Rail & Road System

Assembly

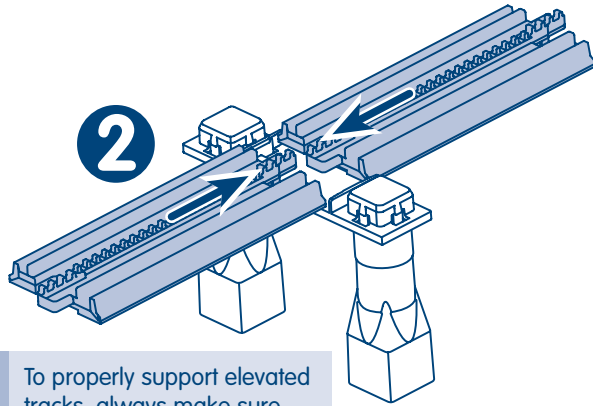

"Snap" a support top onto two support columns.

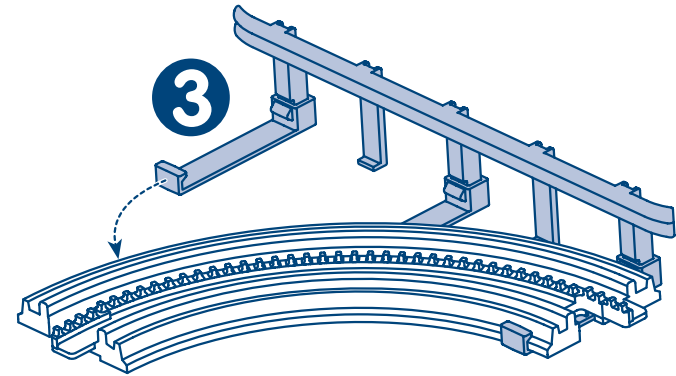

Elevation Track Tips

1
You can stack up support column assemblies to make a higher track layout.

2
To properly support elevated tracks, always make sure you have support columns under track connections.

- 3
- When you have a curved track at the bottom of a ramp assembly, be sure to use a guardrail on the curve. This keeps the fast moving train on the track!
 - To attach the guardrail, fit a tab on one end of the guardrail under the curved track, as shown.
 - Bend the guardrail slightly to fit the other two tabs to the curved track.

Parts

- A. 2 Short Tracks
- B. 4 Guardrails
- C. 4 Curved Tracks
- D. 8 Support Tops
- E. 2 Straight Tracks
- F. 16 Support Columns

Please keep this instruction sheet for future reference, as it contains important information.

Adult assembly is required.

No tools required for assembly.
