DOM

Instructions - Change the word “Card” to be “card” for consistent. Also, one of the thoughts for using customizable card has issue. Need to revise number 8. These will be running change.
Using Customizable Cards

The customizable rule cards can be as wild as you like. Use them to speed up the game, add a bit more strategy, or force someone to do something other. Here are some ideas:

1. The next player must draw until they draw a card of a certain color.
2. Everyone but you must discard all their Wild cards.
3. If the next player can’t play a card, they take THREE cards from the DRAW pile.
4. Take an extra turn.
5. The next player must draw or discard until they have exactly 7 cards.
6. Everyone must discard (or draw) until they have exactly 3 cards.
7. Everyone must play with their hand face up until their next turn.
8. Tell a joke. If someone laughs, discard down to 1 card don’t forget to yell “UNO!” If no one laughs, draw 4 cards.
9. The next player cannot bend their elbows until someone says “UNO!”
10. The next player must perform their best jeer or “Chicken out” and draw 4 cards.

Going “Loony”

When you play the last card, you must yell “UNO!” (meaning “one”) to indicate that you have only one card left. If you don’t yell “UNO!” and you are caught before the next player begins their turn, you must draw two cards.

Once a player has no cards left, the round is over. Points are scored (see Scoring) and play starts over again.

If the last card played in a round is a Draw Two or Wild Draw Four card, the next player must draw the 2 or 4 cards respectively. These cards are counted when the points are totaled.

If no player is out of cards by the time the DRAW pile is depleted, the DISCARD pile is reshuffled and play continues.

Scoring

The first player to get rid of all of their cards in a round receives points for all of the cards left in their opponents’ hands as follows:

- All number cards (0-9) ........................................... 10 Points
- Draw Two ......................................................... 20 Points
- Reverse ........................................................... 20 Points
- Skip ............................................................... 20 Points
- Wild ............................................................... 50 Points
- Wild Draw Four .................................................. 50 Points
- Wild Swap Hands .................................................. 40 Points
- Customizable ....................................................... 40 Points

Once the score for the round has been tallied, if no player has reached 500 points, reshuffle the cards and begin a new round.

Winning the Game

The WINNER is the first player to reach 500 points.

Alternative Scoring and Winning

Another way to score points is to keep a running tally of the points each player is left with at the end of each round. When one player reaches 500 points, the player with the lowest points is the winner.

Setup

Each player draws a card, the player that draws the highest number deals (count any card with a symbol as zero).

The dealer shuffles and deals each player 7 cards.

The top card of the DRAW pile is turned over to begin a DISCARD pile. NOTE: If any of the Action Cards are turned over, they are put on the top of the DISCARD pile.

4. The top card of the DISCARD pile is turned over to begin a DISCARD pile. NOTE: If any of the Action Cards are turned over, they are put on the top of the DISCARD pile.

5. The next player must draw or discard until they have exactly 7 cards.

6. Everyone must discard (or draw) until they have exactly 3 cards.

7. Everyone must play with their hand face up until their next turn.

8. Tell a joke. If someone laughs, discard down to 1 card don’t forget to yell “UNO!” If no one laughs, draw 4 cards.

9. The next player cannot bend their elbows until someone says “UNO!”

10. The next player must perform their best jeer or “Chicken out” and draw 4 cards.

Functions of Action Cards

- Draw Two card - If you play this card, the next player must draw 2 cards and place them face down.
- Reverse card - This card is only valid as long as there is another Reverse card in play. When you play a Reverse, it moves to the top of the deck.
- Skip card - When you play this card, the next player is “skipped” and goes to the end of the line (if no Reverse card is being played). If this card is turned up at the beginning of play, the person to the left of the dealer chooses the order of play.
- Wild card - When you play this card, you get to choose the color that continues play. You must discard the card you are playing and draw a card of the color you choose.
- Wild Draw Four card - When you play this card, the next player must draw 4 cards of your choice from the top of the DISCARD pile.
- Wild Swap Hands card - When you play this card, the next player must turn their hand over and choose the color that continues play.
- Wild Customizable card - This card is played like any other card in the game, but you can choose to change any aspect of the game.

