

WHAC-A-MOLE®

CARD GAME

Whac-A-Mole® cards

Pesky moles are poppin' up all over the place – can you get 'em all? When the moles match up, smack the Whac-A-Tile fast!

Object: Win all the cards!

Contents: 36 Mole Cards, 1 Whac-A-Tile

Set up:

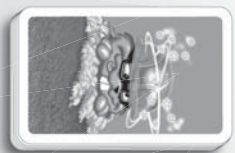

Place the Whac-A-Tile in the middle of the playing area so that each player can reach it easily. Shuffle the mole cards then deal all of the cards, facedown, to players. Players do not look at these cards.

How to Play:

The youngest player goes first.

The first player flips up one card from their card stack so that everyone can see the colored mole on its face. Each player, one after the other, does the same. These face-up cards in front of each player are called MOLE PILES.

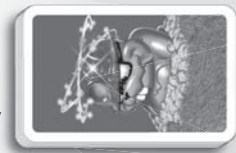

Player 1

Whac-A-Tile

Player 2

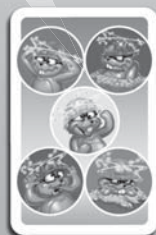

Mole Piles

But keep an eye out – if the colors of two DIFFERENT players' moles match, THOSE PLAYERS race to see who can smack the Whac-A-Tile first!

Whichever player is first to hit the Whac-A-Tile gets to collect BOTH the mole piles and puts these cards back into the bottom of their own stack of cards.

Always look for Wild Moles. ANYTIME a Wild Mole shows up, ANYONE can hit the Whac-A-Tile fast and collect ALL of the mole piles from the other players!

Wild Mole Card

Play continues until one player has collected everybody else's mole piles and is declared King of the Molehill™!

Note: players have to flip up the cards AWAY from them. This way, everyone sees the moles on the card at the same time.

In the unlikely event that there are no more matches available between the players left in the game, players should count all the moles they own. The player with the most moles wins.

Advanced play

All players flip over their cards at the same time.

If a player hits the Whac-A-Tile when they're not supposed to, two cards are removed from their stack of cards and those cards are out of the game.

Alternative play

For a shorter game, play with fewer cards.
