1.

Fill ice tray with water and freeze.

2.

Run under tap water for a few seconds. Pressing on the bottom of the ice tray, put the ice into the back of the hair blower.

3.

Plug the hair blower into the chair, as shown.

4.

Turn on the hair blower with the on/off switch on the chair. Blow on the doll's hair, changing the color.

For best results, run the hair blower for 30 seconds before blowing the doll's hair. Hold the hair blower very close to the doll's hair. Slowly move the blower over the hair.

Only highlights in the hair will change color.

The warmth of your hands changes the hair back to its original color.

When ice has melted, drain water from the hair blower and replace with new ice cubes.

Color change will last longer if you do not expose this toy to intense heat or direct sunlight for prolonged periods of time.
