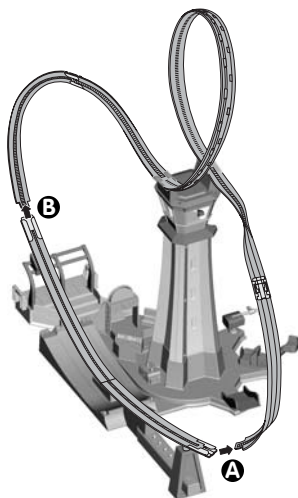

- Disconnect the air track from the air track connector under the roof on the open side of the barn, as shown.

2

- Disconnect one of the air tracks from the air track connector on top of the bridge, as shown.

3

- Pull the end of the air track out of the air track connector on the trestle assembly **A**. Then, pull the end of the air track out of the air track connector on the air track support **B**.

Note: Make sure the air track connectors stay on the base air tracks.

4

- Connect the free ends of the air tracks, as shown.
