

Safety recall!

Mattel, in cooperation with the United States Consumer Product Safety Commission is voluntarily recalling a number of Polly Pocket™ and Doggie Daycare™ playsets containing small powerful magnets. The magnets inside these dolls and accessories may fall out – undetected to parents and caregivers.

The magnets can be swallowed, aspirated by young children or placed in their ears or nose leading to potentially serious injuries to children who swallow more than one magnet. Magnets placed in the nose or ears can cause swelling and be difficult to remove.

Please check your home, play areas and toys for any loose or liberated magnets—remove these from the reach of children. Discontinue use of magnetic playsets matching these descriptions and use this guide to determine if they are affected by this recall. Full color images of every product are included on subsequent pages. Use these images as a guide to identify the products you own.

Affected Polly Pocket™ fashions and other accessories have magnets that are visible from the backside of the part, appearing as a small silver button. Unaffected fashion pieces will have a white coating over the magnets as shown below. The accessories which came with these fashions are also unaffected. These magnets may have a clear or colored coating or cover.
