## COOL TIPS & TRICKS ON HOW TO ROCK!

(You're gonna wanna hold onto this - it's a keeper!)

### 1. HELP! I never picked up a guitar before – I don't even know how to hold one.

- Not a problem. Just take a trip on the "ROAD TO ROCK" game found on the MAIN MENU to start learning all the hottest, rockin' moves!

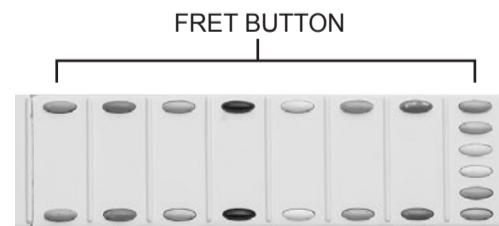

### 2. This thing goes too fast! How can I get it to chill out?

- No worries. While you're playing a song, you can slow it down (or speed it up!) by just pressing the up and down arrow keys.

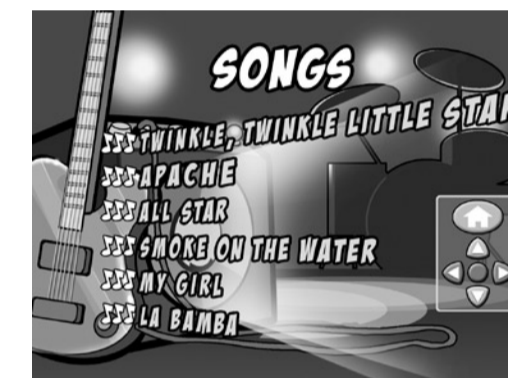

### 3. I can't tell which fret button to press – what's up with that?

- Seriously – if you hold down a fret button and look at your TV, the fret button on the screen will be lit up too – so you can see where you are!

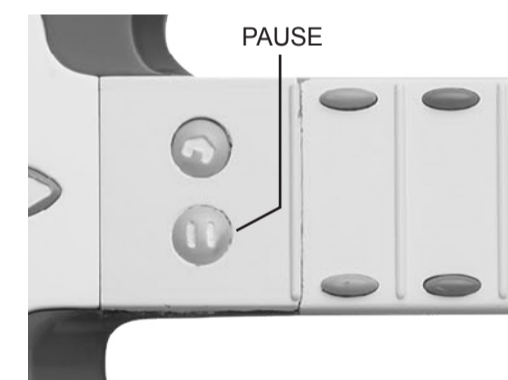

### 4. How do I know what level I'm on? I mean - where am I?

- The songlist menu will show you what level you're at for each song. And when you go to play that song, you can go back to a previous level if you want to practice and work on your riffs! Just press the forward and back arrow keys.

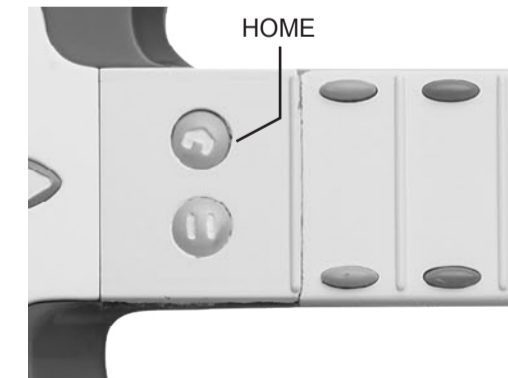

### 5. That's it – I need a BREAK!! How do I pause this thing?

- Hey - just use the pause button! And while the song is paused, you can still practice – the buttons will still light up on your screen!

### 6. That's it – I'm done! How do I get out of here and save my game?

- You wanna go home? Then press HOME! It will take you back to the main menu, and your game is saved for next time - or you can pick a new song to rock. Piece 'a cake!
