## MEGA SYSTEM

Pieces Combine and Recombine!  
Try Any Combination!

### CONTENTS

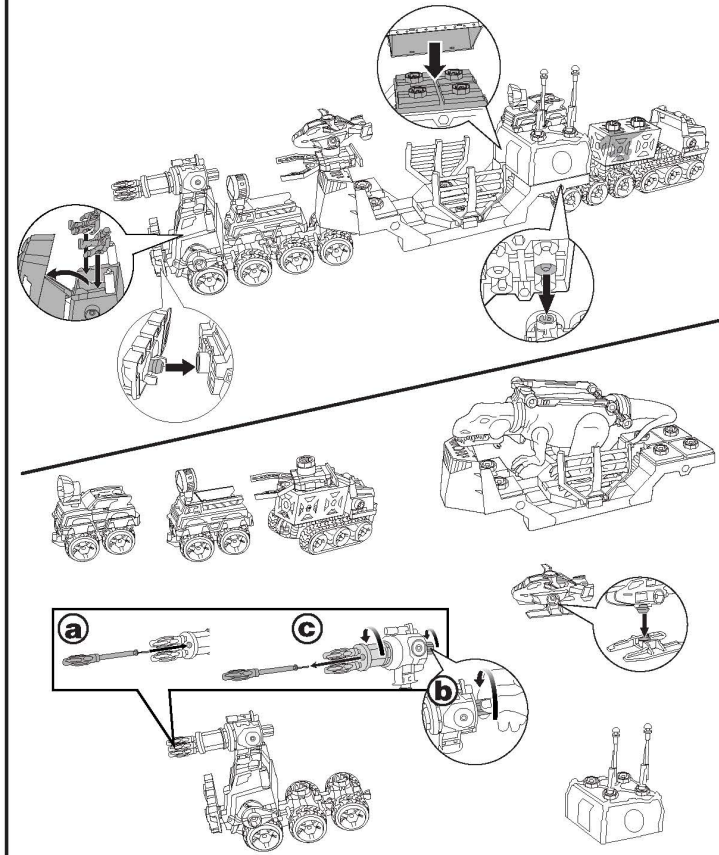

**WARNING:**  
CHOKING HAZARD - Small parts.  
Not for children under 3 years.

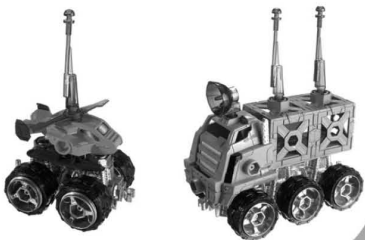

**ADVERTENCIA:**  
PUEDE CAUSAR ASFIXIA.  
No recomendable para menores de 3 años. Contiene piezas pequeñas.

**ATTENTION:**  
NE CONVIENT PAS aux enfants de moins de 36 mois. Petits éléments détachables susceptibles d'être avalés.