Winning the Game

The WINNER is the first player to reach 500 points.

Alternative Scoring and Winning

Another way to score points is to keep a running tally of the points each player is left with at the end of each round. When one player reaches 500 points, the player with the lowest points is the winner.

Scoring

The first player to get rid of all of their cards in a round receives points for all of the cards left in their opponents’ hands as follows:

- All number cards (0-9) ........................................... 10 Points
- Draw Two ......................................................... 20 Points
- Reverse ........................................................... 20 Points
- Skip ............................................................... 20 Points
- Wild ............................................................... 50 Points
- Wild Draw Four .................................................. 50 Points
- Wild Swap Hands .................................................. 40 Points
- Customizable ....................................................... 40 Points

Once the score for the round has been tallied, if no player has reached 500 points, reshuffle the cards and begin a new round.

Winning the Game

The WINNER is the first player to reach 500 points.

For a Classic Game of UNO®, Take the Wild Swap Hands Card and 3 Wild Customizable Cards Out of the Deck.
Object of the Game

The first player to get rid of all of your cards in each round and score points for the cards your opponents are left holding. Points in rounds accumulate and the first player to reach 500 points wins.

Setup

1. Each player draws a card; the player that draws the highest number deals (count any card with a symbol as zero).
2. The dealer shuffles and deals each player 7 cards.
3. Place the remainder of the deck face down to form a DRAW pile.
4. The top card of the DRAW pile is turned over to begin a DISCARD pile. NOTE: If any of the Action Cards (symbols) are turned over to start the DISCARD pile, see FUNCTIONS OF ACTION CARDS for special instructions.

Let’s Play

The person to the left of the dealer starts play.

On your turn, you must match a card from your hand to the card on the top of the DISCARD pile, either by number, color or symbol (symbols represent Action Cards; see FUNCTIONS OF ACTION CARDS).

EXAMPLE: If the card on the DISCARD pile is a 7, the player must put down a red or yellow 7. If you don’t have a 7, you must draw a card from the DRAW pile. If the card you picked up can be played, you are free to put it down in the same turn. Otherwise, play moves on to the next person in turn.

You may also choose NOT to play a playable card from your hand. If so, you must draw a card from the DRAW pile. If playable, that card can be put down in the same turn, however you may not play any other card from your hand after the draw.

Functions of Action Cards

1. Draw Two card – When you play this card, the next player must draw 2 cards and pass them to you.
2. Reverse card – When you play this card, the direction of play reverses (if play is currently to the left, then play changes to the right, and vice versa). This card may only be played on a matching color or on another Reverse card. If the Reverse card is turned up at the beginning of play, the dealer goes first, then play moves in the right instead of the left direction.
3. Skip card – When you play this card, the next player is “skipped” from their turn. This card may only be played on a matching color or on another Skip card. If a Skip card is turned up at the beginning of play, the person to the left of the player who played the Skip card starts play.
4. Wild card – When you play this card, you get to choose the color that continues play (any color except the color in play before the Wild card was laid down). You may play a Wild card on your turn even if you have another playable card in your hand. If a Wild card is turned up at the beginning of play, the person to the left of the dealer chooses the color that continues play.
5. Wild Draw Four card – When you play this card, you get to choose the color that continues play PLUS the next player must draw 4 cards from the DRAW pile and pass them to you. However, there is a VOCATIONAL draw card when you do NOT have another card in your hand that matches the COLOR on the DISCARD pile; if it is acceptable to play this card if you have matching number or Action Cards. If turned up at the beginning of play, return this card to the deck and pick another card.

