HELPFUL HINT:
Apply labels before assembly by numbers as indicated.

BATTERY INSTALLATION

- Exhausted batteries are to be removed from the product.
- Batteries are to be inserted with the correct polarity.
- Only batteries of the same or equivalent type as recommended are to be used.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable batteries.
- Non-rechargeable batteries are not to be recharged.
- When exposed to an electrostatic source, the product may malfunction. To resume normal operation, remove the batteries.
- Dispose of batteries safely.
- Replace battery cover and tighten screws.
- Install 4 “D” size (LR20) alkaline batteries (not included) in the orientation (+/-) shown.

NOTE: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

- Consult the dealer or an experienced radio/TV technician for help.
- Increase the separation between the equipment and receiver.
- Reorient or relocate the receiving antenna.
- Operation is subject to the following two conditions:
  1. This device may not cause harmful interference, and
  2. This device must accept any interference received, including interference that may cause undesired operation.

- This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
- It is the responsibility of the user to correct and avoid such interference.
- To avoid battery leakage:
- Do not dispose of this product in a fire. The batteries inside may explode or leak.
- Dispose of battery(ies) safely.
- The supply terminals are not to be short-circuited.
- Do not dispose of this product in a fire. The batteries inside may explode or leak.
- Dispose of battery(ies) safely.
- Batteries with household waste. This symbol indicates that this product should not be disposed of with other household waste.
- Please keep these instructions for future reference as they contain important information.
- ©2017 Mattel. All Rights Reserved. ® and ™ designate U.S. trademarks of Mattel, except as noted.
**APPLICATION LABELS**

- Apply labels before assembly by numbers as indicated.

---

**BATTERY INSTALLATION**

- Apply batteries in the orientation (+/-) shown.
- Unscrew the battery cover with a Phillips head screwdriver.
- Requires 4 “D” size (LR20) alkaline batteries.
- Batteries are not to be recharged.
- Batteries are only to be charged under adult supervision.
- Exhausted batteries are to be removed from the product.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable batteries.
- Non-rechargeable batteries are not to be recharged.
- Dispose of batteries safely.
- Replace batteries when booster can no longer propel car through the track set.
- For longer life use alkaline batteries.
- Replace battery cover and tighten screws.
- INSTRUCTIONS 4+

---

**ASSEMBLY (CONTD.)**

- Load stands with additional vehicles.
- Change lanes and launch again! Race along the inside lane!
- Change lanes and launch again! Race along the outside lane!
- Load vehicle into the winner’s circle.
- Push vehicle through the booster to launch! Race along the outside lane!

---

**TO PLAY**

- Load stands with additional vehicles.
- Change lanes and launch again! Race along the inside lane!
- Change lanes and launch again! Race along the outside lane!
- Load vehicle into the winner’s circle.
- Push vehicle through the booster to launch! Race along the outside lane!
**ASSEMBLY (CONT'D.)**

1. Apply labels before assembly by numbers as indicated.

2. Batteries are to be inserted with the correct polarity.

3. Only batteries of the same or equivalent type as recommended are to be used.

4. Do not mix old and new batteries.

5. Do not mix alkaline, standard (carbon-zinc), or rechargeable batteries.

6. Rechargeable batteries are only to be charged under adult supervision.

7. In exceptional circumstances batteries may leak fluids that can cause a chemical burn injury or ruin your product. To avoid battery leakage:
   - Remove battery cover and tighten screws.
   - Unscrew the battery cover with a Phillips head screwdriver (not included).
   - Requires 4 "D" size (LR20) alkaline batteries (not included).

8. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

9. Increase the separation between the equipment and receiver.

10. Reorient or relocate the receiving antenna.

11. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide
   - Operation is subject to the following two conditions:
     - This device may not cause harmful interference, and
     - This device must accept any interference received, including interference that may cause undesired operation.

12. When exposed to an electrostatic source, the product may malfunction. To resume normal operation, remove any parts that may have become electrostatically charged.

13. Replace battery cover and tighten screws.

14. Divert vehicle into the winner's circle.

15. Batteries are to be inserted with the correct polarity.

16. Only batteries of the same or equivalent type as recommended are to be used.

17. Do not mix old and new batteries.

18. Do not mix alkaline, standard (carbon-zinc), or rechargeable batteries.

19. Rechargeable batteries are only to be charged under adult supervision.

20. In exceptional circumstances batteries may leak fluids that can cause a chemical burn injury or ruin your product. To avoid battery leakage:
   - Remove battery cover and tighten screws.
   - Unscrew the battery cover with a Phillips head screwdriver (not included).
   - Requires 4 "D" size (LR20) alkaline batteries (not included).

21. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

22. Increase the separation between the equipment and receiver.

23. Reorient or relocate the receiving antenna.

24. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide
   - Operation is subject to the following two conditions:
     - This device may not cause harmful interference, and
     - This device must accept any interference received, including interference that may cause undesired operation.

25. When exposed to an electrostatic source, the product may malfunction. To resume normal operation, remove any parts that may have become electrostatically charged.

26. Replace battery cover and tighten screws.

27. Divert vehicle into the winner's circle.

28. Batteries are to be inserted with the correct polarity.

29. Only batteries of the same or equivalent type as recommended are to be used.

30. Do not mix old and new batteries.

31. Do not mix alkaline, standard (carbon-zinc), or rechargeable batteries.

32. Rechargeable batteries are only to be charged under adult supervision.

33. In exceptional circumstances batteries may leak fluids that can cause a chemical burn injury or ruin your product. To avoid battery leakage:
   - Remove battery cover and tighten screws.
   - Unscrew the battery cover with a Phillips head screwdriver (not included).
   - Requires 4 "D" size (LR20) alkaline batteries (not included).

34. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

35. Increase the separation between the equipment and receiver.

36. Reorient or relocate the receiving antenna.

37. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide
   - Operation is subject to the following two conditions:
     - This device may not cause harmful interference, and
     - This device must accept any interference received, including interference that may cause undesired operation.

38. When exposed to an electrostatic source, the product may malfunction. To resume normal operation, remove any parts that may have become electrostatically charged.

39. Replace battery cover and tighten screws.

40. Divert vehicle into the winner's circle.
3 ASSEMBLY (CONTD.)

4 TO PLAY

1. Push vehicle through the booster to launch! Race along the outside lane!

2. Change lanes and launch again! Race along the inside lane!

6. Load stands with additional vehicles.

7. Slide vehicle into the winner’s circle.

8. Divert vehicle into the winner’s circle.

Apply labels before assembly by numbers as indicated.

HELPFUL HINT:

- Exhausted batteries are to be removed from the product.
- Batteries are to be inserted with the correct polarity.
- Only batteries of the same or equivalent type as recommended are to be used.
- Rechargeable batteries are to be removed from the product before being charged.
- Non-rechargeable batteries are not to be recharged.
- Replace batteries when booster can no longer propel car through the track set.
- Install 4 “D” size (LR20) alkaline batteries (not included) in the orientation (+/-) shown.

NOTE: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

1. Consult the dealer or an experienced radio/TV technician for help.
2. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
3. Increase the separation between the equipment and receiver.
4. Encourage to try to correct the interference by one or more of the following measures:
   a. Reorient or relocate the receiving antenna.
   b. Increase the separation between the equipment and receiver.
   c. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
5. Operation is subject to the following two conditions:
   a. This device may not cause harmful interference, and
   b. This device must accept any interference, including interference that may cause undesired operation.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
2. For model FCW02-0970G3, the product is intended for children aged 4 years and older.
3. The toy is not suitable for children under 3 years of age.
4. Batteries are not included with this product.
5. Do not dispose of this product in a fire. The batteries inside may explode or leak.
6. Dispose of battery(ies) safely.
7. The supply terminals are not to be short-circuited.
8. Protect the environment by not disposing of this product or any product shall not be treated as household waste. Check your local authority for information on where to take this type of electronic waste for recycling or proper disposal.

Please keep these instructions for future reference as they contain important information.
Apply labels before assembly by numbers as indicated.

HELPFUL HINT:

- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable batteries.
- Non-rechargeable batteries are not to be recharged.
- In exceptional circumstances batteries may leak fluids that can cause a chemical reaction. Follow the manufacturer’s instructions for safe disposal.
- When exposed to an electrostatic source, the product may malfunction. To resume normal operation, remove the batteries and reinsert them.
- Dispose of batteries safely.
- For longer life use alkaline batteries.
- Replace battery cover and tighten screws.
- Unscrew the battery cover with a Phillips head screwdriver (not included).
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Reorient or relocate the receiving antenna.

Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Apply labels before assembly by numbers as indicated.

HELPFUL HINT:

- Exhausted batteries are to be removed from the product.
- Batteries are to be inserted with the correct polarity.
- Only batteries of the same or equivalent type as recommended are to be used.
- Do not mix old and new batteries.
- In exceptional circumstances batteries may leak fluids that can cause a chemical reaction.
- When exposed to an electrostatic source, the product may malfunction. To resume normal operation, remove and re-install the batteries.
- Dispose of batteries safely.
- Replace battery cover and tighten screws.
- Consult the dealer or an experienced radio/TV technician for help.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Increase the separation between the equipment and receiver.
- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and connected in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
  - Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.

- Do not dispose of this product in a fire. The batteries inside may explode or leak.
- Dispose of battery(ies) safely.
- The supply terminals are not to be short-circuited.
- Protect the environment by not disposing of this product or any part of it in household waste. Check your local authorities for recycling advice and facilities.
- This symbol indicates that this product is to be disposed of as electrical and electronic waste. Check your local authorities for further details.
2 BATTERY INSTALLATION

- Only batteries of the same or equivalent type as recommended are to be used.
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable batteries.
- Rechargeable batteries are only to be charged under adult supervision.

43. The equipment should be placed relatively near the receiver.

44. The equipment should be placed relatively far away from the receiver.

45. The equipment should be placed relatively near the receiver.
Apply labels before assembly by numbers as indicated.

2 BATTERY INSTALLATION

Exhausted batteries are to be removed from the product.

• Only batteries of the same or equivalent type as recommended are to be used.

• Do not mix old and new batteries.

• Do not mix alkaline, standard (carbon-zinc), or rechargeable batteries.

BATTERY SAFETY INFORMATION

• Dispose of batteries safely.

• For longer life use alkaline batteries.

• Replace battery cover and tighten screws.

NOTE: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

• Increase the separation between the equipment and receiver.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Operation is subject to the following two conditions:

This device complies with Part 15 of the FCC Rules. Encouraged to try to correct the interference by one or more of the following measures:

1. Relokate the receiver.
2. Increase the separation between the equipment and receiver.
3. Connect!
