Assembled Parts

2 Small Bases

Large Base

Arches with
Air Track

2 Side Rails

Long Bridge Track

4 End Rails

2 Short Bridge
Tracks

2 Air Tracks

Assembly

1

- “Snap” a short bridge track onto the large base, as shown.

2

- Position the small bases next to each other, as shown. Make sure the flat side of each base faces each other.
- “Snap” the other short bridge track onto the small bases, as shown.

3

- “Snap” the long bridge track onto the both base assemblies.

4

- “Snap” the ends of both side rails into the arches, as shown.
- Note:** The air track needs to form the configuration shown. Turn the air track connectors to adjust the air track.

5

- “Snap” the bridge assembly onto the base assembly.

6

- “Snap” two end rails to each arch, as shown.

7

- Slide a air track into the bottom of the connector on an arch.
- Attach the free end to the air track connector under the bridge.
- Repeat this procedure with the other air track on the other side of the bridge.
