

CharMinis™

Deluxe Jewelry Studio

CONTENTS:

- 1 Jewelry Tree with Glitter Dome
- 1 Bottle with Brush
- 6 Nylon Cords
- 1 Glaze Pot
- 1 Bag of Glitter
- 2 Safety Clasps
- 98 Charm Pieces
- 30 Jump Rings

Please remove everything from the package and compare to the contents list. If items are missing, please contact Customer Service: 1-800-CRAYONS (US & Canada). Keep these instructions for future reference as they contain important information.

BEFORE YOU BEGIN

- ♥ Protect play surfaces before use
- ♥ Make sure hands are dry before use
- ♥ Wash hands with soap and water after play
- ♥ Keep charm pieces from being exposed to high humidity or water while storing
- ♥ Drain, rinse, clean and dry all items thoroughly before storing

ASSEMBLING THE CHARMINIS™ JEWELRY TREE

STEP 1: Insert the Bottom Center Piece into the Base and then align and snap Top Center Piece.

STEP 2: Add Arms to Center Piece. Ensure the hooks are facing down. Larger Arms snap into peg holes along Bottom Center Piece. Small Arms snap into peg holes along Top Center Piece.

STEP 3: Align bottom of Heart Topper with opening on top of Center Piece. Snap together to secure into place.

STEP 4: Carefully slide and snap Glitter Dome into Base, then add Dome Button.

STEP 5: Open and remove charm pieces from bags and place in Base. Keep the bags to store un-used pieces for future use. Place Glaze Pot in small circular space on Base. Fill Water Bottle with room temperature water and close with brush cap. Set Water Bottle on Base next to Glaze Pot. See fully assembled Jewelry Tree Stand above.

CREATING YOUR CHARM

STEP 1: When handling charm pieces make sure your hands are dry. Select the pieces you want to use to build your charm. Using the water bottle and brush, apply a small amount of water to the area you want to add a piece. Hold pieces together for approximately 30 seconds and watch them magically fuse!

STEP 2: Repeat step 1 for stacking and fusing pieces together to complete your charm.

TIP: For best adhesion strength between two charm pieces, make sure to add water and connect on the largest surface area on each charm piece.

STEP 3: To finish building your charm, add the jump ring by applying a small amount of water to the ring and hold it against the charm for approximately 30 seconds. Next, hang your charm on a hook of the Jewelry Tree and allow charm to dry for approximately 20 minutes. The charm is dry when it is no longer sticky to the touch.

GLAZE & GLITTERIZE YOUR CHARM

STEP 1: Glazing your Charm: Open the Glaze Pot. Remove a dry charm from the Jewelry Tree and hold it by the jump ring. Brush glaze on ALL sides of charm. If you want to add glitter, see next step. For best results apply glitter when charm is still wet.

STEP 2: Remove the Glitter Dome button. Add a small amount of glitter dust onto the top of the Glitter Dome and replace button. Open Glitter Dome and place your damp, glazed charm onto the slotted plate on the base and close dome. Gently push the button a few times to give your charm a dusting of glitter.

Remove your charm from the dome and use brush to gently mix the layer of glaze and glitter together. This will create a protective seal and prevent extra glitter from falling off later.

STEP 3: Hang your charm from a hook on the Jewelry Tree and allow approximately 25 minutes to dry.

KEEP CHARMS AWAY FROM WATER.

CREATING A CHARMINIS™ NECKLACE

STEP 1: Cut a piece of the Cord to the desired length and tie a knot on one end. Next, using the un-knotted end, thread the cord through one side of the Safety Clasp and pull until the knot you created is hidden inside the clasp piece.

STEP 2: Once you have added your charms onto the cord, thread and knot the second half of the Safety Clasp on the cord to complete your necklace. Make sure the clasp "snaps" together for secure closure. Now you are ready to wear your Charminis™ necklace!

TIPS

- ♥ Be creative! Braid or loom the cord before adding any charm pieces.
- ♥ Add as many charms as you desire by lacing the cord through the jump rings of your charms.
- ♥ To make a bracelet, follow the same steps as making a necklace, but use a shorter piece of cord. Use a clasp or simply tie a knot.