NOTE: If you suspect that a Wild Draw 4 card has been played on you legally (i.e. the player has a matching card), then you may challenge that player. The challenged player must show you the challenger their hand. If guilty, the challenged player must draw 4 cards instead of you. However, if the challenged player is innocent, you must draw the 4 cards PLUS an additional 2 cards (8 total).

Using Customizable Cards

The customizable rule cards can be as wild as you like. Use them to speed up the game, add a bit more strategy, or force someone to do something you think they shouldn’t. Here are some thought starters for your own custom rules:

1. The next player must draw until they draw a card of a certain color.
2. Everyone but you must discard all their Wild cards.
3. If the next player can’t play a card, they take THREE cards from the DRAW pile.
4. Take an extra turn.
5. The next player must draw or discard until they have exactly 7 cards.
6. Everyone must discard (or draw) until they have exactly 3 cards.
7. Everyone must play with their hand face up until your next turn.
8. Tell a joke. If someone laughs, discard down to 1 card don’t forget to yell “UNO!”). If no one laughs, draw 4 cards.
9. The next player cannot bend their elbows until someone says “Uno!”
10. The next player must perform a specific action such as “Kicken out” and draw 4 cards.

Going Out

When you play your next-to-last card, you must yell “UNO” (meaning “one”) to indicate that you have only one card left. If you don’t yell “UNO” and you are caught before the next player begins their turn, you must draw two cards.

Once a player has no cards left, the round is over. Points are scored (see SCORING) and play starts over again.

If the last card played is a Draw Two or Wild Draw Four card, the next player must draw 2 or 4 cards respectively. These cards are counted when the points are totaled.

The customizable rule cards can be included in any round. If a player is out of cards at the time the DRAW pile is depleted, the DISCARD pile is reshuffled and play continues.

Scoring

The first player to get rid of all of their cards in a round receives points for all of the cards left in their opponents’ hands as follows:

<table>
<thead>
<tr>
<th>Card Value</th>
<th>Points Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>1–10</td>
<td>10 Points</td>
</tr>
<tr>
<td>11–20</td>
<td>20 Points</td>
</tr>
<tr>
<td>21–30</td>
<td>30 Points</td>
</tr>
<tr>
<td>31–40</td>
<td>40 Points</td>
</tr>
<tr>
<td>41–50</td>
<td>50 Points</td>
</tr>
<tr>
<td>51–60</td>
<td>60 Points</td>
</tr>
<tr>
<td>61–70</td>
<td>70 Points</td>
</tr>
<tr>
<td>71–80</td>
<td>80 Points</td>
</tr>
<tr>
<td>81–90</td>
<td>90 Points</td>
</tr>
<tr>
<td>91–100</td>
<td>100 Points</td>
</tr>
</tbody>
</table>

Once a player has no cards left, the round is over. Points are scored (see SCORING) and play begins again.

Winning the Game

The WINNER is the first player to reach 500 points.

Alternative Scoring and Winning

Another way to score points is to keep a running tally of the points each player is left with at the end of each round. When any player reaches 500 points, the player with the lowest points is the winner.

FOR A CLASSIC GAME OF UNO®, TAKE THE WILD SWAP HANDS CARD AND 3 WILD CUSTOMIZABLE CARDS OUT OF THE DECK.
**Object of the Game**
To be the first player to get rid of all of your cards in each round and score points for the cards your opponents are left holding. Points in rounds accumulate and the first player to reach 500 points wins.

**Setup**
1. Each player draws a card, the player that draws the highest number deals (count any card with a symbol as 0).
2. The dealer shuffles and deals each player 7 cards.
3. Place the remainder of the deck facedown to form a DRAW pile.
4. The top card of the DRAW pile is turned over to begin a DISCARD pile. NOTE: If any of the Action Cards (symbol cards) are turned over to start the DISCARD pile, see FUNCTIONS OF ACTION CARDS for special instructions.

