

Battery Replacement

To replace batteries, use a Phillips head screwdriver (not included) to open battery cover. Insert 3 new AG13 (LR44) button cell batteries as shown. Use either AG13 (LR44) button cell batteries or equivalent. Replace battery cover and tighten screw. When exposed to an electrostatic source, the product may malfunction. If this problem occurs, reset the product by reinstalling the batteries. Be sure batteries are in place with battery cover tightly secured flush against back of toy. Replace batteries when lights dim or stop entirely.
