## 1-TIME EASY ASSEMBLY:

**A**

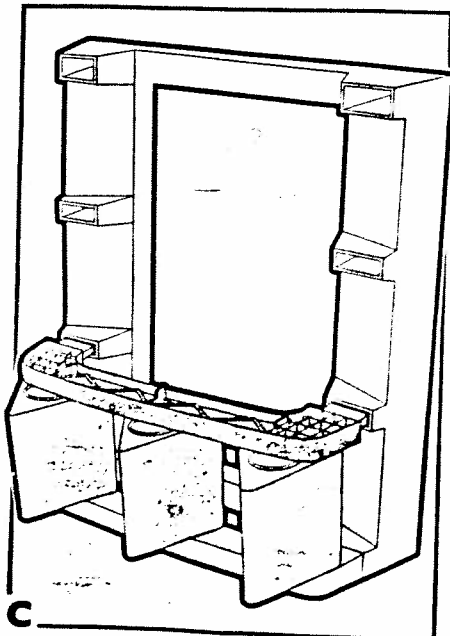

- 1** Place the Gamebase on a table.
- 2** Take one End-Crossbar (1 smooth side, 1 grid side) and insert it into one end of the base with the smooth side facing outward. (see picture A)
- 3** Stand the Gamebase on the end you have just put together and turn it so that the under side is facing you.\*
- 4** Insert black Crossbar Locks into the slots at both ends of the End-Crossbar, locking it firmly in place. (Hold the lock by its short end and push the long end into the slot.) (see picture B)

**B**

**\*TIP:** When loading the Crossbars and the Targets, turn the base so that its top side is facing you. To insert the locks, turn the base so its under side is facing you.

- 5** Turn the Gamebase around so that the top is facing you again.\* Take one Inner-Crossbar (2 grid sides) and insert it – but just **halfway** – into the next rung of the base. (see picture C)
- 6** Fit 3 yellow Targets – one at a time – between the two Crossbars by lining up their triangle spaces with the pegs in the Crossbars – much like you would fill a paper towel holder. (see picture C)

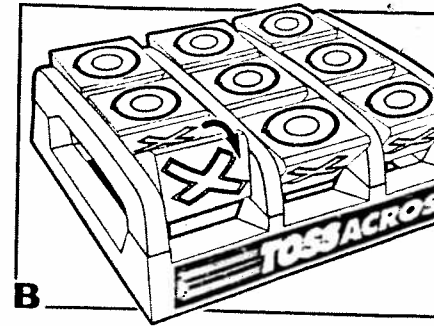

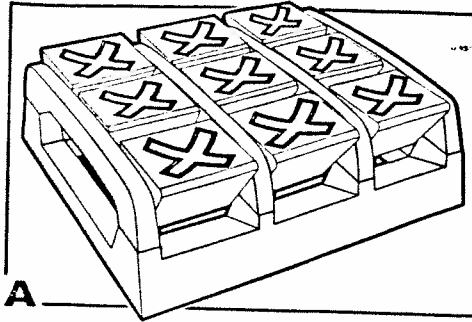

**C**

- 7** When all three Targets are in position, press the Inner-Crossbar all the way down into the base.
- 8** Insert one black Crossbar Lock in each slot to lock the Inner-Crossbar firmly in place.
- 9** Take the other Inner-Crossbar and insert it – only halfway – into the next rung of the Gamebase.
- 10** Repeat step #'s 6, 7 and 8.
- 11** Take the remaining End-Crossbar – make sure the smooth side is facing outward – and repeat Step #6.
- 12** When the last three Targets are positioned, press the End-Crossbar down firmly into the base and lock.

**ATTACHING LABELS:** (For the best PLAY and DESIGN results, follow these instructions carefully!)

- 1** Put ALL of the X's on first. Stick one X, FACING THE SAME DIRECTION, on each side of the 9 Targets. (see picture A)
- 2** Turn all of the Targets over IN THE SAME DIRECTION, TO THE VERY NEXT FACE. (see picture B)
- 3** Stick one O, FACING THE SAME DIRECTION on each of the 9 Targets. (see picture B)

- 4** Stick the Game Logo label across the side of the Gamebase.