**Let’s Play**

**On your turn, you must match a card from your hand to the card on the top of the DISCARD pile, either by number, color or symbol** (represent Action Cards; see FUNCTIONS OF ACTION CARDS).

**EXAMPLE:** If the card on the DISCARD pile is a yellow 7, you must put down a yellow 7 or any color 7. Alternatively, the player can put down a Wild card (See FUNCTIONS OF ACTION CARDS).

**When you play this card, the next player is “skipped” (loses their turn).** This card may only be played on a matching color or on another Skip card. If a Skip card is turned up at the beginning of play, the person to the left of the dealer chooses the color that continues play.

**NOTE:** If you suspect that a Wild Draw 4 card has been played on you illegally (i.e., the player has a winning hand, not enough cards to play a Wild Draw 4 card but your color is in play before the Wild Draw 4 is played), you may play a Wild Swap Hands card on your turn even if you have another playable card in your hand. If a Wild card is turned up at the beginning of play, the person to the left of the dealer chooses the color that continues play.

**Draw Two card** - When you play this card, the next player must draw 2 cards and miss their turn. This card may only be played on a matching color or on another Draw Two card. It turned up at the beginning of play, the same rule applies.

**Reverse card** - When you play this card, the direction of play reverses (if play is currently to the left, then play changes to the right, and vice versa). This card may only be played on a matching color or on another Reverse card. If this card is turned up at the beginning of play, the dealer goes first, then play moves to the right instead of the left.

**Skip card** - When you play this card, the next player is “skipped” (loses their turn). This card may only be played on a matching color or on another Skip card. If a Skip card is turned up at the beginning of play, the person to the left of the dealer chooses the color that continues play. When you play your next-to-last card, you must yell “UNO” (meaning “one”) to indicate that you have only one card left. If you don’t yell “UNO” and you are caught before the next player begins their turn, you must draw two cards. Once a player has no cards left, the round is over. Points are scored (see SCORING) and play starts over again.

**Wild card** - When you play this card, you get to choose the color that continues play (any color including the color in play before the Wild card was laid down). You may play a Wild card on your turn even if you have another playable card in your hand. If a Wild card is turned up at the beginning of play, the dealer goes first, then play changes to the right instead of the left.

**Wild Draw Four card** - When you play this card, the next player must draw 4 cards from the top of the DISCARD pile and lose their turn. However, there is a WC! You may only play this card when you do NOT have another card in your hand that matches the COLOR on the DISCARD pile, but it is acceptable to play this card if you have matching number or Action Cards. It turned up at the beginning of play, the person to the left of the dealer chooses the color that continues play.

**NOTE:** If you suspect that a Wild Draw 4 card has been played on you illegally (i.e., the player has a winning hand, not enough cards to play a Wild Draw 4 card but your color is in play before the Wild Draw 4 is played), you may play a Wild Swap Hands card on your turn even if you have another playable card in your hand. Also, you choose the color that resumes play. If this card is turned up at the beginning of play, the person to the left of the dealer chooses the color that begins play. When you play your next-to-last card, you must yell “UNO” (meaning “one”) to indicate that you have only one card left. If you don’t yell “UNO” and you are caught before the next player begins their turn, you must draw two cards.

**Wild Customizable card** - Use a #2 pencil to write any house rule you wish on a card. The only limit is your imagination (and the consent of the other players). Before the game begins, decide how many of these cards to include. You may use any 1 or all 3. It’s up to you. This is a Wild card so you may play it on your turn even if you have another playable card in your hand. Also, you choose the color that resumes play. If this card is turned up at the beginning of play, the person to the left of the dealer chooses the color that begins play. When you play your next-to-last card, you must yell “UNO” (meaning “one”) to indicate that you have only one card left. If you don’t yell “UNO” and you are caught before the next player begins their turn, you must draw two cards. Once a player has no cards left, the round is over. Points are scored (see SCORING) and play starts over again.