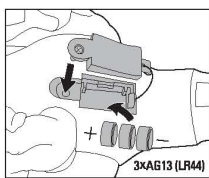

### CAN YOU BUILD THESE?

## CAN YOU BUILD THESE?

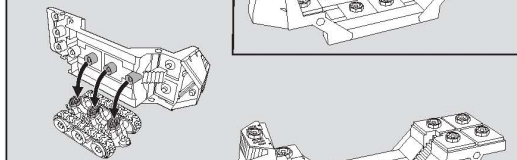

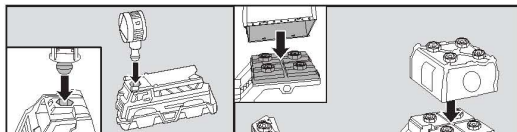

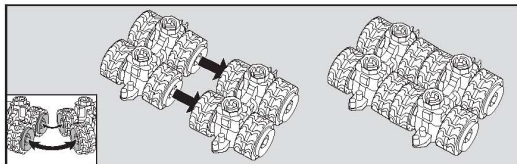

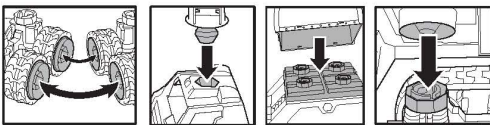

## BATTERY INSTALLATION/REPLACEMENT

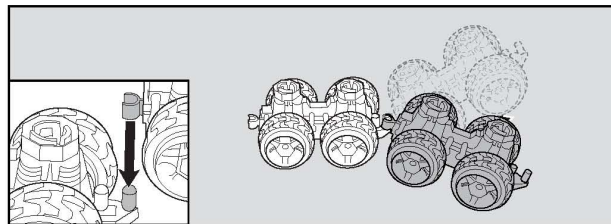

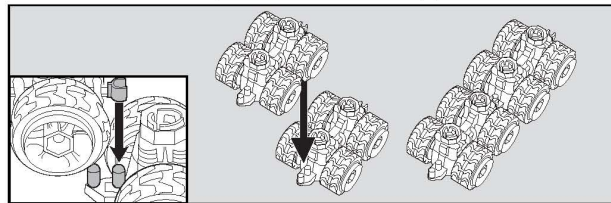

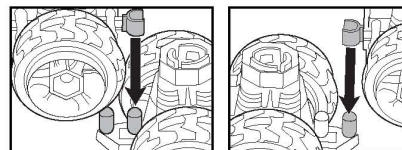

Open battery cover with Phillips head screwdriver (not included) remove batteries included for demonstration purposes only and insert 3 new bottom cell AG13 (LR44) alkaline batteries (not included) as shown. Replace cover and tighten screw. For longer life use only alkaline batteries. Replace batteries when sound distorts or product does not function properly.

## ASSEMBLY

### Connect Mega Pieces!

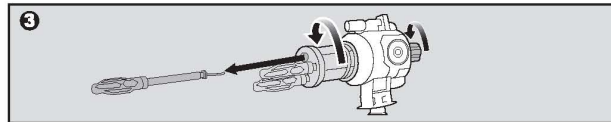

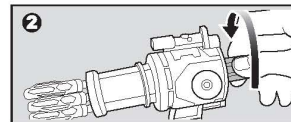

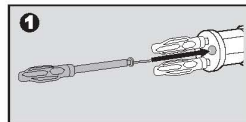

## Hitch One Rig To Another

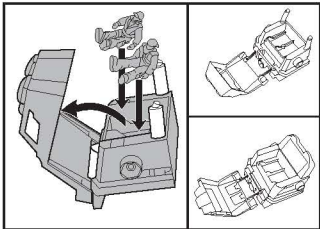

## Spin Barrel To Make Missiles Really Fire

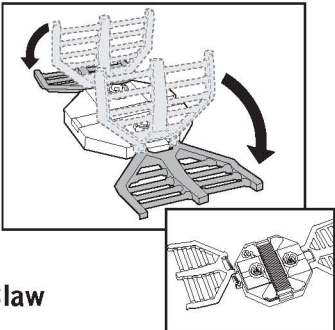

• Only use projectiles supplied with this toy. Do not fire at people or animals or at point blank range.

