Frequently Asked Questions

- Q: What is “Dinosaur of the Week?”
 - A: A specific dinosaur will be featured each week. The featured dinosaur will appear as the first tile in your collection tab.

- Q: Why is the dinosaur tile in my collection grayed out?
 - A: This means the dinosaur is waiting to be scanned. When you click the tile, you can still press and hold the screen to light a flare to preview the dinosaur.

- Q: Where can I find the marker on my Mattel Jurassic World dinosaur figure?
 - A: The marker can be found under the foot of your dinosaur figure. Each core scale Mattel Jurassic World dinosaur figure comes with the marker ready to be scanned. The app logo is indicated on the back of the packaging.

- Question: Why can't I scan the marker?
 - A: Try to increase or decrease ambient lighting. Scanning may function better in different light, depending on the device used. Position the device at mid-range from the sticker, wait for the camera to focus, then slowly back away and/or move closer to optimize the zoom. Make sure your camera lens is clean.

- Question: Why is there a difference between my physical toy and the in-game version?
 - Answer: The in-game version doesn't include battle damage or elements related specifically to the toy (i.e. wheels on a dinosaur or other toy features).
- Q: How do I favorite my dinosaur?
 - A: Once the dinosaur is scanned and unlocked, tap on the 'heart' icon on the dinosaur card to favorite that dinosaur. Your favorite dinosaurs will appear at the top of your collection.
- Q: How do I add dinosaur to my Wishlist? Where can I see my Wishlist?
 - A: Tap the 'star' icon to add a locked dinosaur to your Wishlist. The Wishlist can be previewed in the "Settings" tab.
- Question: I saved my Wishlist but can't find it, where is it?
 - A: The Wishlist is saved on the device's gallery and can be accessed by any application that shows the images on device (ex. Google photo, camera, file manager).