**OBJECT OF THE GAME:**

Like Tic Tac Toe, the winner of TOSS ACROSS is the first player or team to get three X's or O's in a row—vertically, horizontally or diagonally. But TOSS ACROSS is uniquely fun because the action switches back and forth, again and again.

**HOW TO PLAY:**

Place TOSS ACROSS on the floor and turn all the Targets BLANK side up.

**For 2 Players:**

- 1** Choose who will be X and who will be O. Each player takes 3 Bean Bags and stands on opposite sides of the Gamebase, about 6 feet away.
- 2** The X player always starts. He/she tosses 1 Bean Bag, either underhand or overhand, and tries to hit a Target.
- 3** Now the O player tosses 1 Bean Bag. The O player may try to hit the same Target to reverse it, or try to turn up an O on another Target.
- 4** Players take turns tossing, (1 Bean Bag per turn) until one player wins by turning up three of his/her symbols in a row – either vertically, horizontally or diagonally.

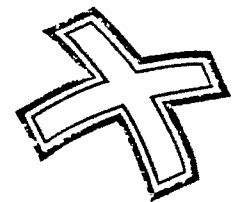

**\*TIP:** Tossed Bean Bags are left on top of the Gamebase or on the floor until all 6 bags are tossed. If neither player has won, the Targets are left in position, the bags are retrieved, and the game continues until someone wins.

**Fun Fact!**

A single toss can flip more than one Target so one minute your opponent may be winning and the next, you are!

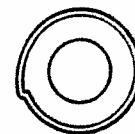

**For Team Play**

- 1** When there are 4 players, two stand on either side of the Gamebase, 6 feet away.
- 2** Each team takes 3 Bean Bags and the order of play is as follows:
  - A** Player 1 on the X team tosses
  - B** Player 1 on the O team tosses
  - C** Player 2 on the X team tosses
  - D** Player 2 on the O team tosses...and so on until one team turns up 3 of their symbols in a row.

**WINNING THE GAME!**

The first player or team to turn up 3 of their symbols in a row wins!

### OBJECT:

To be the first player or team to turn up 3 of the same symbols in a row, either vertically, horizontally or diagonally.

DIAGRAM 3

### FOR 2 PLAYERS:

Each player takes 3 BEAN BAGS and stands about 6 feet away from the Toss Across Game Base at opposite ends. Choose one player to go first.

### THE PLAY:

A player must choose the symbol that is furthest away from him on the target (Diagram #3). He tosses his Bean Bag, either underhand or overhand, and tries to hit part of the target marked with his symbol. If the target is hit on the proper spot, it turns and his symbol will appear face up. His opponent now throws a bean bag. He tries to hit the same target and reverse it, or he may try to turn-up his symbol on other targets. The players toss alternately until one of the player's 3 symbols are turned up in a row, either vertically, horizontally or diagonally. Tossed Bean Bags are left on top of the game base or on the floor until all 6 Bags are tossed. If after all the Bean Bags are tossed, neither player has won, the symbols are left in position. The Bean Bags are retrieved and the game continues until one player wins. During the play of the game the toss of a Bean Bag may turn up two or more symbols, this is acceptable.