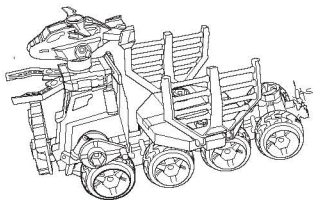

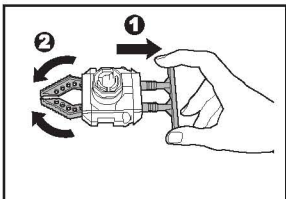

### Matchbox® Men Inside

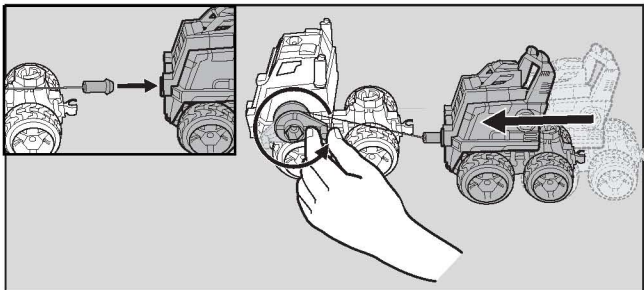

### Cage Opens

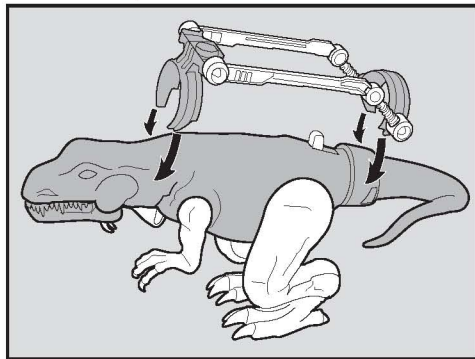

### Pull To Activate Capture Claw

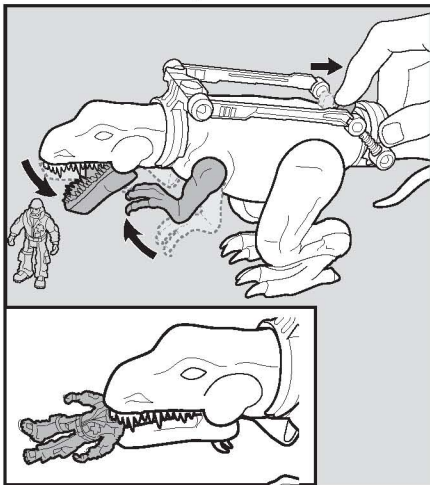

### Turn Handle To Make Winch Work

### Attach Capture Collar To Dino

### Pull Lever To Open Dino Mouth

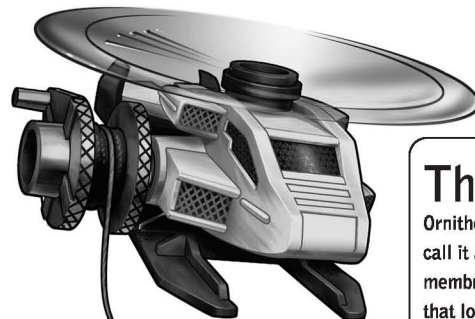

## The Biggest

Argentinosaurus was the biggest land animal in history. It was seven stories high, and it was as long as one-third of a football field. This creature was so massive, the earth literally shook as it went by. Get clear or get crushed!

## The Baddest

Gigantosaurus was the largest land predator ever to chow down. Roaming the ancient plains of South America, this monster had teeth almost a foot long. Gulp!

# KNOW YOUR DINOS

## The Altitudinous

Ornitomochilus flew in the air, but don't call it a bird. It had massive membranous (say mem-brain-us) wings that looked like a bat's. They were enormous – 40 feet from tip to tip – as big as an airplane. And it had sharp teeth, and it could drift on thermals for 100 miles without flapping a wing.

## The Coolest

Koolasuchus didn't look cool. With a massive head and flat body, it rested in shallow water, eating anything dumb enough to come for a drink. It also wasn't too cool at surviving, being beat out by the early crocodiles. Still...somebody named it Koolasuchus, so you decide!

## Battery Safety Information

In exceptional circumstances batteries may leak fluids that can cause a chemical burn injury or ruin your toy (product). To avoid battery leakage:

- Non-rechargeable batteries are not to be recharged.
- Rechargeable batteries are to be removed from the product before being charged (if designed to be removable).
- Rechargeable batteries are only to be charged under adult supervision (if designed to be removable).
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Do not mix old and new batteries.
- Only batteries of the same or equivalent type as recommended are to be used.
- Batteries are to be inserted with the correct polarity.
- Exhausted batteries are to be removed from the product.
- The supply terminals are not to be short-circuited.
- Dispose of battery(ies) safely.
- Do not dispose of this product in a fire. The batteries inside may explode or leak.

## RECYCLE INFORMATION (USA ONLY)

Please recycle button cell battery(ies) contained in this product by:

- Visiting your nearest recycling center. For location of the nearest recycling center, visit us online at [www.service.mattel.com](http://www.service.mattel.com).
- If a recycling center is not available in your area, contact us for a pre-paid mailing label. Visit us online at [www.service.mattel.com](http://www.service.mattel.com) or call toll-free at 1(800)524-TOYS.

*Valid in the US only • Solo válido en los EE.UU. • Valable aux États-Unis seulement.*

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.