**Scoring**

The first player to get rid of all of their cards in a round receives points for all of the cards left in their opponents’ hands as follows:

- All number cards (0-9) ................................. 10 Points
- Wild .................................................................... 20 Points
- Wild Customizable cards .......................... 20 Points
- Wild Swap Hands card ............................. 20 Points
- Reverse .......................................................... 20 Points
- Skip............................................................... 20 Points
- Wild Draw Four ............................................. 50 Points
- Wild Draw Two .............................................. 20 Points
- Wild Swap Hands ........................................ 40 Points
- Customizable ................................................... 40 Points

Once the score for the round has been tallied, if no player has reached 500 points, reshuffle the cards and begin a new round.

**Winning the Game**
The WINNER is the first player to reach 500 points.

**Alternative Scoring and Winning**

Another way to score points is to keep a running tally of the points each player is left with at the end of each round. When one player reaches 500 points, the player with the lowest points is the winner.

**Using Customizable cards**

The customizable rule cards can be as wild as you like. Use them to speed up the game, add a bit more strategy, or force someone to do something only. Here are some thought starters for your own custom rules:

1. The next player must draw until they draw a card of a certain color.
2. Everyone but you must custom all their Wild cards.
3. If the next player can’t play a card, they take THREE cards from the DRAW pile.
4. Take an extra turn.
5. The next player must draw or discard until they have exactly 7 cards.
6. Everyone must discard (or draw) until they have exactly 3 cards.
7. Everyone must play with their hand face up until your next turn.
8. Tolt a joke. If someone laughs, discard down to 1 card (don’t forget to yell “UNO!”). If no one laughs, draw 4 cards.
9. The next player cannot bend their elbows until someone says “UNO!”
10. The next player must perform their best rooster call or “Chicken out” and draw 4 cards.

**Going, Go!**

When you play your next-to-last card, you must yell “UNO” (meaning “one”) to indicate that you have only one card left. If you don’t yell “UNO” and you are caught before the next player begins their turn, you must draw two cards.

Another way to score points is to keep a running tally of the points each player is left with at the end of each round. When one player reaches 500 points, the player with the lowest points is the winner.

**TIPS**

1. It’s a lot more fun to play than you would think.
2. The customizable rule cards can be as wild as you like. Use them to speed up the game, add a bit more strategy, or force someone to do something only.
3. Here are some thought starters for your own custom rules:
   - The next player must draw until they draw a card of a certain color.
   - Everyone but you must custom all their Wild cards.
   - If the next player can’t play a card, they take THREE cards from the DRAW pile.
   - Take an extra turn.
   - The next player must draw or discard until they have exactly 7 cards.
   - Everyone must discard (or draw) until they have exactly 3 cards.
   - Everyone must play with their hand face up until your next turn.
   - Tolt a joke. If someone laughs, discard down to 1 card (don’t forget to yell “UNO!”). If no one laughs, draw 4 cards.
   - The next player cannot bend their elbows until someone says “UNO!”
   - The next player must perform their best rooster call or “Chicken out” and draw 4 cards.

4. Going, Go! When you play your next-to-last card, you must yell “UNO” (meaning “one”) to indicate that you have only one card left. If you don’t yell “UNO” and you are caught before the next player begins their turn, you must draw two cards.

5. When a player has no cards left, the round is over. Points are scored (see SCORING) and play starts over again.

6. If the last card played in a round is a Draw Two or Wild Draw Four card, the next player must draw the 2 or 4 cards respectively. These cards are counted when the points are totaled.

7. If no player is out of cards by the time the DRAW pile is depleted, the DISCARD pile is reshuffled and play continues.

8. Another way to score points is to keep a running tally of the points each player is left with at the end of each round. When one player reaches 500 points, the player with the lowest points is the winner.

**FOR A CLASSIC GAME OF UNO®, TAKE THE WILD SWAP HANDS CARD AND 3 WILD CUSTOMIZABLE CARDS OUT OF THE DECK.**