### TEAM PLAY:

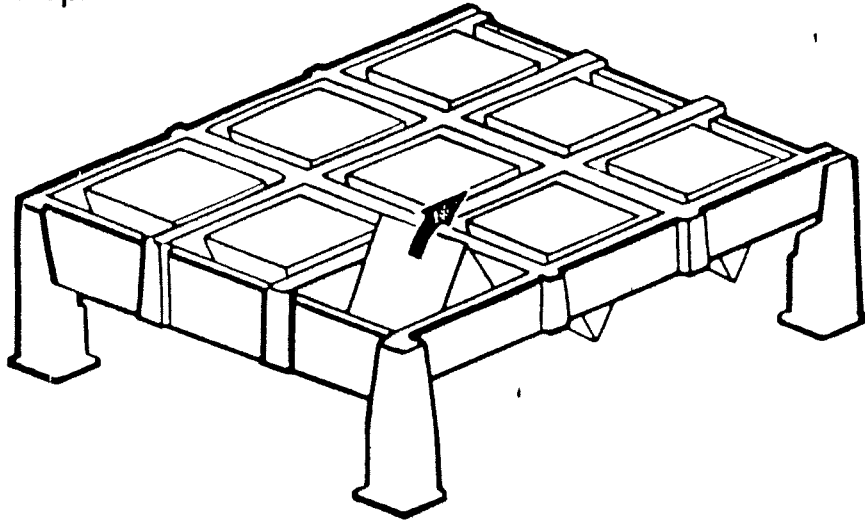

When there are 4 players, two teams are formed. Each team takes 3 Bean Bags and each team stands about 6 feet away from the Toss Across Game Base at opposite ends. Choose one team to go first. A team must choose the symbol that is furthest away from them on the target (see Diagram #3). The order of play is as follows: Player 1 on team 1 throws first, then player 1 on team 2 throws, then player 2 on team 1 and then player 2 on team 2. Play continues in this manner until one team turns up 3 of the same symbols in a row.

### WINNING THE GAME:

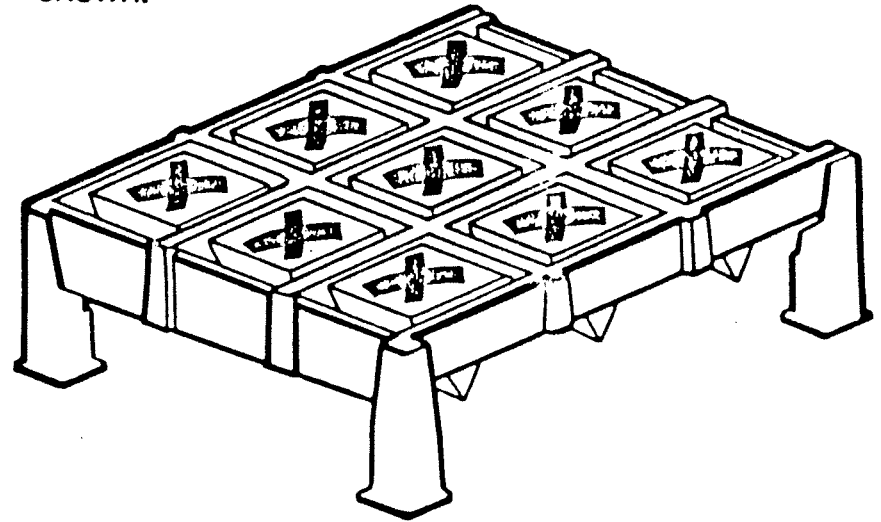

The first player or first team turning up 3 symbols in a row wins the game.

# INSTRUCTIONS FOR PLACING LABELS

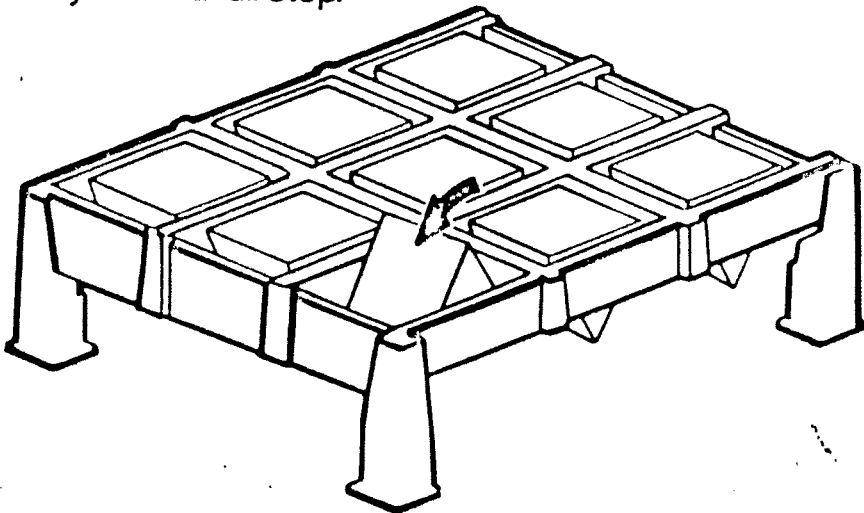

1. Turn all targets in the same direction until they reach a full stop.

2. Target surface should be flat. Apply all X's to targets as shown.

3. Now turn all targets in opposite direction **TWICE** until they reach a full stop.

4. Apply all O's to flat surface as shown.
