Workin' Roundhouse™

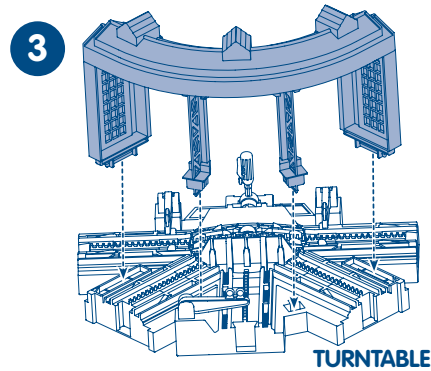

Assembly

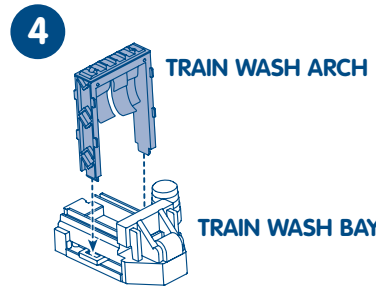

- Position the roof so the bottom is facing you.
- **"Snap"** the two facades into the roof, as shown.

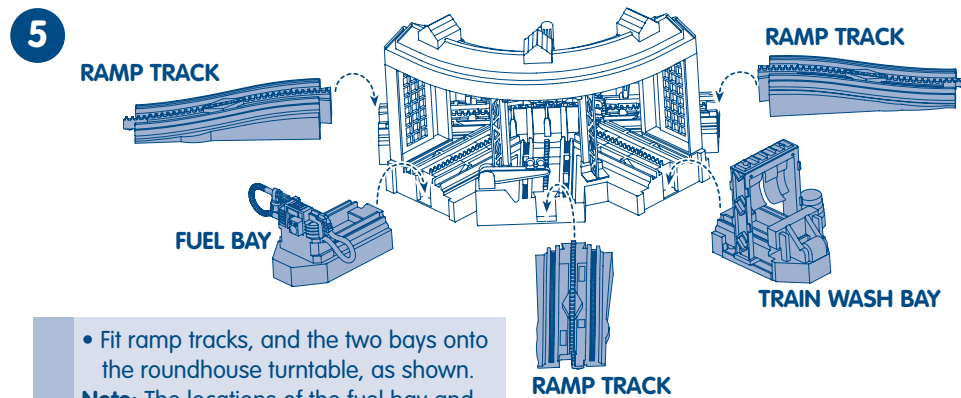

- **"Snap"** the two window walls into the roof, as shown.

- **"Snap"** the roof assembly into the turntable.

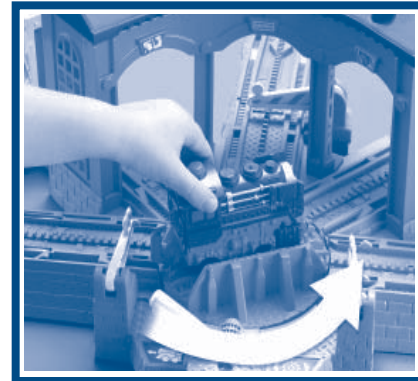

- **"Snap"** the train wash arch onto the train wash bay.

- Fit ramp tracks, and the two bays onto the roundhouse turntable, as shown.
- Note:** The locations of the fuel bay and train wash bay can be interchanged.

So Many Ways to Go!

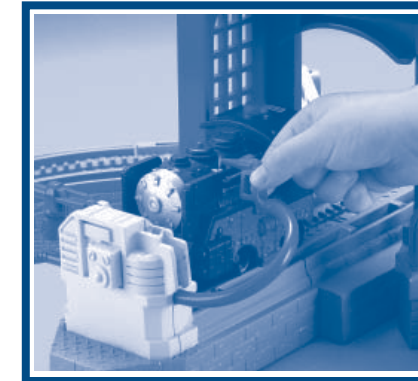

Turn your train and push it into any bay

Slide the arch back and forth to "wash" your train.

Drive through the roundhouse or put your train there to "sleep" for the night.

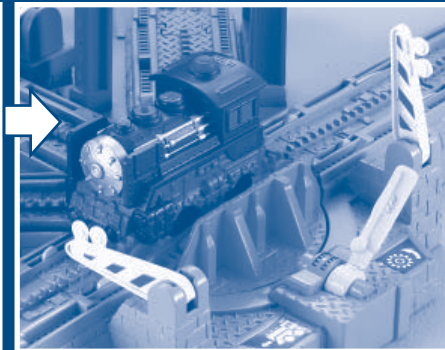

Pull into the fuel bay to fill up or fix up.

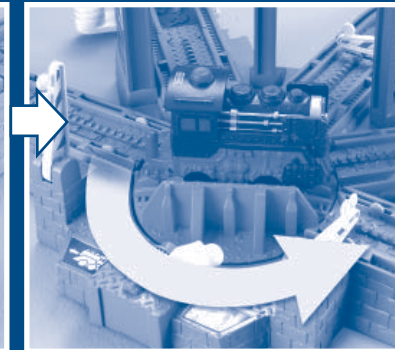

Add your RC Train for the Magic of GeoMotion™!

Flip the GeoMotion™ switch.

Use your remote controller to drive your RC engine onto the turntable. The engine will automatically uncouple any cars that are attached.

GeoMotion™ rotates the turntable. Flip the GeoMotion™ switch again to travel down any track or into the bays!

The more you collect, the more fun it gets!

Multiple track packs used to create this configuration. Each sold separately and subject to availability.
