V7867

Please keep this instruction sheet for future reference,
as it contains important information.

Requires six "AAA" (LR03) **alkaline** batteries (not included) for operation.

Adult assembly is required.

Tool required for assembly: Phillips screwdriver (not included)

Wipe with a clean, damp cloth. Do not immerse the vehicle or remote controller.

Actual product may appear different than the photos shown.

GeoTrax™

Transportation System

Assembled Parts

3 Table Tops

6 Leg Supports

Storage Drawer

6 Table Legs

5 Long Straight Tracks

Short Straight Track

5 Curved Tracks

2 Short Guardrails

Long Guard Rail

Curved Ramp Track

Easy Load Track

Bridge Track

Curved Bridge Track

Ramp Track

2 "Y" Tracks

5 Bridge Supports

"Y" Support

2 Bridge Rails

Crane

Note: Tighten or loosen all screws with a Phillips screwdriver. Do not over-tighten.

#8 x 3/4" (1,9 cm) Screw – 30

Shown Actual Size

Table Assembly

CAUTION

This product contains small parts in an unassembled state. Adult assembly is required.

- Fit the leg supports into the slots in each table leg.
- Hint: The leg supports are designed to fit onto the table legs one way. If a leg support does not seem to fit, turn it around and try again!*

- Insert two screws into each leg support and tighten.

- Lay a table top with the bottom side up on a flat surface.
- Fit the leg assembly into the grooves in the table top.

- Insert six screws into the holes in the leg assembly and tighten.
- Repeat steps 1-4 to assemble the other two tables.

- Slide the storage drawer into the grooves in a storage table.

Track Setup

- Fit the long guard rail onto a curved ramp track, as shown.

- Fit the "Y" support onto the bottom of the curved ramp track.

- "Snap" the short guardrails onto the curved tracks.

- Fit the bridge track onto two bridge supports, as shown.

- Fit two more bridge supports onto the bridge assembly, as shown.

- Fit the bridge rails to the top of the bridge assembly.

- Track pieces easily snap together.

Table Layouts

Slide a smooth side of a table onto any tabbed side of another table to create the table layouts below!

Track Layout

Battery Installation

We recommend the use of **alkaline** batteries for longer battery life.

Vehicle

- Locate the battery compartment on the back of the vehicle.
- Loosen the screws in the battery compartment door with a Phillips screwdriver. Lift the battery compartment door and insert three "AAA" (LR03) **alkaline** batteries.
- Close the battery compartment door and tighten the screws with a Phillips screwdriver. Do not over-tighten.
- If the vehicle begins to operate erratically, you may need to reset the electronics. Remove the batteries and replace them in the vehicle.

IMPORTANT! Under normal use conditions, the batteries in the vehicle will require replacement more often than the batteries in the remote controller. For additional information, refer to the troubleshooting section.

Remote Controller

- Locate the battery compartment on the bottom of the remote controller.
- Loosen the screw in the battery compartment door with a Phillips screwdriver. Remove the battery compartment door and insert three "AAA" (LR03) **alkaline** batteries.
- Replace the battery compartment door and tighten the screw with a Phillips screwdriver. Do not over-tighten.
- If the remote controller begins to operate erratically, you may need to reset the electronics. Remove the batteries and replace them in the remote controller.

- Protect the environment by not disposing of this product with household waste (2002/96/EC). Check your local authority for recycling advice and facilities (Europe only).

Battery Safety Information

In exceptional circumstances, batteries may leak fluids that can cause a chemical burn injury or ruin your toy. To avoid battery leakage:

- Do not mix old and new batteries or batteries of different types: alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium).
- Insert batteries as indicated inside the battery compartment.
- Remove batteries during long periods of non-use. Always remove exhausted batteries from the toy. Dispose of batteries safely. Do not dispose of this product in a fire. The batteries inside may explode or leak.
- Never short-circuit the battery terminals.
- Use only batteries of the same or equivalent type, as recommended.
- Do not charge non-rechargeable batteries.
- Remove rechargeable batteries from the toy before charging.
- If removable, rechargeable batteries are used, they are only to be charged under adult supervision.

ICES-003

- This Class B digital apparatus complies with Canadian ICES-003.
- Operation is subject to the following two conditions: (1) this device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation.

NMB-003

- Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
- L'utilisation de ce dispositif est autorisée seulement aux conditions suivantes : (1) il ne doit pas produire de brouillage et (2) l'utilisateur du dispositif doit être prêt à accepter tout brouillage radioélectrique reçu, même si ce brouillage est susceptible de compromettre le fonctionnement du dispositif.

All Aboard!

Hint: We do not recommend using the vehicle on carpets. For best performance, use on hard, flat surfaces.

1

- Press the power button on top of the vehicle. The ready light turns on.

2

- Point the antenna of the remote controller toward the vehicle and push the stick forward. The vehicle moves forward.
- Pull the stick all the way back and the vehicle travels in reverse. Release the stick to stop.

Troubleshooting

PROBLEM	SOLUTION
Vehicle drives slowly	<p>Battery power in the vehicle may be weak. Replace all three batteries in the vehicle with new, alkaline batteries.</p> <p>The wheels on the vehicle may be dirty. Wipe them with a clean cloth.</p>
Vehicle does not respond to the remote controller	<p>Battery power in the remote controller may be weak. Replace all three batteries in the remote controller with new, alkaline batteries.</p> <p>You may be beyond the maximum range of the remote controller which is about 12 feet (3,6 m).</p> <p>You may not have a clear path between the remote controller and the vehicle. This toy works best when there are no obstructions between the vehicle and the remote controller.</p> <p>Bright sunlight or fluorescent lights may affect the range of the remote controller. Try dimming the room you are playing in.</p> <p>The vehicle may have shut off. If you do not operate the remote controller for a few minutes, the vehicle shuts off automatically and the ready light turns off. Press the power button on the vehicle, and operate the remote controller to restart.</p>

Consumer Information

FCC Statement (United States Only)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

Note: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
