Crib Attachment and Battery Installation

IMPORTANT! Always use the straps provided to attach this toy to a crib.

1 **Note:** If you are attaching this toy to a crib side rail that can be lowered and raised, make sure the crib side rail is in the raised (locked) position whenever a child is in the crib.

- Position the toy inside the crib so that the socket fits between two of the crib rails.
- Wrap one of the toy's attachment straps around the crib spindles.
- Fasten the attachment strap slot to the button on the back of the toy. This toy should be snug against the crib rail and spindles. Use the strap slot that provides the tightest fit.
- Repeat this procedure to secure the other attachment strap.

Crib Attachment and Battery Installation

WARNING

To prevent entrapment of baby's head, keep distance between the bottom of the product and the crib mattress to at least 7 inches.

- If the distance between the toy and the mattress is less than 7 inches: readjust the attachment straps to lift the product; or lower the crib mattress.

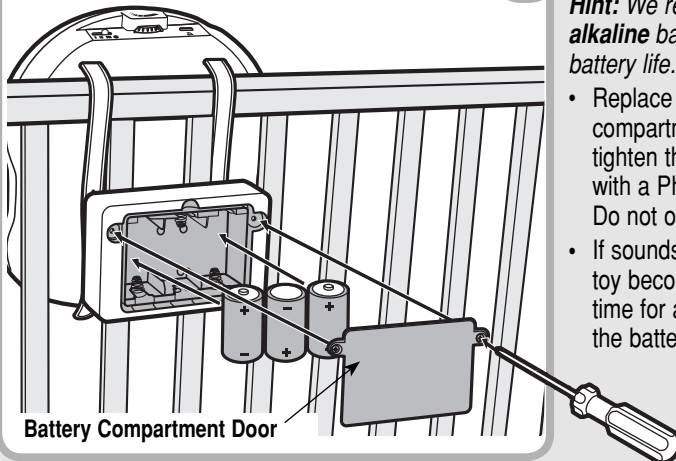

Crib Attachment and Battery Installation

3

- Locate the battery compartment door on the battery box.
- Loosen the screws in the battery compartment door with a Phillips screwdriver. Remove the battery compartment door.
- Fit the battery box to the socket on the back of the toy.
- Tighten the four screws inside the battery compartment to secure the battery box.

4

- Insert three “D” (LR20) **alkaline** batteries.
- Hint: We recommend using **alkaline** batteries for longer battery life.*
- Replace the battery compartment door and tighten the screws with a Phillips screwdriver. Do not over-tighten.
 - If sounds or lights from this toy become faint or stop, it's time for an adult to change the batteries.

Battery Information

SHOWN ACTUAL SIZE

- Protect the environment by not disposing of this product with household waste (2002/96/EC). Check your local authority for recycling advice and facilities.

Battery Safety Information
In exceptional circumstances, batteries may leak fluids that can cause a chemical burn injury or ruin your toy.

To avoid battery leakage:

- Do not mix old and new batteries or batteries of different types: alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium).
- Insert batteries as indicated inside the battery compartment.
- Remove batteries during long periods of non-use. Always remove exhausted batteries from the toy. Dispose of batteries safely. Do not dispose of this toy in a fire. The batteries inside may explode or leak.
- Never short-circuit the battery terminals.
- Use only batteries of the same or equivalent type, as recommended.
- Do not charge non-rechargeable batteries.
- Remove rechargeable batteries from the toy before charging.
- If removable, rechargeable batteries are used, they are only to be charged under adult supervision.

Soothing Sights and Sounds

FCC Note (United States Only)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

Note: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.
